

CONTENTS.

LONDON BRIDGE.

	Page.
REPORT of J. Smeaton, upon the questions proposed to him by the committee for improving, widening, and enlarging London bridge,	1
Report of John Smeaton, engineer, concerning the state of the great arch of London bridge, - - - - -	18
Letter to the Right Honorable the Lord Mayor, Aldermen, and Commons in common council assembled, - - - - -	22
Instructions for Mr. Nichol, to proceed with the water wheel and spur wheels for the great engine, to be erected under the fifth arch of London bridge, - -	27
Letter to the committee of London bridge water-works respecting their fire engine,	29,

FORTH AND CLYDE.

Report of John Smeaton, engineer, and F. R. S. concerning the practicability and expense of joining the rivers Forth and Clyde by a navigable canal, and thereby to join the east sea and the west, - - - - -	33
Comparative estimate between a canal from Forth to Clyde for vessels of forty tons, and for those proposed in the contracted scheme, - - - - -	54
Queries proposed by the Right Honorable Lord Cathcart, - - - - -	56
Answer to the said Queries by J. Smeaton, - - - - -	58
Minutes concerning the Forth and Clyde, - - - - -	66
Estimate of the probable expense of executing a canal from Carron shore to Barns of Clyde for vessels drawing eight feet water, - - - - -	70
Instructions to Mr. Mackell, relative to the proposed canal from Forth to Clyde, -	71
Second report of J. Smeaton, engineer, &c. on the practicability and expense of a canal from the Forth to the Clyde, for vessels of a greater burthen and draft of water than those which formed the subject of the first report, - - - - -	73
Estimates, - - - - -	90
Review of several matters relative to the Forth and Clyde navigation, with observations on the Reports of Messrs. Brindley, Yeoman, and Golburne, by John Smeaton, engineer, &c. - - - - -	98
	Comparative

CONTENTS.

	Page.
Comparative view of the expenses upon the work of the Forth and Clyde canal, as per general account, down to Christmas 1771, with the original estimate,	120
A plan or model for carrying on the mechanical part of the works of the canal from Forth to Clyde, by J. Smeaton, - - - - -	122

CALDER AND AIRE.

Report of J. Smeaton, engineer, concerning the state of the Calder navigation, from a view thereof taken the 25th and 26th of November, 1767, - - - - -	125
Report of J. Smeaton, upon the means of improving the navigation of the rivers Aire and Calder from the free and open tide's way to the towns of Leeds and Wakefield respectively, - - - - -	131
Report of J. Smeaton, upon a view of the Calder navigation the 25th and 26th February, 1779, in company with Messrs. Royde, &c. - - - - -	141
Report of J. Smeaton, upon the drainage of certain lands lying on the river Aire,	146

RIVER AIRE CANAL.

Report of J. Smeaton, upon the plan and projection of a canal on the north side of the river Aire from Haddlesey to Brier Lane end, as laid down by Mr. Jeffop, -	151
---	-----

LEA NAVIGATION.

Resolution of the Trustees of the river Lea navigation, 16th July, 1766, -	154
Report of J. Smeaton upon the new making and completing the navigation of the river Lea, from the Thames to Hertford, - - - - -	155

NEW RIVER WORKS.

Report of J. Smeaton, upon the improvements making by the New River Company near Ware in the county of Hertford, - - - - -	164
Letter to the Trustees of the River Lea, - - - - -	168

RIVER URE NAVIGATION, &c.

Report of J. Smeaton, upon a view of the works upon the river Ure, 27th April, 1770,	172
Report of J. Smeaton, concerning the repairs of the navigation dam at Westwick Wath, upon the river Ure, - - - - -	176
View of the works of the navigation of the river Ure, May 14th, 1771, by J. Smeaton,	179
Report of J. Smeaton, upon the state of the navigation of the river Ure from Ripon to Boroughbridge lock. - - - - -	182

HEWICK

CONTENTS.

vii

HEWICK BRIDGE.

Report of J. Smeaton and John Gott, engineers, respecting Hewick bridge,

Page.
185

BIRMINGHAM NAVIGATION.

Queries by Mr. Colemore, with Mr. Smeaton's answers, concerning the Birmingham canal, 189
 Report of J. Smeaton, upon several matters referred to his inspection and opinion by the committee of the Birmingham canal, - - - - 194

BUDE HAVEN CANAL.

Report of J. Smeaton, upon the practicability of a canal proposed from Bude harbour to the river Tamar, at Calstock, in the county of Cornwall, - - - - 213

KINGSTON AND EWELL CANAL.

Report of J. Smeaton, concerning the effect which the execution of a canal from the River Thames, at or near Kingston to Ewell, in the county of Surry, will have upon the several mills upon the contiguous stream, - - - - 230

RIVER TYNE CANAL.

Report of J. Smeaton, on the practicability and probable expense of extending the navigation of the river Tyne by a canal on the south side of the river from Stella, by Ryton, towards the grounds opposite Wylam, - - - - 238

KANQUARRY CANAL.

Report of J. Smeaton, upon the practicability and utility of making a navigable canal from Kanquarry to or near the New Bridge over the river Plym, in the county of Devon, 240

KNOTTINGLY NAVIGATION.

Report of J. Smeaton, upon the situation proper to be adopted for a new lock at Knottingly, - - - - 242

SOWERBY

CONTENTS.

	Page.
SOWERBY BRIDGE CANAL.	
Opinion of J. Smeaton, respecting the best way of supplying the Sowerby bridge cut with water from Holling's mill, - - - - -	244
DUBLIN GRAND CANAL.	
Queries from the Company of Undertakers of the Grand Canal, ordered to be laid before J. Smeaton, Esq. engineer, and F. R. S. - - - - -	247
Report of J. Smeaton, upon his view of the country through which the Grand Canal in Ireland is proposed to pass, and in answer to several matters contained in the queries of the Company of Undertakers of the Grand Canal, as agreed upon August 3 ^d , 1773, - - - - -	252
Further report on the preceding matters, - - - - -	262

Opinion of J. Smeaton on Mr. Jessop's report on the Tyrone canal, - - - - -	278
NORTH LEVEL FENS.	
Report of J. Smeaton, concerning the drainage of the North level of the fens, and the out-fall of the Wisbeach river, - - - - -	280
HATFIELD CHASE LEVEL.	
Report of J. Smeaton, upon the means of improving the drainage of the level of Hatfield Chase, - - - - -	299
KNIGHTSBRIDGE DRAIN.	
Report of J. Smeaton, on the expediency of carrying the outlet of the drain from Knightsbridge to Chelsea, into the Brook at the Cheshire Cheese, Chelsea, - - - - -	316
CARLISLE QUERIES.	
Carlisle queries, with the answers, - - - - -	319
THANKS EMBANKMENT.	
The report of J. Smeaton, engineer, upon the practicability and expense of embanking a track of mud lying in the bay before the house of the Honorable Captain Graves, at 'Thanks, on the river Tamar, in Cornwall, - - - - -	323
	COQUETT

CONTENTS.		ix
COQUETT DAM.		
Explanation of the design for a dam for the iron works, upon the river Coquett,	Page.	324
LUMLEY CASTLE.		
Fishing dam at Lumley Castle,	-	333
KINNAIRD ENGINE.		
The report of J. Smeaton, engineer, upon the powers and improvement of the engine at Kinnaird, &c.	-	334
YORK WATER-WORKS ENGINE.		
Directions for working the engine at the York water-works,	-	342
Letter to the proprietors of the York water-works,	-	343
LUMLEY COLLIERY ENGINE.		
Dimensions proper for a fire engine for raising water at the New Winning of Great and Little Lumley Colliery, &c.	-	346
CHASE WATER ENGINE.		
Calculation of the effects to be expected from Chase Water Engine, and comparison with the former two engines upon the same mine,	-	347
Additional remarks on particular parts of the engine for Chase Water,	-	350
CRONSTADT ENGINE.		
Directions to be observed in adjusting the engine for Cronstadt to its work,	-	360
GATESHEAD PARK ENGINE.		
Description of the method of supplying the boilers of a Fire Engine with soft water,		362
RAVENSBURN ENGINE.		
Explanation of the plan and elevation for the Ravensburn engine,	-	367
		SEACROFT

CONTENTS.

	Page.
SEACROFT COKE FURNACE.	
The Report of John Smeaton, engineer, concerning the powers necessary for working a coke furnace at Seacroft, - - - - -	373
COAL ENGINE	
Comparative estimate of drawing coals by horses, or by a coal engine worked by water supplied by a fire engine, - - - - -	375
MR. WESTGARTH'S ENGINE.	
The representation of John Smeaton, engineer, concerning the Hydraulic Engine, invented by Mr. William Westgarth, of Coal Cleugh, in the county of Northumberland, for raising water by water, - - - - -	376
CORN MILL.	
Corn mill, to be worked by a fire engine, - - - - -	378
GOSPORT WATER-WORKS, &c.	
The Report of John Smeaton, engineer, upon the state and distribution of the waters at the brewery at Weevill, near Gosport, - - - - -	381
General description of the horse engine, proposed to be erected upon the new well, at His Majesty's brewery works at Weevill, near Gosport, - - - - -	386
Description of the design for a stone beer vat for His Majesty's brewhouse at Weevill, - - - - -	392
CHIMNEY WINDMILL.	
Explanation of the designs for Chimney Windmill, - - - - -	396
OIL MILL, AT HULL.	
Explanation of the design for an oil mill, for Mr. Mayson Wright, to be worked by water raised by a fire engine, at Hull, by J. Smeaton, - - - - -	398
LEAD HILLS WORKS.	
The Report of John Smeaton, engineer, upon the state of the powers employed, and capable of being employed at the Susannah Vien, at Lead Hills, for unwatering the low workings thereof, - - - - -	402
	MILL

CONTENTS. xi

MILL FOR GRINDSTONES.

	Page.
Remarks concerning the mill for turning grindstones, and grinding blacking,	412

BOCKING FULLING MILL.

Directions for converting the larger water wheel of Mr. Nottidge's fulling mill at Bocking, so as to drive two stocks by gear, - - - - -	413
--	-----

FLINT MILL AT LEEDS.

Directions for weathering the sails of the Flint Mill at Leeds, - - - - -	415
---	-----

PUDDING MILL.

The report of John Smeaton, engineer, upon the powers of the Pudding Mill, in the parish of St. George, in Surry, near Blackfriars Bridge, for raising water for the service of the neighbouring parts of the town, and other purposes, - - - - -	416
---	-----

DALRY MILLS.

Report of John Smeaton, engineer, upon the memorandum of Mr. John Ruffell, of the 16th July, 1771, concerning his mills, called the Dalry Mills, near to and west of Edinburgh, - - - - -	419
---	-----

KILNHURST FORGE.

Kilnhurst forge hammer mill, - - - - -	424
--	-----

THORNTON WATER WHEEL.

Explanation of the design for the water wheel for the upper paper mill at Thornton,	426
WINLATON BLADE MILL, - - - - -	428
SIR L. PILKINGTON'S FLOUR MILL, - - - - -	430

LORD IRWIN'S WATER ENGINE.

Explanation of the designs for a water engine erected for Lord Irwin, at Temple News-ham, in 1770, - - - - -	431
LONG BENTON ENGINE, - - - - -	435
LIST OF MILLS executed by Mr. Smeaton, from a paper in his own hand writing, -	439
