tendinosis, 55
tendo Achilles. See Achilles tendon
tendon dysfunction
radiology, 55–7
tendon xanthoma, 297
tendonoscopy
Achilles tendon, 244–6
peroneal tendons, 246–7
tibialis posterior tendon, 247
tenosynovial giant cell tumor, 296
tenosynovitis, 11, 55
Thompson’s test, 16
three-dimensional (3D) motion analysis, 38
through-knee amputation, 92–3
tibial plafond, 360–1
tibialis anterior
weak, 4
tibialis anterior muscle, 28, 30, 35
tibialis posterior dysfunction, 11–12
common case scenario, 19–20
tibialis posterior muscle, 29, 34–5
tibialis posterior tendinopathy, 12
tibialis posterior tendon arthroscopy, 247
tibiotalar joint, 359
tibiotalocalcaneal (TTC) arthrodesis, 153–4
outcomes, 160
Tinel’s sign, 12, 14, 253
toe deformities
pediatric patients, 356–7
toenails
classification systems for nail disease, 15
clinical examination, 15–16
common nail disorders, 15–16
tomography, 45–7
too many toes sign, 18
torg classification, 403
total ankle arthroplasty (TAA), 7, 146–51
gait studies, 159
outcomes, 158
total contact orthoses, 77
transfer lesion, 15
trans-tibial amputation, 88–90
trans-tibial prostheses, 90–2
transverse arch, 32
transverse tarsal joint
joint motion, 29–30
transverse tarsometatarsal arch, 32
trauma
ankle and hindfoot arthroscopy, 242
triceps surae muscle, 4, 34
weakness, 4
triple arthrodesis, 151–2
outcomes, 159–60
truss
definition, 32
plantar fascia, 32–4
