CAMBRIDGE LIBRARY COLLECTION

Books of enduring scholarly value

Perspectives from the Royal Asiatic Society

A long-standing European fascination with Asia, from the Middle East to China and Japan, came more sharply into focus during the early modern period, as voyages of exploration gave rise to commercial enterprises such as the East India companies, and their attendant colonial activities. This series is a collaborative venture between the Cambridge Library Collection and the Royal Asiatic Society of Great Britain and Ireland, founded in 1823. The series reissues works from the Royal Asiatic Society's extensive library of rare books and sponsored publications that shed light on eighteenth- and nineteenth-century European responses to the cultures of the Middle East and Asia. The selection covers Asian languages, literature, religions, philosophy, historiography, law, mathematics and science, as studied and translated by Europeans and presented for Western readers.

The Works of Sir William Jones

A renowned Enlightenment polymath, Sir William Jones (1746–94) was a lawyer, translator and poet who wrote authoritatively on politics, comparative linguistics and oriental literature. Known initially for his Persian translations and political radicalism, Jones became further celebrated for his study and translation of ancient Sanskrit texts following his appointment to the supreme court in Calcutta in 1783. He spent the next eleven years introducing Europe to the mysticism and rationality of Hinduism through works such as his nine 'Hymns' to Hindu deities and his translation of the Sanskrit classic *Sacontalá*. Volume 7 of his thirteen-volume works, published in 1807, addresses Jones' significant jurisprudential work, containing his 'Charges' as a supreme court judge. It also contains Jones's most controversial work, his *Institutes of Hindu Law* (1794), a translation from Sanskrit which Jones considered his masterpiece, although postcolonial scholars argue that it cemented Britain's imperial control over India.

Cambridge University Press has long been a pioneer in the reissuing of out-of-print titles from its own backlist, producing digital reprints of books that are still sought after by scholars and students but could not be reprinted economically using traditional technology. The Cambridge Library Collection extends this activity to a wider range of books which are still of importance to researchers and professionals, either for the source material they contain, or as landmarks in the history of their academic discipline.

Drawing from the world-renowned collections in the Cambridge University Library and other partner libraries, and guided by the advice of experts in each subject area, Cambridge University Press is using state-of-the-art scanning machines in its own Printing House to capture the content of each book selected for inclusion. The files are processed to give a consistently clear, crisp image, and the books finished to the high quality standard for which the Press is recognised around the world. The latest print-on-demand technology ensures that the books will remain available indefinitely, and that orders for single or multiple copies can quickly be supplied.

The Cambridge Library Collection brings back to life books of enduring scholarly value (including out-of-copyright works originally issued by other publishers) across a wide range of disciplines in the humanities and social sciences and in science and technology.
