

## THE CHRISTIAN IDEA OF GOD

In this book, eminent theologian Keith Ward takes a fresh look at the ancient philosophy of idealism, connects it with findings in modern science, and shows that a combination of good science, good philosophy, and a passion for truth and goodness can underpin religious faith. Going back to first principles, he argues for the idealist view that all knowledge begins with experience. Critically examining the idealism of Plato, Kant, and Hegel, Ward shows how this philosophy is strengthened by knowledge of modern physics and how it can lead to a new and vivid presentation of Christian faith. A work of philosophical rigour that makes clear the rational nature of belief in God, this book challenges the easy assumptions of materialism and the relativity of truth that undermine both science and religion. Ward writes in an accessible and readable style that gives new life and practical usefulness to idealist philosophy.

KEITH WARD is Professor of the Philosophy of Religion at the University of Roehampton. He was formerly Professor of the Philosophy of Religion, University of London, and Regius Professor of Divinity at Oxford. He is the author of many books on religion, philosophy, and theology – including on Kant, comparative theology, and, recently, *Christ and the Cosmos: A Reformulation of Trinitarian Doctrine*, 2015, Cambridge University Press. He is a Fellow of the British Academy and a Canon of Christ Church, Oxford.

This is a series of interdisciplinary texts devoted to major-level courses in religion, philosophy, and related fields. It includes original, current, and wide-spanning contributions by leading scholars from various disciplines that (a) focus on the central academic topics in religion and philosophy, (b) are seminal and up to date regarding recent developments in scholarship on the various key topics, and (c) incorporate, with needed precision and depth, the major differing perspectives and backgrounds – the central voices on the major religions and the religious, philosophical, and sociological viewpoints that cover the intellectual landscape today. Cambridge Studies in Religion, Philosophy, and Society is a direct response to this recent and widespread interest and need.
