| List of Figures   | <i>page xv</i> |
| List of Boxes   | xx             |
| About the Authors   | xxi            |
| Preface   | xxv            |
| Acknowledgments   | xxvi           |
| <b>1 The Setting, History of Studies, and the Climatic Role of the Cryosphere</b> | <b>1</b>       |
| 1.1 Introduction  | 1              |
| 1.2 Setting   | 2              |
| 1.3 History of Scientific Study   | 3              |
| 1.3.1 Arctic  | 3              |
| 1.3.2 Antarctic   | 10             |
| 1.3.3 Central Asia  | 12             |
| 1.4 The Role of Polar Snow and Ice in the Climate System                          | 14             |
| <b>2 Paleoclimatic History</b>  | <b>21</b>      |
| 2.1 Temperatures over Geologic Time   | 21             |
| 2.2 Geological Records  | 21             |
| 2.2.1 Ocean Sediment Cores  | 21             |
| 2.2.2 Ice Cores   | 23             |
| 2.3 Climate Drivers   | 24             |
| 2.4 Eocene  | 26             |
| 2.5 Oligocene–Miocene–Antarctic Glaciation  | 28             |
| 2.6 Plio-Pleistocene Glacial Cycles   | 30             |
| 2.7 Holocene  | 46             |
| 2.8 Anthropocene  | 49             |
| 2.8.1 Historical Climatology  | 50             |
| 2.8.2 Tropical–Polar Links  | 53             |
| 2.8.3 Polar–Mid-latitude Links  | 55             |
| <b>3 Observing Polar Environments</b>   | <b>67</b>      |
| 3.1 Observing Networks  | 67             |
| 3.2 In Situ Measurements  | 71             |
| 3.2.1 Meteorological Observations   | 71             |
| 3.2.2 North Pole Drifting Stations  | 72             |
| 3.2.3 Icebreakers   | 75             |

## CONTENTS

|          |  |            |
|----------|--|------------|
| 3.2.4    | Oceanographic Observations   | 76         |
| 3.2.5    | Upward-Looking Sonar   | 79         |
| 3.2.6    | Traditional Knowledge and Community Science                            | 80         |
| 3.3      | Remote Sensing   | 80         |
| 3.3.1    | Satellite Photography  | 81         |
| 3.3.2    | Passive Microwave  | 83         |
| 3.3.3    | Radar  | 88         |
| 3.3.4    | Altimetry and Gravity Measurement                                      | 90         |
| 3.3.5    | Electromagnetic Sounding of Sea Ice                                    | 91         |
| 3.3.6    | Global Positioning Systems   | 92         |
| 3.3.7    | Unmanned Aerial Vehicles   | 92         |
| 3.4      | Reanalysis Products  | 92         |
| <b>4</b> | <b>Atmospheric and Oceanic Circulation and Climate</b>                 | <b>103</b> |
| 4.1      | Atmospheric Circulation  | 103        |
| 4.1.1    | Northern Hemisphere  | 108        |
| 4.1.2    | Southern Hemisphere  | 112        |
| 4.2      | Oceanography and Water Balance   | 118        |
| 4.2.1    | Arctic   | 118        |
| 4.2.2    | Antarctic  | 126        |
| 4.3      | Climate  | 129        |
| 4.3.1    | Radiative Regimes  | 129        |
| 4.3.2    | Arctic Temperature Conditions  | 132        |
| 4.3.3    | Arctic Inversions  | 135        |
| 4.3.4    | Arctic Wind  | 135        |
| 4.3.5    | Arctic Moisture Budget Components                                      | 136        |
| 4.3.6    | Arctic Snow Cover  | 137        |
| 4.4      | Antarctic Climate  | 141        |
| 4.4.1    | Antarctic Temperature Conditions                                       | 141        |
| 4.4.2    | Antarctic Inversions   | 144        |
| 4.4.3    | Antarctic Wind   | 145        |
| 4.4.4    | Antarctic Moisture Budget  | 146        |
| 4.5      | Recent Climate Changes   | 148        |
| 4.5.1    | Arctic   | 148        |
| 4.5.2    | Antarctic  | 149        |
| <b>5</b> | <b>Terrestrial Environments and Surface Types of the Polar Regions</b> | <b>165</b> |
| 5.1      | Polar Desert   | 165        |
| 5.2      | Tundra   | 168        |
| 5.3      | Permafrost   | 175        |
| 5.3.1    | Ground Ice   | 180        |
| 5.3.2    | Periglacial Regions  | 181        |
| 5.3.3    | Recent Permafrost Changes  | 185        |

|          |   |            |
|----------|---|------------|
| 5.4      | Lakes                                     | 187        |
| 5.4.1    | Proglacial Lakes                          | 189        |
| 5.4.2    | Perennially Frozen Lakes                  | 190        |
| 5.4.3    | Subglacial Lakes                          | 192        |
| 5.4.4    | Recent Changes in Lakes                   | 193        |
| 5.5      | Rivers                                    | 195        |
| 5.5.1    | Icebergs                                  | 198        |
| 5.6      | Glaciers and Ice Caps                     | 199        |
| 5.6.1    | Glacier Changes in the Arctic             | 201        |
| 5.6.2    | Glacier Changes in the Antarctic          | 208        |
| 5.7      | Glacial Landscapes                        | 209        |
| 5.7.1    | Erosional Landforms                       | 210        |
| 5.7.2    | Small-Scale Features of Glaciated Bedrock | 212        |
| 5.7.3    | Large-Scale Features of Glaciated Bedrock | 213        |
| 5.7.4    | Glaciated Mountains                       | 214        |
| 5.7.5    | Depositional Landforms                    | 216        |
| 5.7.6    | Fluvioglacial Landforms                   | 218        |
| <b>6</b> | <b>Ice Sheets and Ice Shelves</b>         | <b>235</b> |
| 6.1      | The Greenland Ice Sheet                   | 235        |
| 6.1.1    | Mass Balance                              | 242        |
| 6.1.2    | Energy Balance                            | 245        |
| 6.2      | The Antarctic Ice Sheet                   | 249        |
| 6.2.1    | Blue Ice Areas                            | 252        |
| 6.2.2    | Ice Sheet Changes                         | 255        |
| 6.3      | Ice Shelves                               | 258        |
| 6.3.1    | Melt                                      | 260        |
| <b>7</b> | <b>Oceanic Environments</b>               | <b>269</b> |
| 7.1      | Southern Ocean                            | 269        |
| 7.2      | Ross Sea                                  | 275        |
| 7.3      | Weddell Sea                               | 275        |
| 7.4      | Arctic Ocean                              | 277        |
| 7.5      | Arctic Seas                               | 283        |
| 7.5.1    | Barents Sea                               | 283        |
| 7.5.2    | Kara Sea                                  | 284        |
| 7.5.3    | Laptev Sea                                | 285        |
| 7.5.4    | East Siberian Sea                         | 286        |
| 7.5.5    | Chukchi Sea                               | 287        |
| 7.5.6    | Beaufort Sea                              | 287        |
| 7.5.7    | Lincoln Sea                               | 288        |
| 7.5.8    | Greenland Sea                             | 289        |
| 7.5.9    | Canadian Arctic Archipelago               | 290        |

## CONTENTS

|          |   |            |
|----------|---|------------|
| 7.5.10   | Adjacent Seas of the North Atlantic                 | 291        |
| 7.5.11   | Marginal Seas of the North Pacific                  | 292        |
| 7.6      | Global Sea Level                                    | 293        |
| 7.7      | Sea Ice   | 293        |
| 7.7.1    | Sea Ice Edge Location                               | 294        |
| 7.7.2    | Arctic Sea Ice                                      | 296        |
| 7.7.3    | Landfast Ice  | 301        |
| 7.7.4    | Sea Ice Leads                                       | 302        |
| 7.7.5    | Arctic Sea Ice Trends                               | 303        |
| 7.8      | Antarctic Sea Ice                                   | 313        |
| 7.8.1    | Sea Ice Trends in the Antarctic                     | 316        |
