INTRODUCTION.		CHAP. V.—CO-ORDINATES.	
1 Methods employed ... ..	xiii	18 Station marks ... ..	34
2 Scope of the present work ... ..	xiv	19 Table of co-ordinates ... ..	34
3 Use of expressions ... ..	xv	CHAP. VI.—OUTSIDE OF GREAT PYRAMID.	
CHAP. I.—OBJECTS AND MEANS.		20 Relation of sockets to casing ... ..	37
4 Need of fresh measurements ... ..	1	21 Length of sides of casing ... ..	39
5 Outline of work demanded ... ..	3	22 Levels and positions of sockets ... ..	40
6 Stay at Gizeh ... ..	6	23 Levels up the Pyramid ... ..	41
7 Assistance obtained ... ..	7	24 Angle of the Pyramid ... ..	42
CHAP. II.—INSTRUMENTS.		25 Form of top of the Pyramid ... ..	43
8 List of instruments ... ..	10	26 Casing of the Pyramid ... ..	43
9 Details of lineal instruments ... ..	11	27 Pavement of the Pyramid ... ..	44
10 Details of angular instruments ... ..	15	28 Basalt pavement ... ..	46
CHAP. III.—METHODS OF MEASUREMENT.		29 Rock trenches ... ..	47
11 Lineal measures ... ..	22	30 Trial passages ... ..	50
12 Angular measures ... ..	23	31 Connection of inside and outside ... ..	51
CHAP. IV.—EXCAVATIONS.		32 Original position of entrance ... ..	51
13 Inside Great Pyramid ... ..	27	33 Mouths of air-channels ... ..	52
14 Casing, &c., of Great Pyramid ... ..	29	34 Blocks above entrance .. ..	53
15 Second Pyramid, casing, &c. ... ..	30	CHAP. VII.—INSIDE OF GREAT PYRAMID.	
16 Third Pyramid, casing, &c. ... ..	31	35 Entrance passage, length ... ..	55
17 Workmen ... ..	32	36 " " azimuth and angle... ..	58
		37 Subterranean chamber, &c. ... ..	59
		38 Ascending passage, length ... ..	61
		39 " " azimuth and angle.. ..	64
		40 Passage to Queen's Chamber ... ..	65
		41 Queen's Chamber, plan ... ..	66
		42 " " height ... ..	67
		43 " " niche ... ..	69
		44 " " channels ... ..	70

SECTION.	PAGE	SECTION	PAGE
45 Gallery, length and angles ... ..	71	81 Angle and height of Pyramid ... ..	112
46 „ roof and walls ... ..	72	82 Courses ... ..	112
47 Antechamber and passages ... ..	75	83 Peribolus walls and temple ... ..	114
48 „ dimensions ... ..	76	CHAP. XI.—INSIDE OF THIRD PYRAMID.	
49 „ details of walls ... ..	77	84 Entrance passage... ..	117
50 „ granite leaf ... ..	78	85 First chamber ... ..	117
51 King's Chamber, walls ... ..	79	86 Second chamber ... ..	118
52 „ „ plan ... ..	80	87 Granite chamber ... ..	118
53 „ „ roof ... ..	81	88 Loculus chamber ... ..	119
54 „ „ floor ... ..	82	89 Original entrance passage ... ..	120
55 „ „ working ... ..	82	CHAP. XII.—LESSER PYRAMIDS OF GIZEH.	
56 „ „ channels ... ..	83	90 Northern small Pyramid ... ..	121
57 Coffin, character ... ..	84	91 Middle small Pyramid ... ..	123
58 „ position ... ..	84	CHAP. XIII.—POSITIONS AND ORIENTATION OF THE PYRAMIDS.	
59 „ offsets to surfaces ... ..	85	92 Relative positions of Pyramids ... ..	125
60 „ calipering ... ..	89	93 Orientation of large Pyramids... ..	125
61 „ volumes ... ..	90	94 Change of earth's axis ... ..	126
62 Chambers of construction ... ..	91	CHAP. XIV.—THE GRANITE TEMPLE, &C.	
63 „ „ details ... ..	92	95 Position of Granite Temple ... ..	128
64 Summary of interior positions ... ..	95	96 Description of Temple ... ..	129
CHAP. VIII.—OUTSIDE OF SECOND PYRAMID.		97 Workmanship of Temple ... ..	132
65 Relation of rock to casing ... ..	96	98 Original appearance of Temple ... ..	133
66 Length of sides of casing ... ..	97	99 Date of Temple ... ..	133
67 Angle of Pyramid, and height ... ..	97	100 Constructions near Great Pyramid ... ..	134
68 Courses of the Pyramid ... ..	98	101 Basalt and diorite casings ... ..	135
69 Pavement ... ..	99	102 Diorite at Gizeh... ..	136
70 Levelled site ... ..	99	CHAP. XV.—TOMBS OF GIZEH.	
71 Peribolus walls ... ..	100	103 Angles of Mastabas ... ..	138
72 Barracks of workmen ... ..	101	104 Campbell's tomb ... ..	138
CHAP. IX.—INSIDE OF SECOND PYRAMID.		CHAP. XVI.—NOTES ON OTHER PYRAMIDS.	
73 Entrance passage... ..	104	105 Abu Roash, Pyramid of Men.....ra ... ..	140
74 Horizontal passage ... ..	104	106 Sakkara, Pyramid of Pepi ... ..	142
75 Great chamber ... ..	105		
76 Coffin, character ... ..	106		
77 „ dimensions ... ..	107		
78 Lower chamber, and passage ... ..	108		
CHAP. X.—OUTSIDE OF THIRD PYRAMID.			
79 Nature of the casing ... ..	110		
80 Length of the sides ... ..	111

SECTION.	PAGE	SECTION.	PAGE
107 Dahshur, Great Pyramid ... ..	144	138 Divisions of lists in the tombs... ..	179
108 Dahshur, South Pyramid ... ..	144	139 Decimal division of cubit ... ..	180
109 Dahshur " " door ... ..	145	140 Values of the digit ... ..	180
110 Mastaba-Pyramids, Sakkara & Medum	146	141 Comparison with previous results ... ..	181
CHAP. XVII.—HISTORICAL NOTES.		CHAP. XXI.—THEORIES COMPARED WITH FACTS.	
111 Climate of early times ... ..	149	142 The comparisons based on the facts ... ..	182
112 Men.....ra of Abu Roash ... ..	151	143 The Great Pyramid base ... ..	182
113 Khufu and Khnumu-Khufu ... ..	152	144 " " height ... ..	183
114 Ratafef ... ..	152	145 " " angle ... ..	184
115 Khafra ... ..	153	146 " " courses ... ..	184
116 Menkaura, and the Third Pyramid ... ..	153	147 Rock trenches by Great Pyramid ... ..	185
117 Brick Pyramids ... ..	155	148 Positions of the chambers ... ..	186
118 Petukhanu's tablet of Khufu ... ..	156	149 Lengths of the passages ... ..	187
119 Destruction of buildings ... ..	157	150 Dimensions of the passages ... ..	189
120 Accuracy of Greek historians ... ..	159	151 Angles of the passages ... ..	190
CHAP. XVIII.—ARCHITECTURAL IDEAS OF THE PYRAMID BUILDERS.		152 Subterranean Chamber... ..	191
121 Angles of the Pyramids ... ..	162	153 Queen's Chamber ... ..	191
122 The Accretion Theory of building ... ..	163	154 Antechamber ... ..	193
123 Application of it to the large Pyramids	165	155 King's Chamber ... ..	194
124 Inapplicability of the theory ... ..	165	156 Coffers ... ..	195
125 Plugging of the Pyramid passages ... ..	166	157 Synopsis of Great Pyramid theories ... ..	198
126 Doors of the Pyramids ... ..	167	158 The Tombic theory ... ..	200
127 Relative workmanship of Pyramids ... ..	169	159 Second Pyramid, outside ... ..	201
128 Use of Plaster ... ..	171	160 " " inside ... ..	202
CHAP. XIX.—MECHANICAL METHODS OF THE PYRAMID BUILDERS.		161 " " coffer... ..	203
129 Nature of tools employed on hard stone	173	162 Third Pyramid ... ..	204
130 Examples of sawing ... ..	174	163 Comparison of previous surveys ... ..	205
131 Examples of tubular drilling ... ..	175	CHAP. XXII.—HISTORY OF THE GREAT PYRAMID, AND ITS DESIGN.	
132 Examples of turning ... ..	176	164 Nature of the site ... ..	208
133 Rate of working ... ..	177	165 Source of the stone ... ..	209
134 Tools not actually found ... ..	177	166 Organization of the labour ... ..	210
135 References on other details ... ..	177	167 Preparation of the site ... ..	211
CHAP. XX.—VALUES OF THE CUBIT AND DIGIT.		168 Planning of the courses ... ..	212
136 The cubit in the Great Pyramid ... ..	178	169 Raising the stones ... ..	212
137 The cubit in other buildings ... ..	179	170 Tools and chips ... ..	212
		171 Deterioration of the work ... ..	213
		172 Plans altered ... ..	214
		173 Closing of the Pyramid... ..	215
		174 A second coffer ... ..	216
		175 Violation of the Pyramid ... ..	217
		176 Inscriptions on the Pyramid ... ..	217
		177 Destruction of the Pyramid ... ..	219
		178 Summary of probable theories ... ..	220

APPENDICES.			
I.—ON THE ARRANGEMENT OF A TRIANGULATION.			
179 Nature of survey of short distances ...	223	187 Probable error, a factor, not a term ...	231
180 Distribution of the observations ...	223	188 Plus and minus errors always possible	232
181 Order of observations ... ..	224	189 Secondary probable errors ... ..	233
II.—THE REJECTION OF DISCORDANT OBSERVATIONS.			
182 Continual and occasional errors ...	226	190 Applicability of approximate formulæ	235
183 Discrimination of occasional errors ...	227	191 Testing the normal distribution ...	236
184 Weighting observations by their divergence ... ..	228	III.—GRAPHIC REDUCTION OF TRIANGULATION.	
185 Application of the law of distribution	228	192 The need of a graphic method ...	238
186 Practical elimination of occasional errors ... ..	230	193 Old and new methods of graphic reduction... ..	239
		194 The practice of graphic reduction ...	239
		195 Delineation of the traces ... ..	241
		196 Accuracy in the present survey ...	241
		197 Applicability of graphic reduction ...	243
		INDEX ... ..	245
