## CAMBRIDGE LIBRARY COLLECTION

*Books of enduring scholarly value*

### Literary Studies

This series provides a high-quality selection of early printings of literary works, textual editions, anthologies and literary criticism which are of lasting scholarly interest. Ranging from Old English to Shakespeare to early twentieth-century work from around the world, these books offer a valuable resource for scholars in reception history, textual editing, and literary studies.

### Memoirs of the Life of Sir Walter Scott

As son-in-law and literary executor to Sir Walter Scott (1771–1832), John Gibson Lockhart (1794–1854) was uniquely placed to produce a definitive biography of the great poet and novelist. First published in 1837–8, shortly after Scott's death, this celebrated seven-volume work is based on personal memories, correspondence, and Scott's autobiographical sketches. Wide-ranging in his purview, Lockhart is also detailed in his descriptions: the *Aberdeen Journal* of the day observed that the volumes trace Scott's life and literary efforts with 'the most minute distinctness'. Volume 3 opens in 1812 with an account of 'one of the busiest summers of Scott's busy life', during which he finally moved into his beloved Abbotsford. Incorporating extracts from Scott's correspondence with the English poet George Crabbe, this volume covers the period in which Scott finished *Waverley* (1814) and published in verse *The Field of Waterloo* (1815).

Cambridge University Press has long been a pioneer in the reissuing of out-of-print titles from its own backlist, producing digital reprints of books that are still sought after by scholars and students but could not be reprinted economically using traditional technology. The Cambridge Library Collection extends this activity to a wider range of books which are still of importance to researchers and professionals, either for the source material they contain, or as landmarks in the history of their academic discipline.

Drawing from the world-renowned collections in the Cambridge University Library and other partner libraries, and guided by the advice of experts in each subject area, Cambridge University Press is using state-of-the-art scanning machines in its own Printing House to capture the content of each book selected for inclusion. The files are processed to give a consistently clear, crisp image, and the books finished to the high quality standard for which the Press is recognised around the world. The latest print-on-demand technology ensures that the books will remain available indefinitely, and that orders for single or multiple copies can quickly be supplied.

The Cambridge Library Collection brings back to life books of enduring scholarly value (including out-of-copyright works originally issued by other publishers) across a wide range of disciplines in the humanities and social sciences and in science and technology.
