

Index

- abbreviated forms (abbreviation), 50, 84
- abstract case, 478, 482, 486–487
- Academia Sinica Balanced Corpus of Modern Chinese, 50, 158
- acceptability, 53, 56, 62, 259, 699
 - judgments, 672–673, 689–690
 - ratings, 689, 692, 698
- acoustic cues, 336–337, 339, 341, 383–384, 386–387
 - distribution of, 384
- acquisition of tone sandhi, 304–305
- activation, 27–28, 163
- adjectival reduplication, 140
- AABB forms, 87
- adposition, 432, 445–446
- adverbials, 186–187, 438, 447–448, 456–463
- adverbs, 86, 100, 109–110, 141–142, 409, 411–412, 429, 438, 452, 476, 594
 - of time, 410, 477
- affixes, 26, 49, 135, 140, 143, 148–149, 152–153, 158–163, 165, 167, 169, 202, 223–224, 227, 436, 440
 - featural, 224–226, 228, 239–240
 - inflectional, 136, 139, 153–154, 588
 - phrasal, 57, 151, 159
- affixal features, 226
- affixation, 49, 140, 142, 144, 151–152, 154, 158–159, 161, 170, 223–224, 227, 239, 315, 440
- affixoid behavior, 161, 163, 165, 170
- affixoid indices, 165
- affixoids, 160, 164–165
- agents, 86, 124, 214, 448–449, 453, 455, 474, 495, 507, 509, 636, 692
- agenthood, 453
- alignment, 286
- antecedents, 433, 442
- anticipatory effects, 276, 279
- applicative, 492, 504–505
- Archaic Chinese, 407–408, 414–415, 429; *see also* Pre-Archaic Chinese
- argument, 121, 130, 149, 153, 204, 213, 490–491, 493, 495–497, 503, 505–506, 508, 526, 538, 540–541, 621, 626, 630, 636
- argument structure, 191, 200, 206, 208–210, 212, 214, 492, 498, 503, 508, 619, 662, 679, 684
- attitude, 105, 352, 587, 599
- attributive adjectives, 141–142
- auditory lexical decision (ALD), 249, 253, 257–259, 261–262, 299
- auditory word repetition (AWR), 257–258, 261
- ba* construction, 408–409, 413, 429–430, 451, 489, 522, 674, 684, 696
- Baker's theory, 177, 179, 191
- base tones, 296, 298, 301
- basic lexical units, 77, 85
- basic units, 74–76, 79–82, 84, 86–87, 92, 150
- basic word order of Chinese, 409
- BCC, 455, 461–462
- BLCU Chinese Corpus, 455, 461–462
- bound roots, 79, 159–160
- boundaries, 27, 174
 - morphosyntactic, 315–316
- boundary tones, 351
- canonical word order, 407, 428, 430, 433, 442, 448, 453, 455–456, 463, 674
- Cantonese, 6, 225, 247, 277, 279, 284, 317, 330, 344, 346, 348–350, 386–390, 392, 538, 580–585, 587–589, 593, 602, 604–606, 608, 695
- carryover effect, 276–277
- case, abstract, 468
- case assigners, 468, 470
- case difference, 118
- case filter, 468, 487–488, 490–491
- case, morphological, 482, 486
- case positions, 478, 481, 486, 489–490, 494
- case status of clauses, 469, 481
- case theory, 468–470, 481, 486–490, 492, 494–496, 498, 500–501, 503, 509–510
- changed rimes, 232, 236–237
- Chaozhou, 322–325
- characters, 8–9, 11–12, 16, 23–24, 26–28, 30, 32, 50–53, 56, 66–67, 74, 76–79, 81–83, 85, 87–89, 92–93, 167, 257, 599, 603, 676

 Tianjin tone sandhi, 327
 tonal representation, 294–296
 tone, 5–6, 13, 15, 54, 86, 90, 225, 246, 248, 250–251, 253–256, 258–261, 275–286, 291–295, 297–305, 313–326, 329–332, 336–337, 344–353, 362–369, 372–375, 378, 383–392, 394–398, 580, 588–589, 597, 600, 603, 607
 acquisition, 304
 contours, 315, 317, 325
 features, 295, 321–322, 325, 329
 harmonic tones, 387
 and intonation, 336, 345, 349–350, 352
 in Cantonese, 388
 in Chinese languages, 275
 in left-dominant languages, 293
 in right-dominant languages, 293
 tone gap (TG), 258, 260
 tone languages, 281, 286, 362, 369, 378
 tone normalization, 388–389, 391–392, 394, 396
 tone sandhi, 5–6, 90, 275, 282, 291–293, 296, 298–305, 313, 315–316, 320, 323–326, 329, 337, 346, 363
 tone-bearing units (TBU), 281, 284, 294–295
 tonelessness, 315, 318, 321, 325
 topic aboutness, 626–628
 topic accessibility, 424
 topic chain, 497, 617, 636, 646
 topic constructions, 340, 617, 624, 635–636, 638, 640–643, 645–646, 649, 653, 656, 658, 661–662
 topic-comment constructions, 635, 637, 640–641, 650, 662
 topic copying, 629, 631
 topic elements, 636, 644, 646, 649–650
 topic item, 645–646, 661
 topic prominence, 621, 630, 642
 topic-prominent languages, 636
 topic sentences, 684
 topicality, 448–451, 453, 463, 621, 627, 630–631
 topicalization, 62, 495, 525, 538, 616, 619, 621, 625, 628, 630–631
 topography of Chinese topics, 625–626
 turn constructional units (TCU), 605, 644–645
 turn transition places, 643–644, 646, 648–650
 typical phrasal constructions, 99
 typological characteristics and grammar, 415
 typological identification, 442
 typological identification of modern Chinese, 442
 typology, 79, 111, 123, 147, 150, 153–154, 202, 215, 223–225, 488, 524, 621
 unaccusative sentences, 496–497
 unergative verbs encode, 496
 unexpected affixed outputs, 229, 239
 uniformity of theta-assignment hypothesis (UTAH), 178, 180, 184, 192–194
 units, 7, 9–11, 16, 25–28, 30, 52, 56, 64, 74–90, 92–93, 135, 147–154, 199, 202, 205, 224–225, 245–248, 251, 257, 262, 275, 294–295, 301, 304, 341, 352, 436, 456, 516–517, 528, 530, 535, 542, 551, 555, 558, 567–568, 571, 586, 588, 605, 642, 671, 681–682, 698; *see also* basic lexical units, basic units, linguistic units, orthographic units, sublexical units, tone-bearing units, turn constructional units
 utterance particles (UPs), 598, 604
 utterances, 47, 57, 337, 341, 349, 352, 391, 497, 598, 600, 603, 641–642, 673
 variability, 120, 255, 275, 282, 285–286, 302–303, 387–388, 599, 678
 variations, 51
 verbs, 114, 124, 213
 control, 106, 108–109, 502
 Chinese, 106, 108–109, 474, 477, 504, 507–508
 compound, 106, 108–109
 intransitive, 106, 108–109, 495
 transitive, 106, 108–109, 453, 490
 unergative, 106, 108–109, 492, 495, 497
 verb forms, 123–124, 437, 505
 verb gapping, 115, 128, 131
 verb incorporation (VI), 177–178, 180, 184–185, 190, 194, 627
 verb phrases (VPs), 115, 123, 152, 177–178, 338, 462, 468–469, 471–472, 474–476, 502, 505, 508–509, 518, 579–585, 590, 592–593, 697
 verb-object (VO), 59, 123, 140, 147, 175–176, 192, 200, 302, 350, 376, 422, 424–425, 430, 441, 445–449, 456, 463, 469–471, 593, 674; *see also* SVO, Separable VO compounds, subject-verb-object (SVO), VO compounds, VO constructions, VO languages, verb-object (VO) compounds, 80, 147, 175
 constructions, 61, 424
 languages, 430, 445, 456, 469
 phrases, 377–378
 structure, 178, 200
 verbal compounds, 201–202, 205, 213–214
 visual feature analysis, 34
 visual object, 385, 398
 voices, 123, 384, 388
 vowels, 81, 92, 226, 231–233, 246, 279, 366, 383, 386, 388, 394; *see also* nasal vowels
 word classification, 101, 105, 109–111
 word formation in Chinese, 150, 198, 211
