## ADE

- A** DÉLIE, Terre, discovery of, 480  
 Agouti, the, of Patagonia, 506  
 Agriculture, state of, in Iceland, 62  
 Aigun, treaty of, 210  
 Air, remarkable moisture of the, in Taimurland, 248  
 — its perpetual motion in the Arctic Zones, 249  
 Akurig, eider ducks of, 64  
 Albasin, the Russian fort of, built, 209  
 — destroyed by the Chinese, but rebuilt, 210  
 Albatross, wandering, of the Antarctic seas, 471  
 Alcyonians on the coasts of Greenland, 41  
 Aleutian Islands, causes which led to the discovery of the, 214, 215  
 — view of the, 281  
 — extent of the, 308  
 Aleüts, their wretched condition under their masters, 311, 312  
 — their skill and intrepidity in hunting, 312–15  
 Alexander, Cape, discovery of, 424  
 — Island, discovery of, 480  
 Algerine pirates, ravages of, in Iceland, 80  
 — and in the Westmann Islands, 108  
 Aljaska, discovery of, 215  
 — climate of the, 307  
 — mountains and forests of, 307  
 Almannagja, description of the, 56  
 Altai Mountains, crossed by the Cosacks, 209  
 Alten, copper mines of, 119  
 Altenfjord, vegetation of the borders of the, 118, 119  
 America, North, treeless zone of, 4–8  
 — character of the Coniferæ of, 8  
 — range of the caribou, or reindeer, of, 19–23  
 — the musk-ox of, 24  
 — the white dolphin in the rivers of, 43  
 — the black dolphin of, 43  
 — walruses of the shores of, 46  
 — history of the fur trade of, 343 *et seq.*  
 — first discoverers and settlers of, 377

## ARC

- America, North, destruction of the Greenland colonies, 377  
 — subsequent discoveries, 378 *et seq.*  
 — the Torso Rock, at Point Dease Thompson, 391  
 — attempts to discover the North-Western passage to India, 389 *et seq.*  
 America, Russian, its transfer to the United States, 310, *note.*  
 Amur, river, discovery of the, by the Russians, 209  
 — who relinquish it to the Chinese, 210  
 — the country annexed by Russia, 210  
 Anakerdluk, in North Greenland, buried forest of, 18  
 Angekoks, or priests of the Esquimaux, 333  
 Animals, comparatively small number of, in the Arctic regions, 9  
 — the forests the headquarters of many, 25  
 — of the Arctic seas, 40  
 — of the coasts of Spitzbergen, 126  
 — fur-bearing animals of Siberia, 224  
 — the animals of Taimurland, 251  
 — of Nishne Kolymsk, 263  
 — of Newfoundland, 442  
 — no land animals in the Antarctic region, 470  
 — those of Patagonia, 505  
 Anij, vegetation of the valley of the, 263  
 — chief resource of the people of the, 266  
 Anjou, Lieut., his Arctic explorations, 259, 260  
 Archangel, foundation of, 204  
 Archangel, New, site of the town of, 311  
 — fur trade of, 311  
 — medium of exchange at, 316  
 Archers, the Ostjaks as, 199  
 Arctic regions, rivers of the, 3  
 — limits of the Arctic regions, 4  
 — the forest regions, 4–8  
 — the treeless wastes, or Tundra, 4, 5  
 — — in summer and winter, 5, 6  
 — — their extent and boundaries, 7  
 — animal life in the Arctic regions, 9  
 — influence of the sea and winds on the severity of the Arctic winter, 11

INDEX.

- ARC
- Arctic regions, the lowest temperatures felt by man, 12  
 — how man becomes accustomed to the rigours of an Arctic winter, 12, 13  
 — proofs of a former milder climate in the northern regions of the globe, 13, 14  
 — beauties of Nature in these regions, 15  
 — land quadrupeds and birds, 17  
 — the seas of the Arctic regions, 29  
 — compared with the Antarctic regions, 465
- Arctic voyages of discovery, history of, 377 *et seq.*
- Are Thorgilson, his Icelandic works, 79
- Argali (*Ovis argali*), of Siberia, 24, 217
- Arrows of the Ostjaks, 199, 200
- Ascidians on the coasts of Greenland, 41
- Ash, the, in the Arctic regions, 8
- Asia, treeless zone of, 4–8
- Athabaskan Indians, hunting grounds of the, 364
- Atlassoff, the Cossack, his treatment of the natives of Kamtschatka, 211
- Atmosphere, transparency of the, in the polar regions, 36, 37  
 — phenomena of, reflection and refraction, and their probable causes, 37
- Auk, the giant-, its rarity at present in Iceland, 68, 102
- Aurora borealis, 3  
 — splendour of the aurora in the Arctic regions, 15, 16  
 — terror of the Lapps at the, 157
- Austin, Captain, his search for Franklin, 411
- Avalanches of ice in Spitzbergen, 127
- Awaklok and Myouk, their imprisonment on an iceberg, 329, 330
- Awatscha Bay, sea-birds of, 291  
 — its magnificence and extent, 293
- BAATY KHAN**, his subjection of Russia, 203
- Bachelor river, the, 495
- Back, (Mr., afterwards Sir George), his Arctic voyages, 395, 396, 399  
 — his search for Captain Ross, 407  
 — his discovery of Great Fish River, 408  
 — voyage in 1835, 409
- Back's river, discovery of, 408
- Badarany, desert of swamps, the, 261
- Baer, Herr von, his scientific journey to Novaya Zemlya, 147
- Baffin, his voyages of discovery, 390
- Baffin's Bay, probable influence of the northerly winds on the depression of the temperature of, 11
- BEA
- Baffin's Bay, walruses of the coasts of, 46  
 — discovery of, 390
- Balleny, his discoveries in the Antarctic ocean, 480
- Balleny Islands, discovery of, 480
- Banks's Land, proofs of a former milder temperature in, 13
- Bards, or scalds, of Iceland, 79
- Barentz, William, visit of, to Spitzbergen, 131  
 — his voyages of discovery, 383, 384  
 — his winter in Novaya Zemlya, 385  
 — his death, 387
- Barley, cultivation of, in Norway, 113
- Barren grounds, barrens, or tundri, arctic belt of the, 4  
 — causes of their barrenness, 4  
 — their appearance in winter and in summer, 5  
 — indistinct and irregular boundaries of the, 7  
 — those of Newfoundland, 441
- Barrow Point, traffic of, 335
- Barter reef, traffic of, 335
- Bear, black, or muskwa (*Ursus americanus*), value of the fur of the, 350  
 — description of him, 350, 355  
 — brown, of North America, 350, 351  
 — of Newfoundland, 442  
 — value of the skins of the young brown bear, 227  
 — grisly, of the Rocky Mountains (*Ursus ferox*), 351  
 — his skin, 351  
 — the polar, his mode of hunting, 46  
 — his favourite food and mode of seizing it, 46, 47  
 — anecdote of one, 47  
 — instances of his sagacity, 47  
 — parental care of the she-bear, 47  
 — her winter nursery, 47, 48  
 — her internal store of food for her hibernation, 48  
 — immense strength of claws and teeth, 48, 49  
 — his unwelcome visits to Iceland, 64  
 — of Spitzbergen, 129  
 — of Novaya Zemlya, 143  
 — Lapp mode of hunting the, 164–166  
 — Esquimaux methods of hunting the, 327, 328  
 — of Newfoundland, 442
- abundance of bears in Kamtschatka, 295
- Bear Island, or Cherie Island, account of, 136  
 — climate of, 137  
 — walruses of, 137, 138  
 — boat-voyages of Norwegian sailors from, 138, 139  
 — discovery of, 384

## INDEX.

527

- BEA
- Bear Island, surveyed by the Russians, 214
- Bear, sea, value of the skin of the, in China, 313
- chase of the, in the Pribilow Islands, 313
- families and battles, 314
- sketch of the, 316
- the Austral sea-bear, 477
- Beaver (*Castor fiber*), its skin the standard of exchange with the Canadian Indians, 348
- former enormous trade in the fur of the, 354
- of Newfoundland, 442
- Beaver Indians, their hunting-grounds, 364
- Bee, sand- (*Andrena*), of Novaya Zemlya, 151
- Beech, Antarctic (*Fagus betuloides*), 493
- Beechy, Captain, his voyage to Behring's Straits, 400
- Beerenberg mountain, 139
- Behring, Titus, never passed through the straits bearing his name, 211
- — his second voyage, 215
- — his second voyage of discovery, 282, 283
- his bad conduct, 284
- his death, 287
- Behring Island, Behring and Steller on, 285
- Behring sea, description of the, 306
- barren lands at, 7
- seals and walruses of, 44, 46
- its climate, 307
- character of the shores of the, 308
- animals of the, 308
- Behring's Straits, view of the Old and New Worlds in the, 309
- Captain Beechy's voyage to, 400
- Belcher, Sir Edward, his search for Franklin, 414
- Bellinghausen, his discovery of the Islands Paul the First and Alexander, 480
- Bellot, Lieut., his gallant search for Franklin, 414
- his death and monument, 418
- Beluga, or white dolphin (*Delphinus leucas*), description of the, 42
- domain of the, 43
- Beluga Bay, visit of Von Baer's party to, 147
- Bennet, Stephen, his visit to Bear Island, 136
- Berry-gathering in Nishne Kolymsk, 267
- Bilberries of the Arctic regions, 8
- Billings, voyage of, on the coast of Siberia, 214
- Birch trees in the Arctic regions, 8
- BUN
- Birch, paper, value of the, in North America, 339
- Birds, flights of wild, in summer months in the Tundra, 5
- their migrations to and from high latitudes, 26, 27, 49
- the polar singing bird, the snow-bunting, 27
- raptorial birds of the Arctic regions, 28
- enormous numbers of birds along the Arctic shores, 49
- Icelandic birds, 64
- of the coast of Norway, 113
- of Spitzbergen, 125, 126, 129
- of Novaya Zemlya, 151, 152
- — a bird bazaar, 152
- abundance of sea-fowl on the coast of Kamtschatka, 291
- Esquimaux mode of bird catching, 325
- abundance of, on the coast of Greenland, 458
- of the coasts of the Antarctic sea, 470
- of Patagonia, 507
- Birkarls, their final subjugation of the Lapps, 155
- Biscoe, his discovery of Enderby Land, 480
- and of Graham Land, 480
- Black death, ravages of the, in the North, 451
- Blackfeet Indians, their wars with the Tinné and Crees, 357, 358
- Bloody Falls, on the Coppermine river, 324
- Boats of the Esquimaux, 322
- the birch-bark canoes of North America, 339
- Bogberries of the Arctic regions, 8
- Booth, Sir Felix, his Arctic expedition, 402, 403
- Bougainville, his voyage through the Strait of Magellan, 500
- Brandt, the Danish forester, his journey with Von Middendorff, 241
- Brandy, fondness of the Samojedes for, 176-8
- drunk at Kolymsk, 268
- Brant Ysbrantzoon, his voyages of discovery, 383
- Bread of the poor Icelanders, 62
- Bredal, Eric, his education of Lapps in Christianity, 155
- Bridges, swing, of Iceland, 100
- Buchan, Captain, his Arctic voyage, 392
- Bunting, its migrations to and from the north, 26
- the Lapland (*Centrophanes Laponicus*), latitudes inhabited by the, 27
- Bunting, the snow, the polar singing bird, 27

INDEX.

- BUN
- Bunting, its nest and food, 27  
 — of Iceland, 64  
 — of Spitzbergen, 129, 195  
 Burglars, treatment of, in Russia, 221  
 Burrough, Stephen, his voyage to discover the north-eastern passage, 380  
 Busa, Jelissei, his ascent of the rivers Lena and Olekma, 209  
 — his discovery of the Tana, 209  
 — his residence among the Jukahirs, 209  
 Butter, made from the reindeer milk, 19  
 Butterflies in Taimurland, 248  
 Byron, Commodore, his voyage through the Strait of Magellan, 500
- CABOT, John and Sebastian, their re-discovery of parts of North America, 378  
 — their re-discovery of Newfoundland, 444  
 Canada, enterprise of the French settlers in, 342  
 — results of the English conquest of, 342  
 — history of the fur-trade of, 343  
 Cano, Sebastian el, his voyage round the globe, 498  
 Canoes, birch-bark, of North America, 339, 340  
 Cape, North, description of the, 120, 121  
 Caribou, or reindeer of North America, range of the, 19  
 Carrancha, the, of Patagonia, 507  
 Cartier, Jacques, his voyages, 378  
 Caryophyllæ, the, of the treeless zone, 7  
 Cascades of Iceland, 59  
 Castor and Pollux river, discovery of, 409  
 Castrén, Matthias Alexander, account of him and of his journeys, 171–186  
 Catherine's Foreland, Queen, 491  
 Cattle, value of, to the Icelanders, 62, 63  
 Cavendish, his voyages, 499  
 Chancellor, his discovery of the passage from England to the White Sea, 204  
 — his voyage to discover the north-eastern route to China, 378  
 — his visit to Moscow, and subsequent fate, 379  
 Charles IX., King of Sweden, his kindness to the Lapps, 155  
 Chatanga river, scanty population of the, 240  
 — Middendorff's journey to the, 240  
 Chatangsk, Middendorff's journey to, 242  
 Cheese made from reindeer milk, 19  
 Cherie Island, account of, 136  
 Chess-players of the Tungusi, 279
- CON
- Chickweed, the, on the Mary Minturn river, 6  
 Chimango, the, of Patagonia, 507  
 China, Castrén's journey over the mountains into, 185  
 Chinese take the Russian fort of Albasin, 210  
 — and make the treaty of Nertschinsk with the Russians, 210  
 — the treaty broken by the Russians, who compel the Chinese to give them the Amur, 210  
 Chinga (*Mephitis chinga*), its foetid secretion, 352  
 Christian IV., King of Denmark, his treatment of the Lapp priests and sorcerers, 155  
 — his expedition to Greenland, 451  
 Christianity, introduction of, into Iceland, 77  
 Christmas Harbour, in Kerguelen's Land, 474  
 Churches of the Icelanders, 91  
 Clavering, his voyage to Greenland, 455  
 Clergy of the Lapps, their poverty and self-denial, 156  
 — their sermons, 156  
 — those of Iceland all blacksmiths, 89, *note*; 93  
 — their poverty, 93  
 Coal, does not exist in Iceland, 72  
 — of Spitzbergen, 130  
 — in Coal Bay, 138  
 Coal Bay, 138  
 Cochlearia fenestrata, the only esculent plant in Spitzbergen, 129, 135  
 Cod and cod-fishing of the coast of Iceland, 69, 70  
 — the cod called stockfish, 70  
 — the cod-fishery of Norway, 115, 116, 118, 120  
 — — wretched state of the fishermen, 117  
 — exports of cod-fish to various countries, 120  
 — cod-fishery of Greenland, 458  
 — value of the cod-fishery of Newfoundland, 445  
 — mode of fishing and curing the cod, 445, 446  
 — dangers of the fishery, 447  
 — immense numbers of the fish, 447  
 Cod-liver oil of Tromsø, 118  
 Collinson, Captain, his search for Franklin, 415, 417  
 Commodore Islands, chase of the sea-bear on the, 313  
 Conдор, the, of Patagonia, 507  
 Coniferæ, arctic forests, almost confined to the, 8  
 — difference between the European and Asiatic and American species, 8

## CON

Constitution, Cape, discovery of, 429  
 Cook, his attempt to discover the north-west passage, 391  
 Cook, Captain, his discovery of South Georgia, 469  
 — his Antarctic voyages, 479, 480  
 Copper-mines near Drontheim, 113  
 — of Alten, 119  
 — of Raipass, 119  
 Coppermine river, Dr. Richardson's voyage to the, 400  
 Cornelis Ryp, his voyages of discovery, 384, 387  
 Cornelius Corneliszoon, his voyages of discovery, 383  
 Corniculariæ, carpets of, and the treeless zone, 7  
 Cortereal, his voyages of discovery, 378  
 Cossacks, Don, their depredations, 205  
 — their conquest of Siberia for the Czar, 205  
 — their privileges and duties in Nishne Kolymsk, 264  
 Coureur de bois, the, of North America, 338  
 Cranberries of the Arctic regions, 8  
 Cree Indians, uses of the paper-birch tree to the, 340  
 — range of the various tribes of, 356  
 — their conquests of the Tinné, but subsequent defeat, 356, 357  
 — their wars with the Blackfeet, 357, 358  
 — their character, 358  
 — their customs, habits, and dress, 358, 359  
 — their wives and families, 360  
 — their cradles, 360  
 — their wigwams, or tents, 356, 360  
 — their medicine-men and vapour baths, 360  
 — their games and sports, 361  
 — their wooden figures for worship, 361  
 — their malicious or capricious spirit, called Kepoochican, 361  
 — their notion of the Great Spirit and of the deluge, 362  
 — their Tartarus and Elysium, 362  
 — prospects of Christianity amongst them, 363  
 Cross, the game of, of the Cree Indians, 361  
 Crowe, Mr., his copper mines at Alten, 119  
 Crozier, Captain, his last voyage, 410  
 — the last heard of him, 421  
 — his Antarctic voyages, 481  
 Crozier, Cape, 465  
 Cruciferæ, the, of the treeless zone, 7  
 Crustaceans, immense numbers of, on the coast of Greenland, 41

## DOG

Cumberland Strait, Davis's discovery of, 381, 382  
 Currents, magnificent system of, and their effects the accumulation of ice, 38, 39  
 DANCES of the Tehuktchi, 303  
 Darwin, Mr., his ascent of Mount Tarn, 494  
 Davis, John, his voyages to discover an Arctic passage to America, 381  
 — his visit to Labrador, 382  
 — his subsequent life, 383  
 Davis's Straits, probable influence of the northerly winds on the depression of the temperature of, 11  
 — — Sebastian Cabot's discovery of, 378  
 Dead, reverence paid to the, by the Samojeedes, 191  
 Dease, Peter Warren, his land Arctic expedition, 409  
 Death, black, its ravages in Iceland, 80  
 Deception Island, account of, 468  
 Deer, red (*Cervus elephas*), its habitat and uses to man, 23, 24  
 Deer of Vogelsang and Treurenberg Bay, 129  
 Deluge, Cree legend of the, 362  
 Demidoff, foundation of the family of, 239  
 — their enormous wealth, 238, 239  
 Deschnew, Semen, his the first and last voyage through Behring's Strait, 210, 211  
 Desolation, South, 496  
 Detti-foss, an Icelandic cascade, Mr. Gould's description of the, 60  
 Disco bay, icebergs formed in, 31  
 Diver, the great northern, 422  
 Divers, their migrations to and from the north, 26  
 Dog Rib Indians, hunting grounds of the, 364  
 — their character, dress, and customs, 365-367  
 — their want of hospitality, 368  
 — their honesty, 368  
 — their notions of a future life, 368  
 Dog, the reindeer, of the Lapps, 161  
 — Wrangell's dog-sledges on the polar sea, 268, 269  
 — Icelandic, 63  
 — the dogs of the people of Kolymsk, 265  
 — the Kamtschatkan dog and dog-sledges, 295, 296  
 — their mode of foretelling storms, 296  
 — mode of training sledge dogs, 296  
 — the Esquimaux dog, 297  
 — trained by Esquimaux to attack the bear, 328

M M

## DOG

- Dog, description of the dogs and dog-sledges of the Esquimaux, 330  
 — Dr. Kane's Newfoundland and Esquimaux dogs, 426  
 — epidemic amongst the Esquimaux dogs, 435  
 Dolgorouky, Prince, his exile to Siberia, 220  
 Dolphin, white, or beluga, of Novaya Zemlya, 153  
 — Greenland fishery of the, 457  
 Dolphins of the polar seas, 42, 475, 476  
 — the beluga, or white dolphin, 42  
 — the black dolphin, 'ca'ing' whale, or grind, 43  
 — the orc, or grampus, 44  
 — of Spitzbergen, 130  
 Drake, Sir Francis, his voyage through the Strait of Magellan, 498, 499  
 Drifanda Foss, an Icelandic cascade, 103  
 Drift-ice, 28  
 Drontheim, the red-deer near, 24  
 — description of, 113  
 Ducks, wild, of the Arctic regions, 5  
 — their migrations to and from the north, 26  
 — of Iceland, 64, 67  
 Dudinka, Castrén's visit to, 184  
 Dungeness, Point, 491  
 Durfoorth, his voyage and death, 378, 379  
 D'Urville, Dumont, his discoveries in the Antarctic ocean, 480  
 Dutch, their expeditions to discover an arctic passage to India, 363
- E**AGLE, the sea (*Haliæetus albicilla*),  
 — of the north, 28  
 — his food, 28  
 — white-tailed sea-eagle of Iceland, 68  
 — value of the skins of the, 68  
 — the sea-eagle of the coast of Norway, 114  
 — in the Tundra in summer, 5  
 Egede, Hans, his voyage to Greenland, 451  
 Egg-våre of the coast of Norway, 114  
 Egilson, Olaf, the Westmann clergyman, his slavery in Algiers, 108  
 Eider duck, its migrations to and from the north, 26  
 — of Iceland, 64, 72  
 — breeding of, 65  
 — Mr. Shepherd's visit to one of its head-quarters, 65  
 Elder, the, in the Arctic regions, 8  
 Elephant, sea-, of the Antarctic ocean, 476, 489  
 Elk, or moose deer, of the forests of the north, 22, 28  
 — Cæsar's account of it, 23  
 — its food and present habitat, 23

## FAL

- Elk, its mode of defending itself, 23  
 Enara, Lake of, the fisher Lapps of, 170  
 — description of the, 173  
 Enderby Land, discovery of, 480  
 English pirates, ravages of, in Iceland, 80  
 Erebus, mount, eruption of, 482  
 Eric the Red, his visit to Greenland, 450  
 Ermine (*Mustela erminea*), beauty and importance of the fur of the, 226  
 — those of the Hudson's Bay Territory, 352  
 Esk volcano, 139  
 Esquimaux, one watching a seal hole, 317  
 — their wide extension, 317  
 — their own name of Inuit, 318  
 — character of the regions they inhabit, 318  
 — their physical character, habits, and manners, 318, 319  
 — women, 319  
 — their dress and snow huts, 320  
 — their boat, the Kayak or baidar, 322  
 — their weapons, and fishing and hunting implements, 323  
 — enmity between them and the Red Indians, 325  
 — their chase of the reindeer, and bird-catching, 325

## FAM

- Famine, Port, rich vegetation of, 492, 493, 499  
 Festuca of the Arctic regions, 6  
 Finback whales of Spitzbergen, 130  
 Finches in the Tundra in summer, 5  
 Finmark, trade and fisheries of the coast of, 120  
 Finnur Johnson, the Icelander, his 'Ecclesiastical History of Iceland,' 85  
 Fir, different species of, in Europe, Asia, and America, 8  
 Fish, and fishing season of Iceland, 69  
 — abundance of fish in Kamtschatka, 290  
 — of Newfoundland, 444  
 — of Greenland, 454  
 Fish river, Great, Back's discovery of, 408  
 Fisher Lapps, account of the, 170  
 Fiskernasset, cod-fishery of, 458  
 Fitzroy, Captain, his surveys of Patagonia and Tierra del Fuego, 500  
 Fjäll Lappers, or Mountain Lapps, account of the, 159  
 Flatey, eider ducks of, 64  
 Flat fish, abundance of, on the coasts of Iceland, 70  
 Floe of ice, 28  
 Floki, the Viking, his visit to Iceland, 74  
 Flora of Spitzbergen, 128  
 Flowers of the Arctic regions, 6  
 — of the island of St. Lawrence, 309  
 — of Taimurland, 250  
 — of Unalashka, 308  
 Fogs of the Arctic seas in summer, 36  
 — near the island of St. Lawrence, 309  
 — off Newfoundland, 446  
 Food, amount of, required by man in the Arctic regions, 13  
 Forest regions, Arctic, 4  
 — extent of the, 8  
 — character of the trees of the, 8  
 — distinctive character of the forests, 9  
 — characters of the Arctic forests of the Miocene period, 13, 14  
 — legions of gnats in the, 10  
 — changes being effected by the agency of man, 10  
 Forests, the, the headquarters of many of the Arctic fauna, 25  
 — more *in* than *above* the earth in Novaya Zemlya, 150  
 — of Newfoundland, 440  
 Forget-me-not found in Novaya Zemlya, 150  
 Forster, Captain, his expedition to the Antarctic sea, 468  
 Fossils, Arctic, in New Siberia, 217  
 Foulke, Port, Dr. Hayes's winter at, 434  
 Fox, the Arctic (*Canis lagopus*), its mode of protecting itself from the most intense cold, 25

## FUE

- Fox, the Arctic, its food and enemies, 25  
 — of Spitzbergen, 129, 153  
 — in Novaya Zemlya, 151  
 — found in Taimurland, 251  
 — of Newfoundland, 442  
 Fox, black, of Siberia, value of the fur of the, 227  
 Fox, the Brazilian (*Canis Azaræ*), of Patagonia, 506  
 Fox, red (*Vulpes fulvus*), the, 227, 353  
 — value of the fur of the, 353  
 Fox, the silvery, 289  
 Fox Islands, discovery of the, 215  
 France, right of the people of, to fish on the banks of Newfoundland, 444  
 Franklin, Lieut. (afterwards Sir John), his first Arctic voyage, 392  
 — his first land journey, 395  
 — his second land journey to the shores of the polar sea, 399  
 — loss of his first wife, 400  
 — his last voyage, 410  
 — searching expeditions sent for him, 410  
 — his fate and that of his companions, 418-421  
 Franklin island, discovery of, 482  
 Fraser river, voyage of Mackenzie down the, 344  
 Frederic II., King of Denmark, his expedition to Greenland, 451  
 Frederick IV., King of, his foundation of the Finmark mission, 155  
 Friedrich, the Saxon bishop, introduces Christianity into Iceland, 77  
 Fritillaria Sarrana, used as food in Kamtschatka, 294  
 Frobisher, Martin, his endeavours to discover an Arctic passage to India, 380  
 — his subsequent career, 381  
 Froward, Cape, scenery of, 492  
 Fruits of the Arctic regions, 8  
 Fuego, Tierra del, climate of, 469  
 — origin of the name, 498  
 — Captain Fitzroy's survey of, 500  
 — account of the Fuegians, 515  
 — degradation of the Fuegians, 515, 516  
 — their powers as mimics, 517

INDEX.

JAK

- Jakut-k, trade of, 260  
 Jan Meyen, description of, 139  
 Jelly, made from the horns and claws of the reindeer, 21  
 Jelly-fish (*Pleurobrachia pileus*) in the sea of Kara, 147  
 Jenisei river, Castrén's journey to the, 183  
 Jeniseisk, Castrén's visit to, 185  
 — the ostrog of, founded, 209  
 Jerfalcon (*Falco gyrfalco*), its headquarters in Iceland, 68  
 — former trade in the, 68  
 Jilibambaertje, or Num, the Supreme Being of the Samojeedes, 188  
 'John, Gentleman,' the English pirate, 108  
 John's, St., capital of Newfoundland, 443  
 Jökulls, or ice-mountains of Iceland, 50  
 Jökulsa i Axarfirdi river, in Iceland, 59  
 Jökulsa river, in Iceland, 59  
 Jones' Sound, discovery of the entrance to, 390  
 Jukahires, chief resource of those of the Anij, 266  
 — Jelissei Busa's residence among the, 209

**KADIAC**, Island of, discovery of the, 215

- Kaiak, island of, landing of Stella on the, 283  
 'Kalewala,' Castrén's Swedish translation of the, 174  
 Kamtschatka, subjugation of, by the Russians, 211  
 — cruelty of the conquerors, 211  
 — Steller's scientific journey to, 282  
 — its climate and fertility, 290  
 — abundance of fish in the rivers, 291  
 — bird-catchers of, 291  
 — population, 292  
 — mountain chain and volcanoes, 292  
 — climate and mineral springs, 293  
 — harbours and population, 293  
 — healthiness of the people, 294  
 — their food, 294  
 — their animals, 295  
 — character of the people, 296, 297  
 Kane, Dr., his Arctic voyages, 423  
 — his account of his first winter in Rensselaer Bay, 424  
 — his description of the polar night, 425  
 — his sledge journey along the coast of Greenland, 426  
 — his illness on the voyage and recovery, 427, 428  
 — resolves to winter a second time in Rensselaer Bay, 430  
 — departure and return of part of his crew, 430, 431

KRA

- Kane, Dr., sufferings of his party, 432  
 — abandonment of his ship, and boat-journey to Upernavik, 433  
 — his return to New York, and death, 434  
 Kara Gate, reached by Stephen Burrough, 380  
 Kara, Sea of, 140  
 — expeditions to the, 141  
 Kasan, Russian conquest of, 204  
 Kellet, Captain, his search for Franklin, 415  
 Kendall, Lieut., his voyage to the Coppermine river, 400  
 — his account of Deception Island, 468  
 Kennedy, William, his search for Franklin, 413  
 — his sledge journey with Bellot, 414  
 Kennedy Channel, Dr. Hayes's sledge journey across, 428  
 — his voyage across, 435, 436  
 Kerguelen's Land, climate of, 469  
 — view of Christmas Harbour in, 474  
 Khipsack, destruction of the empire of the Khans of, 204  
 King, Captain, his survey of the Magellan Straits, 500  
 King William's Island, coast of, traced by Mr. Thomas Simpson, 410  
 Klofa jökull, extent of the, 51  
 Knight, John, his melancholy arctic voyage, 387  
 — murdered by the Esquimaux, 388  
 Koldewey, Captain, his journey towards the North Pole, 438  
 Kolwa, Castrén's visit to, 180  
 Kolyma river, inundations of the, 266  
 Kolymsk, Nishnei, foundation of the town of, 210  
 — Wrangell's visit to, 261  
 — situation and climate of, 261  
 — vegetable and animal life, 263  
 — population of the district, 264  
 — dwellings of the Russian residents, 264  
 — mode of life of the natives, 265  
 — their dogs, 265

## KRE

- Krenitzin, his discovery of the peninsula of Alaska, 215  
 Kresdowoswishensk, produce of the gold mine of, 236  
 Krisnvik, burning mountains of, 52  
 Krotow, Lieutenant, lost off Novaya Zemlya, 141  
 Kutchin Indians, portraits of, 370  
 — their dwelling-place, 370  
 — their personal appearance and dress, 370, 371  
 — their medium of exchange, 371  
 — their women and children, 372  
 — their amusements, 373  
 — their wars with the Esquimaux, 373  
 — their suspicions and timorous lives, 374  
 — their mode of pounding the moose deer, 374  
 — their frequent distress, 375  
 — their huts, 375  
 Kutchum Khan, his conquest of Siberia, 205  
 — defeated by Yermak the robber, at Tobolsk, 205–207  
 — his revenge, 208
- L**ABRADOR, barren lands of, 7  
 — effect of the icy seas and cold currents on the climate of, 7  
 — discovered and colonized by Greenlanders, 377  
 Lāchow Islands, discovery of the, 215  
 Lagarflot river, in Iceland, 59  
 Lakes, or vatns, of Iceland, 60  
 — of Newfoundland, 442  
 Lambert, M. Gustave, his opinion as to the route to the Pole, 438  
 Lancaster Sound, discovery of the entrance to, 390  
 Lapps, reindeer travelling of the, 17  
 — moving, 154  
 — their history and conversion to Christianity, 154, 155  
 — poverty and self-denial of their clergy, 156  
 — their ancient gods and present superstitions, 156, 157  
 — — Evil Spirit of the woods, 157  
 — — sorcery and witchcraft, 157  
 — their personal appearance, 157  
 — the Fjall Lapps, or Mountain Lapps, 159  
 — — their dwellings, 159  
 — — their reindeer pens, 160  
 — — their summer and winter encampments, 161, 162  
 — — their sledges and skates, 162  
 — — natural beauties of their country, 163  
 — — their love of home, 163, 164

## LOA

- Lapps, the Fjall Lapps, their mode of hunting the bear and the wolf, 164–166  
 — — the wealthy Lapps, and their mode of living, 166, 167  
 — — their annual visits to the fairs, 167  
 — — their drunkenness, 167–169  
 — — their worship of Mammon, treasure hoarding, 168  
 — — their fondness for brandy and tobacco, 168–170  
 — — their affectionate disposition, 169  
 — the Skogslapps, or Forest Lapps, 169  
 — the Fisher Lapps, 170  
 Laptew, Lieut. Cheriton, his explorations of the coasts of Taimurland, 213  
 — his explorations to the east of the Lena, 214  
 Larch, the, of Siberia, 8  
 — of the Hudson's Bay Territory, 8  
 Lawrence, St., climate and vegetation of the island of, 309  
 Lava streams of Iceland, 51, 58  
 — streams of, thrown out by the great eruption of Skaptar Jökul, 81–83  
 Laxaa, or Salmon river, abundance of fish caught in the, 71  
 Leif, the Norwegian jarl, his visit to Iceland, 75  
 — murdered by his Irish slaves, 75  
 Lemming, its habitat and food, 25  
 — exaggerations of Olaus Magnus and Pontoppidan respecting the, 25  
 — its enemies, and accidents to which it is liable, 26  
 — found in Taimurland, 251  
 — of New Siberia, 11  
 — of Novaya Zemlya, 151  
 Lena river, ascended by the Cossacks, 209  
 — importance of the, 3  
 — barren grounds near the, 7  
 — Wrangell's journey down the, 260  
 Leprosy, or 'likthra,' of Iceland, 98  
 Lichens, grey, of the 'barren grounds,' 4  
 — food for the reindeer, 11  
 — the *Lichen rangiferinus*, the food of the reindeer, 19

LOF

- Lofoten Islands, the, 115  
 — view of Vaager Rallen in the, 109  
 — cod-fishery of the, 115–117  
 Looming objects in the Arctic regions, 37  
 Loschkin, the walrus-hunter, his voyage on the coast of Novaya Zemlya, 141  
 Löstadius, the Lapp priest, his self-denial and poverty, 156  
 Loucheux. *See* Kutchin Indians  
 Louis-Philippe Terre, discovery of, 480  
 Lovunnen, puffins of, 114  
 Löwenorn, his voyage to Greenland, 454  
 Lütke, Admiral, his endeavours to penetrate along the coast of Novaya Zemlya, 141  
 Lychnis, purple, of the Arctic regions, 6  
 Lynx, Canada, or pishu (*Lynx Canadensis*), 353, 369  
 — value of the fur of the, 228, 353  
 Lyon, Captain, his unsuccessful voyage, 398
- M**ACKENZIE, Alexander, his voyages of discovery in North America, 344  
 Mackenzie river, importance of the, 3  
 — forests and barren lands near the, 7  
 — influence of the southerly winds on the temperature of the valley of the, 11  
 — discovery of the, 344  
 Maesnikow Nikita, his gold fields in Eastern Siberia, 231, 236, 237  
 Magdalena Bay, view of, 122  
 — description of, 125  
 Magellan, Strait of, 490  
 — description of the, 490  
 — entrances to, 490, 491  
 — opening into the Pacific, 495  
 — discovery of the Strait by Magellan, 497  
 — Sir J. Narborough's chart, 500  
 — Captains King and Fitzroy's surveys, 500  
 Magerö, island of, 120  
 Magicians of the Samojedes, 189–191  
 Malewinsky, Lieutenant, his gold mine of Olginsk, 236  
 Malström, the, 115  
 Mammoth, fossil remains of the, in New Siberia, 216  
 Man, his difficulty in establishing a footing in the Arctic regions, 4  
 — how he is able to stand the rigours of an Arctic winter. 12. 13  
 Maps of the Esquimaux, 335  
 Mariinsk, station of, built by the Russians, 210  
 — gold mine of, 236  
 Marshes of Newfoundland, 441  
 Marten Pine (*Martes abietum*), the, 352

MOR

- Marten Pine, value of the fur of the, 352  
 Mary Minturn river, flowers of, 6  
 Matiuschkin, his sledge journey over the polar sea, 272  
 Matoschkin Schar, visits to, 141–147  
 Matthew, St., island of, inhospitable character of the, 309  
 Matthew's Straits, visited by Rosmyslow, Pachtussow, and Herr von Baer, 141–147  
 McClintock, Lieut. (now Sir Leopold), his search for Franklin, 415  
 — his voyage in the 'Fox,' 419  
 — and discovery of the fate of Franklin and his companions, 420, 421  
 McClure, Captain, his search for Franklin, 415–417  
 — his discovery of the north-west passage, 415  
 Mecham, Lieut., his search for Franklin, 415  
 Mediterranean, dried cod-fish sent to the, 120  
 Medusæ, enormous numbers of, in the polar world, 41  
 — in the seas off Spitzbergen, 125  
 Melville Bay, enormous glaciers of, 32  
 Melville Island, discovery of, 593  
 Mentschikoff, Prince, his exile and death in Siberia, 219  
 — his son restored to the honours of his house, 220  
 Mercy Bay, discovery of, 417  
 Mercy, harbour of, 496  
 Merganser, red-breasted, 448  
 Middendorff, Von, his adventures in Taimurland, 240  
 — his visit to the Chatanga river, 242  
 — his journey down the Taimur river to the polar sea, 242–245  
 — his return journey and illness, 245–247  
 — gratitude of the Samojedes, 247  
 — his observations on the climate and natural productions of Taimurland, 248  
 Midnight, silence of, in Spitzbergen, 126  
 Milk of the reindeer, 19  
 Minerals of Iceland, 71  
 Mink (*Vison Americanus*), the, 363  
 — value of the fur of the, 352  
 Minto, Mount, 479  
 Misery, Mount, 138  
 Mollusca, small, of the polar seas, 41  
 Moonlight nights in the Arctic regions, 15  
 Morse. *See* Walrus.  
 Morton, one of Dr. Kane's crew, his illness, 428  
 — his discovery of Washington Land, 429

## MOS

- Mosquitoes of Nishne Kolymsk, 25, 262  
 Mosses, dingy, of the 'barren grounds,' 4  
 — of Novaya Zemlya, 149  
 — of the Pribilow Islands, 308, 309  
 Mourawieff, Count Nicholas, his annexation of the Amur, 210  
 Mouse, field, of Spitzbergen, 129  
 Muchamor, the fungus, used as food by the Kamtschatkans, 294  
 Mud springs, boiling, of Iceland, 53  
 Münich, Marshal, his exile to Siberia, 220  
 — his return and subsequent life, 220  
 Munk, Jens, his voyages, 390  
 Munkholm, castle of, 113  
 Murderers, treatment of, in Russia, 221  
 Muscovy Company, its endeavours to discover a north-east passage to India, 380  
 Musk-ox (*Ovibos moschatus*), description of the, 24  
 — its former and present habitat, 24  
 Musquash, musk rat, or ondatra (*Fiber zibethicus*), 354  
 — villages, 354  
 — modes of catching the animal, 355  
 — value of the fur of the, 355  
 — the, 390  
 Mussels on the coast of Greenland, 41  
 My Lake, in Iceland, 60  
 Myvatn, ducks of the, 67

- N**ADDODR, the Norwegian pirate, his discovery of Iceland, 73  
 Námur, or boiling mud springs of Iceland, 53  
 Narborough, Sir John, his chart of the Strait of Magellan, 500  
 Narwhal, or sea-unicorn, domain of the, 42, 337  
 — its tusk, 42  
 — Greenland fishery of the, 457  
 Narym, Castrén's visit to, 182  
 Necromancy of the Samojedes, 189  
 Nertschinsk, treaty of, 210  
 — criminals at the mines of, 221  
 Ness, Castrén's visit to the Samojede village of, 177  
 Newfoundland, discovered and colonized by Greenlanders, 377  
 — its desolate appearance, 439  
 — its forests, marshes, and barrens, 440, 441  
 — its lakes and ponds, 442  
 — its fur-bearing animals, 442  
 — its reindeer and wolves, 443  
 — its climate and inhabitants, 443  
 — its capital, St. John's, 443  
 — history of the island, 444  
 — taken possession of by the English, 444

## NOV

- Newfoundland, right of the French and Americans to fish on the banks, 444  
 — the French town of Placentia, 444  
 — the whole island ceded to England, 444  
 — importance of the cod-fisheries, 445  
 — the great banks, 445  
 — account of the mode of fishing, 445  
 — fogs and storms, 446, 447  
 — seal-catching, 447  
 Newspapers of Iceland, 98  
 Night of a polar winter, Kane's description of, 425  
 Nikolajewsk, station of, built by the Russians, 210  
 Noiba, gold diggings on the, 234  
 Norfolk Bay, position and fur trade of, 311  
 North-eastern route to India and China, Sebastian Cabot's idea of, 378  
 — attempts to discover it, 378-380  
 North Pole, the first attempt to sail across the, 388  
 — the plan first suggested by Thorne, 388  
 — Scoresby's near approach to the, 391  
 — Parry's boat and sledge journey towards the, 401  
 — Dr. Hayes's opinion as to the practicability of reaching the, across Kennedy Channel, 437  
 — opinions of other scientific authorities as to the best way to reach, 437  
 North-west passage to India, attempts to discover the, 389, 390  
 — McClure's discovery of the, 415  
 — company of Canada, formation and trade of the, 344  
 — its wars with the Hudson's Bay Company, and final amalgamation, 345  
 Northumberland Sound, temperature of, 12  
 Notothernia, the, of the Antarctic seas, 477  
 Norway, the lemming of the Dovrefjeld, in, 25  
 — an absolute monarchy established by Harold Haarfager in, 75  
 — causes of the mild climate of the coast of, 109  
 — condition of the soil, and of the cultivators of it, 110, 112  
 — constitution of Norway, and education of the people, 111  
 — population, 111  
 — coast scenery, 112  
 — Dronheim and its industry, 113  
 — birds of the coast, 114  
 — the herring and cod fisheries, 115-117, 118  
 Novaya Zemlya, investigations of the shores of, 141

## NOV

- Novaya Zemlya, circumnavigated by Pachtussow, 141, 142  
 — meteorological observations of Ziwolka, 145  
 — — climate of Novaya Zemlya, 146  
 — Von Baer's scientific journey, 147  
 — — scientific results of his journey, 149  
 — — — vegetation, 149  
 — — — solitude and silence, 151  
 — — — rarity of insects, 151  
 — — — lemmings and foxes, 151  
 — — — birds, 151, 152  
 — — — other animals, 152, 153  
 — wintering of the Dutch under Barentz at, 385  
 Novgorod, the Great, subdued by the Czar Ivan I., 204  
 Nowodskoff, Michael, his discoveries, 215  
 Nudibranchiata, enormous numbers of, in the polar seas, 41  
 Nullipores on the coast of Greenland, 41  
 Num, or Jilibaambaertje, the Supreme Being of the Samojesdes, 188
- O**ATH, a Samojede, 192  
 Obdorsk, Castrén's visit to, 180, 181  
 — description of the town, 200, 201  
 — the fair at, 201  
 Obi river, barren grounds near the, 7  
 — its importance to the Ostjaks, 196  
 — Castrén's journey to the, 181  
 — misery caused by the overflow of the, 181  
 — inhabitants of the banks of the, 182  
 Ochota river, the, 279  
 Ochotsk, sea of, reached by a party of Cossacks, 209  
 — view of, 275  
 — description of the town, 279  
 Olaf Truggeson, King of Norway, sends a missionary to Iceland, 78  
 Olginsk, gold mine of, 236  
 Olonez, number of bears killed for their skins every year in, 229  
 Ormaney, Captain, his search for Franklin. 411  
 — his discovery of Franklin's first winter quarters, 412  
 Onkilon, or sedentary Tchuktchi, 304, 305  
 — their mode of life, 305  
 Oraefa Jökull, views of, 50, 52  
 — height of, 51  
 — eruptions of, since the colonization of Iceland, 81  
 Orange Island, visited by Barentz, 383  
 Orc. *See* Grampus  
 Osborne, Captain Sherard, his opinion

## PAR

- as to the method of reaching the North Pole, 437  
 Osprey, the, 121  
 Ostjaks, their fishing grounds on the Obi, 182  
 — group of, 196  
 — their summer huts and mode of life, 197  
 — their poverty, 197  
 — their winter huts, 198  
 — their attachment to their ancient customs, 198  
 — their clans, and princes, or chieftains, 199  
 — their excellence as archers, 199  
 — their personal appearance, and customs, 200  
 — annual tribute levied by Yermak, the robber, on them, 207  
 — confirmed by the Czar in the possession of their lands, 212  
 Ostrich, Darwin's, of Patagonia, 508  
 Ostrownoje, town and fair of, 299, 301  
 Otter, the sea, or kalan (*Enhydria lutris*), value of the fur of the, 226, 229  
 — description of the animal, 226, 227  
 — chase of the, in Kamtschatka, 295  
 — otter hunting of the Aleüts, 312  
 Otter, the fish (*Lutra Canadensis*), 352, 353  
 — fur of the, 353  
 Owl, great snowy, 16  
 — its favourite food, 26  
 — its winter in the highest latitudes, 26  
 Ox, the, in Iceland, 62  
 Oyster, most northerly limit where found, 115
- P**ACHTUSSOW, his circumnavigation of the southern island of Novaya Zemlya, 141, 142  
 — his second voyage and death, 143, 145  
 Pack-ice, 23  
 — its tendency to separate in calm weather, 36  
 Paikoff, his discovery of the Fox Islands, 215  
 Parrots of Patagonia, 508  
 Parry, Lieut. W. E. (afterwards Admiral Sir), his Arctic voyages, 392  
 — his second voyage, 397  
 — his third voyage, 399  
 — — abandonment of the 'Fury,' 399  
 — his boat and sledge journey towards the Pole, 401  
 — his subsequent career, 402  
 Parry, Mount, discovery of, 429  
 — Dr. Hayes's journey to, 436

 — animals of, 505  
 — fashions of the Patagonians, 509  
 — their religious ideas, 509  
 — their superstitions and astronomical knowledge, 510  
 — their division into tribes, 511  
 — their huts, 511  
 — their trading routes, 512  
 — their system of government, and great cacique, 512  
 — introduction of the horse, 513  
 — their arms, amusements, and character, 513, 514  
 Paul, St., climate of the island of, 309  
 — chase of the sea-bear on the, 313  
 Paul the First, discovery of the Island of, 480  
 Pekan, or woodshock (*Martes Canadensis*), fur of the, 352  
 Penas, gulf of, glacier at the, 470  
 Penguin, the, 523  
 — of the Antarctic seas, 471, 472  
 — its food, 473  
 Penny, Master, his search for Franklin, 411, 412  
 Peruvian current, influence of the, 469, 470  
 Petermann, Dr. Augustus, his view of the route to the Pole, 437  
 Petrel, the giant (*Procellaria gigantea*), of the Antarctic seas, 470  
 Petropaulowsk, view of the town of, 290  
 — its population, 293  
 — unsuccessful attack of the English and French on, 293  
 Petschora river, 143  
 Philip's Bay, St., 491  
 Phipps, Captain (afterwards Lord Mulgrave), his voyage to discover the north-west passage, 391  
 Pipit (*Anthus pratensis*), the, of Iceland, 64  
 Plachina, Castrén's residence and study at, 184  
 Plover Island, discovery of, 416  
 Plovers of Iceland, 64  
 Poland, the elk of, 23  
 Pole, North, probable condition of the land (if any) at the, 11  
 Popow, Fedor, his discovery of the gold fields of Eastern Siberia, 231  
 Population of Norway, 111

## RET

- Potato, cultivation of, in Norway, 113  
 Pribilow Islands, climate of, 308, 309  
 — sea-lions, and guillemots of, 309  
 — chase of the sea-bear, 313  
 Prontschischschew, his fruitless endeavours to double the capes of Taimurland, 213  
 — death of him and his wife, 213  
 Prussia, East, the elk of, 23  
 Ptarmigan (*Lagopus albus*), its residence in the highest latitudes in winter, 26  
 — of Spitzbergen, 129, 139  
 — its summer visits to Taimurland, 251  
 — in the Tundra in summer, 5  
 Pteropods, food for the Greenland whale, 42  
 Puffins of Lovunnen island, 114  
 — mode of catching them, 114  
 Punta Arenas, colony of Germans at, 501  
 Pustosersk, visit of Castrén to, 177, 179  
 Pym, Lieut., his sledge journey of search for Franklin, 415

- R**ACCOON (*Procyon lotor*), 351, 438  
 — value and trade in the skins of the, 351  
 Rae, Dr., his search for Sir John Richardson, 410  
 — his discoveries in the Arctic seas, 410, 411  
 — his discovery of the fate of Franklin and his crew, 418, 419  
 Raipass, copper mines at, 119  
 Ranunculus, snow (*Ranunculus nivalis*), of Novaya Zemlya, 149  
 Rat, musk. *See* Musquash.  
 Ravens of Iceland, 67  
 — ravens in the Scandinavian mythology, 67, 68  
 — superstitions of the Icelanders respecting the, 68  
 Razor-bill, its nests on the most northern rocks, 49  
 Red Knife Indians, their hunting grounds, 364  
 Red-pole, the, of Spitzbergen, 129  
 Red River colony, destruction of the, 345  
 Red sharks of Iceland, 64  
 Reindeer, its summer and winter quarters in the Arctic regions, 5, 6  
 — food found by the, in Spitzbergen, 10, 11  
 — reindeer travelling in Lapland, 17  
 — its importance to man in the northern regions, 17  
 — its formation and adaptation to the circumstances in which it is placed, 18  
 — clattering sound of his feet, 18  
 — its antlers, 18

## REI

- Reindeer, its young, 18  
 — its milk, 19  
 — its food and olfactory powers, 19  
 — the caribou of North America, 19  
 — its geographical range in the Old and New World, 19  
 — its love of a cold climate, 20  
 — its services to man, 20, 21  
 — its enemies, and disorders to which it is liable, 22  
 — a nuisance in Iceland, 64  
 — of Spitzbergen, 129  
 — the reindeer pens of the Lapps, 160  
 — milking the reindeer, 161  
 — the reindeer sledges of the Lapps, 162  
 — attempt made to acclimatise the reindeer in Scotland, 163  
 — ravages of wolves in herds of reindeer, 166  
 — rich Lapp owners of herds, 166  
 — Lapp mode of killing the reindeer, 167  
 — its two annual migrations, 266  
 — reindeer hunts of the Jukahires of the Anivj, 266, 267  
 — reindeer races of the Tchuktchi, 303  
 — reindeer hunting of the Esquimaux, 324, 325  
 — the Kutchin Indian mode of pounding the reindeer, 374  
 — chase of the reindeer in Greenland, 459  
 Rensselaer Bay, temperature of, in mid-winter, 6  
 — Kane's winters at, 424, 430  
 Resanow, Jakin, his gold fields, 231  
 Reykjahlid, boiling mud cauldrons of, 53  
 Reykjavik, mean annual temperature of, 61  
 — the present capital of Iceland, 75  
 — account of, 86, 87  
 — the annual fair of, 87  
 — salary of the bishop of, 93  
 — schools and library of, 95, 97  
 — the Icelandic Literary Society, 98  
 Rhinoceros remains found on the coast of Northern Siberia, 217  
 Richardson, Dr. (afterwards Sir John), his Arctic land voyages, 395, 399  
 — dreadful sufferings of the party, 395, 396  
 — his search for Sir John Franklin, 410  
 Rivers discharging their waters into the Polar ocean, 3  
 — of Iceland, 59  
 Rocky Mountains, the wild sheep of the, 24  
 — view of the, at the bend of the Mackenzie river, 364  
 Roebuck, near Lake Baikal, 24  
 Rorquals, or fin-whales, habitat and size of the, 42

## SAL

- Rorquals, their food, 42  
 Rosmyslow, his investigations of the shores of Novaya Zemlya, 141  
 Ross Capt. (afterwards Sir John), Arctic voyages, 392  
 — his second journey, 402  
 — — his five years in the Arctic Ocean, 402-407  
 — — his return home and honours, 403  
 Ross, Sir James, his Arctic voyages, 403  
 — his search for Franklin, 411  
 — his discoveries in the Antarctic Ocean, 481  
 — collision between his ships, the 'Erebus' and 'Terror,' 486, 487  
 — his danger between two icebergs, 488-  
 Rum, effects of, on an Iceland clergyman, 89  
 Rupert's Land, held by the Hudson's Bay Company, 340  
 Russia, character of the conifers of, 8  
 — the elk of the woods of the northern parts of, 23  
 — conquest of, by the Tartars under Baaty Khan, 203  
 — liberated from the Tartar yoke by Ivan I., 203  
 — advances of, in Siberia, 209  
 — annexes the country of the Amur, 210  
 — condition of the natives under the yoke of, 211  
 — exiles from Russia to Siberia, 218-221  
 — value of the skins annually imported by Russia, 228, 229  
 — their life and dwellings in Nishne Kolymsk, 264  
 — liberated from commerce between England and, 379  
 Russia Company, patent granted to the, to fish off Greenland, 131  
 Russian Fur Company, account of the, and its trade, 310, 311
- S**ABINE, Mount, discovery of, 481  
 Sable, the, 202  
 — value of the, to the Cossack conquerors of Siberia, 209  
 — importance and beauty of the fur of the, 224  
 — hunting, 225  
 Sabrina Land, discovery of, 480  
 Sagamen, or historians, of Iceland, 79  
 Sajan Mountains, Castrén's journey over the, 185  
 Salmon, Alpine (*Salmo alpinus*), immense numbers of, in Novaya Zemlya, 163  
 Salmon, shoals of, in the rivers of the Arctic regions, 5  
 — abundance of, in Iceland, 71

## SAL

- Salmon of the Sea of Ochotsk, 279  
 — abundance of, in Kamtschatka, 291  
 Samojedes, European, Castrén's journey among the, 175  
 — their drunkenness, 176  
 — their impatience of confinement, 176–178  
 — their barbarism, 187  
 — their Supreme Being, Num, or Jilibeambaertje, 188  
 — their recourse to incantations, 188  
 — their idols, 188, 189  
 — their reverence paid to the dead, 191  
 — their mode of taking an oath, 192  
 — their personal appearance and habits, 192, 193  
 — their wealth in reindeer, 194  
 — their entire number in Europe and Asia, 194  
 — their traditions of ancient heroes, 194, 195  
 — confirmed by the Czar in their possessions, 212  
 — the Samojede companions of Von Middendorff on his journey, 242, 247  
 Sámund Frode, his Icelandic works, 79  
 Sand-bee (*Andrena*) of Novaya Zemlya, 151  
 Sand-reed bread used in Iceland, 62  
 Sarmiento, Pedro, his voyage, 499  
 Sarytchew, voyage of, on the coast of Siberia, 210  
 Sawina river, 142  
 Saxifragas, the, of the treeless zone, 7  
 Scalds, or bards, of Iceland, 79  
 Scandinavia, character of the Coniferæ of, 8  
 Schalaurow, his journeys on the coast of Siberia, 214  
 Scharostin, his residence at Spitzbergen, 136  
 Schelagsskoi, Cape, rounded by Count Michael Staduchin, 210  
 — reached by Schalaurow, 214  
 Scoresby, Dr. his visit to Spitzbergen, 123, 124  
 — Captain, his near approach to the North Pole, 391  
 — his voyage to Greenland, 454, 455  
 Scoter, or black diver, the, 280  
 Scotia, Nova, discovered and colonized by Greenlanders, 377  
 Scurvy in Spitzbergen, 133–135  
 — preservative against, 133, 135  
 — Lapp, mode of preventing the, 169  
 Sea, influence of the, on the severity of the Arctic winter, 11  
 Sea, Antarctic, compared with the Arctic regions, 465  
 — absence of vegetation in the, 465  
 — causes of the inferiority of the Antarctic climate, 465–467  
 — immensity of the icebergs of the, 467

## SHE

- Sea, Antarctic, the Peruvian current, 466  
 — birds of the Antarctic coasts, 470  
 — Antarctic cetaceans, 473–477  
 — Austral fishes, 477  
 — Antarctic voyages of discovery, 479  
 — Antarctic storms and pack-ice, 485  
 Seas, Arctic, dangers peculiar to the, 29  
 — floating masses of ice, 29, 30  
 — ice-blink, 35  
 — summer fogs, 36  
 — clearness of the atmosphere and apparent nearness of objects, 36  
 — phenomena of reflection and refraction of the atmosphere, 37  
 — causes which prevent the accumulation of polar ice, 37, 38  
 — the animals of the Arctic seas, 26, 40  
 — Russian discoveries off the Siberian coast, 215 *et seq.*  
 — Von Middendorff's journey down the Taimur river to the polar sea, 243, 244  
 — Wrangell's nights on the polar sea, 269  
 — his observations on the polar sea, 270  
 — Matuschkin's sledge journey, 272  
 — voyages of the English and Dutch, 377 *et seq.*  
 Sea-bear of Behring sea, 44  
 Sea-eagles of the coast of Norway, 114  
 Sea-elephant of the Antarctic Ocean, 476, 489  
 Sea-gulls of the coast of Norway, 114  
 Seals, the, of the polar seas, 44  
 — their uses to man, 44  
 — seal fishing at Spitzbergen, 136  
 — of Novaya Zemlya, 153  
 — seal hunts of the Esquimaux, 326  
 — seal catching at Newfoundland, 447  
 — seal-hunting on the coasts of Greenland, 456  
 — the Arctic seals, 477  
 Sea-lion of Behring sea, 44  
 — of the Pribilow islands, 309  
 Sea-otter, value of the skin and former numbers of the, 214, 215  
 Sedger river, romantic scenery of the, 493  
 Semple, Governor, murder of, 345  
 Sertularians on the coasts of Greenland, 41  
 Service-trees in the Arctic regions, 8  
 Shark, basking on the northern coasts of Iceland, 70  
 — its uses to the islanders, 70, 71  
 — oil manufactured from its liver, 71  
 — the northern (*Scymnus microcephalus*), abundance of, off Spitzbergen, 130  
 — fishery of, on the coast of Greenland, 457  
 Sheep, wild (*Ovis montana*), of the Rocky Mountains, description of the, 24

SHE

SPI

- Sheep, Wild, the, of Iceland, and their enemies, 62, 63  
 — mode of sheep-shearing, 63  
 Shetland Islands, New, account of the, 467, 468  
 Shrimps off Spitzbergen, 125  
 Siberia, extent of the treeless zone of, 8  
 — character of the Coniferæ of, 8  
 — the elk of, 23  
 — the roe-luck and red deer of, 24  
 — the argali, or wild sheep of, 24  
 — the white dolphin in the rivers of, 43  
 — conquest of, by the Cossacks for the Russians, 205–207  
 — final conquest of, by the Russians, and foundation of Tobolsk, 209 *et seq.*  
 — condition of the natives of Siberia, under the dominion of Russia, 211, 212  
 — scientific expeditions sent to Siberia, 213 *et seq.*  
 — its past ages, 217  
 — its extent and capabilities, 218  
 — the exiles sent there, 218, 219  
 — their condition there, 221  
 — condition of the West Siberian peasants, 222  
 — resources of the country, 223  
 — extremes of heat and cold, 223  
 — fur-bearing animals, 224  
 — the gold fields of Eastern Siberia, and the miners, 230–233  
 — value of the produce of some of the mines, 236  
 — entire value of the produce of gold in 1856 and 1860, 237  
 — luxury and extravagance caused by the wealthy gold speculators, 237, 238  
 — the gold of the Ural, 238, 239  
 Siberia, New, lemmings of, 11  
 — discovery of the islands of, 215, 216  
 — fossil ivory of, 216  
 Sibir, the capital of the Tartars in Siberia, 204  
 — taken by Yermak, the robber, for the Czar, 207  
 Simpson, Mr. Thomas, his Arctic land voyage, 409  
 — his discoveries, 409, 410  
 — assassinated, 410  
 Sirowatsky, his discovery of the Archipelago of New Siberia, 217  
 Skalholt, the ancient capital of Iceland, account of, 85, 86  
 — its present condition, 86  
 — its meadow lands and scenery, 86  
 Skaptar jökull, 51  
 — the great eruption of, in 1783, 81  
 Skates of Lapps, 162  
 Skeidara, Mr. Holland's journey across the, 100, 101  
 Skjalfandafjot river, in Iceland, 59  
 Skogslappar, or Forest Lapps, account of the, 169  
 Sledges of the Lapps, 162  
 — the sacred sledge, Hahengau, of the Samojeses, 188  
 — group of Russian, 240  
 Smith's Sound, temperature of, 12  
 — icebergs formed in, 31  
 — discovery of the entrance to, 390, 424  
 'Smoke, valley of,' in Iceland, 53  
 Snorri Sturleson, the Herodotus of the North, account of him and his 'Heimkringla,' 79, 80  
 Snow-buntings of the 'barren grounds,' 5  
 Snow, its protection of the vegetation of the Arctic regions, 6  
 — warmth, caused by, 6  
 — no land yet found covered to the water's edge with eternal snow, 10  
 — amount of the fall of, in Taimurland, 249  
 — probable diminution of the fall of, advancing towards the pole, 249  
 — its protection against cold, 249, 250  
 Socialism among the Dog Rib Indians, 367  
 Solfataras of Iceland and Sicily compared, 71, 72  
 Solovetskoi, convent of, 174  
 — islands of, 175  
 Sorcery of the Laplanders, 157  
 — of the Samojeses, 189  
 Souslik, the, 186  
 Spain, salted cod-fish imported into, 120  
 Spasy, produce of the gold mine of, 237  
 Sperm whale, the, 478  
 Spirits, invisible, of the Samojeses, 189  
 Spitzbergen, flowers of, 6  
 — vast fields of ice in the plateau of, 10  
 — food of the reindeer of, 10, 11  
 — proofs of a former milder climate in, 14  
 — birds of, 27  
 — apparent nearness of objects at, in clear weather, 36  
 — the walrus of the coast of, 46  
 — description of the archipelago of, 122, 123  
 — the west coast, 123  
 — Scoresby's ascent of a mountain, and excursion along the coast, 123, 124  
 — Magdalena bay, 125–127  
 — ice cliffs and avalanches of ice, 127  
 — Scientific exploring expeditions sent to, 127  
 — flora and fauna of, 128, 129  
 — fisheries of, 130  
 — coal and driftwood of, 130  
 — history of, 131  
 — attempts made to colonize it, 132, 133
