INDEX

adverse selection, 386, 388, 390
Akerlof, G., 387
allocation
  competitive equilibrium allocation, 293
  feasible allocation, 284, 285, 293
  non-feasible allocation, 286
Arrow, K., 290
asymmetric information, 386, 388, 390
Aumann, R., 258
average cost, 134–137
average cost function, 135
average product, 140, 141, 175
average total cost, 178
average variable cost, 178
backward induction, 269
bankruptcy, 151
battle of the sexes, 258, 262
  expanded battle of the sexes, 259, 265, 266
behavioral economics, 259, 272
Bernoulli, D., 384
Bertrand competition, 248
Bertrand duopoly model, 236
Bertrand equilibrium, 249, 263
Bertrand, J., 236, 248
bliss point, 25
Bowley, A., 282
budget constraint, 26
  intertemporal budget constraint, 31
  standard budget constraint, 26
budget line, 27
budget set, 27
bundle, 7
cap and trade, 330, 341, 343
capital market, 83
carrot and stick, 391
cartel, 243
certainty equivalent, 380, 381
change in consumer’s surplus, 119
Clarke, E., 365
classical school, 1
Coase Theorem, 339
Coase, R., 337
Coasian property rights, 330, 337
Cobb, C., 39, 66, 167
Cobb–Douglas production function, 167, 182
Cobb–Douglas utility function, 39
collusion, 242, 244, 245
command policy, 361
comparative statics, 47
compensating variation/equivalent variation paradox, 103, 113, 115
competitive equilibrium, 238, 239, 241, 281, 290, 292, 313, 320
competitive firm, 189
competitive limit, 256
competitive market, 131, 145, 189, 190, 227, 290, 294, 311
competitive market equilibrium, 189, 196, 197
complementary slackness, 45, 172
complements, 55
completeness, 7, 9, 376
concavity, 131, 173
conditional factor demand, 134, 160
conditional input demand, 134, 143, 160
customer’s surplus, 112, 114, 118, 197
consumers’ surplus, 112, 121, 122, 197, 201, 216, 217, 283
consumption bundle, 7
consumption/leisure model, 71, 75, 307
continuity, 376
contract curve, 289
convexity, 7, 12, 154
core, 289, 294
corner solution, 35
cost, 133
cost minimization, 158–160, 175
coupon rationing, 29, 30
Cournot competition, 236
Cournot equilibrium, 237, 238, 241, 263
Cournot, A., 236
deadweight loss, 189, 202, 204, 206, 216, 218, 227, 239
Debreu, G., 290
decision problem
Newcomb’s paradox, 384
St. Petersburg paradox, 384
Defoe, D., 281
demand curve, 47, 51, 213
  compensated demand curve, 48, 60, 61, 124
  inverse demand curve, 47, 213
demand function, 47
demand-revealing mechanism, 365–367
differentiated goods, 250, 251
diminishing returns, 131
discount factor, 32
distributional fairness, 285
dominant strategy, 260
dominant strategy equilibrium, 258, 260, 263
Douglas, P., 39, 66, 167
Dresher, M., 259
duopoly, 235
economic problem, 1
economy
  exchange economy, 281
Edgeworth box diagram, 282, 288
Edgeworth, F., 1, 282
efficiency, 283, 306, 335, 342, 351, 363, 365, 366
equality, 285
  price elasticity of demand, 62, 63, 214
demand
  initial endowment, 282
Engel curve, 47, 49
Engel, E., 49
equity, 285
excess demand, 196, 313
excess supply, 196, 313
expected utility property, 377
expected value, 374
experimental economics, 259, 272
experimental evidence on games, 272
externalities, 329, 330, 351
feasible, 8
fixed cost, 175, 176
Flood, M., 259
framing effect, 273
free entry, 190
free exit, 190
free rider, 351, 359
gamble, 374
game, 258, 274
  battle of the sexes, 258, 262
centipede game, 276
cheat, 267
duopoly sequential competition, 269
expanded battle of the sexes, 259, 265
matching pennies, 268
mutual assured destruction, 271
one shot game, 273
prisoners’ dilemma, 258, 259, 261
repeated game, 272, 273
sequential-move game, 267
simultaneous-move game, 267
tic-tac-toe, 267
tit for tat, 259, 274
game theory, 236, 258
game tree, 268
general equilibrium, 285
general equilibrium analysis, 2
general equilibrium model, 306
Giffen good, 51
Giffen, R., 51
Groves, T., 365
Harsanyi, J., 258
Hart, O., 393
health insurance market, 388
