.....
Every effort has been made in preparing this book to provide accurate and up-to-date information that
is in accord with accepted standards and practice at the time of publication. Nevertheless, the authors,
editors, and publishers can make no warranties that the information contained herein is totally free
from error, not least because clinical standards are constantly changing through research and
regulation. The authors, editors, and publishers therefore disclaim all liability for direct or
consequential damages resulting from the use of material contained in this book. Readers are strongly
advised to pay careful attention to information provided by the manufacturer of any drugs or equipment
that they plan to use.
