

Index

- adaptivity, 83
- affordances, 58, 62, 167, 184, 218–221
 - field of affordances, 58, 217, 218
- agency, 87
 - personal agency, 3, 30, 76, 125
- autonomy, 82, 119, 190
 - personal autonomy, 3, 125, 164, 259
- autopoiesis, 82, 83
- biopsychosocial model, 37, 227, 231, 232, 253
- causality
 - circular causality, 112, 113, 114, 119
 - developmental trajectory, 195, 228, 243, 248, 253
 - downward causation, 112, 113
 - non-linear causality, 100, 178, 189, 232, 252
 - organisational causality, 110, 115, 122, 254
 - originary cause, 240, 252
 - reverse engineering, 242
- cognitive gap, 145, 151
- common sense, 208, 217, 224
- constitution, 43, 66, 82, 95, 95, 100, 119
- coupling, 57, 67, 84, 91, 165, 167, 170, 195, 207
- dichotomous mind–world model, 48, 53, 61, 67, 76, 109, 145, 151, 223, 226, 233
 - mediational model, 48
 - sandwich model, 48, 61, 236
- different existence, 217
- emergence, 55, 66, 110, 113, 115, 182
 - fusion, 115
- excentric position, 124, 125, 128, 138, 213
- existential dimension, 12, 13, 124, 128, 141, 145–146, 156
- existential vulnerability, 129
- experience sampling, 256
- experiential dimension, 10, 70, 148, 183, 247, 258
- harmful dysfunctions, 224
- horizontal hierarchy, 119, 120, 238, 244, 257
- life–mind continuity thesis, 55, 80, 81, 88, 94, 145
- local–global relations, 101, 102, 104, 107, 111, 114, 116, 122, 203, 217, 254
- looping effect, 135
- mereological relation, 98, 100, 104, 121, 122, 203, 240, 245, 253
- mind–body problem, 71, 76, 96, 97, 105, 114, 120, 180
 - aspect dualism, 121
 - dualism, 47, 77, 79, 100, 112, 114, 120, 199
 - epiphenomenalism, 78, 113, 115
 - ‘hard problem’, 80, 105
 - identity theory, 121
 - mental causation, 78, 107, 114
 - physical closure, 109
 - physicalism, 78
- network model, 41, 244
 - personalised network model, 244, 256
- neurological disorders, 99, 202
- neuroreductionist model, 18, 19, 27, 30, 49, 223, 224, 230, 232, 237, 243
- physiological dimension, 10–11, 71, 80, 93, 184, 240, 258
- relational ontology, 65, 176, 231, 259
- relational reality, 57, 166, 169, 171, 197, 218
- representation-hungry problems, 146, 152

- scaffoldings (material and social), 260
- self-organisation, 53, 56, 82, 90, 106, 110
- sense-making, 46, 53, 61, 81, 86, 88, 91, 145, 258
 - appropriateness of sense-making, 196, 198, 206, 224
 - basic sense-making, 59, 147, 151, 196
 - disorders of sense-making, 195, 199, 229
 - enaction of patterns of sense-making, 201, 228, 261, 262
 - existential sense-making, 59, 146, 151, 168
 - flexibility of sense-making, 209, 211
 - participatory sense-making, 93, 263
- social constructivism, 222
- sociocultural dimension, 11–12, 183, 208, 259
 - sociocultural practices, 91, 94, 126, 183, 208, 239
- somatic disorders, 3, 31, 37, 71, 199, 216
- stigma, 31, 138
- supervenience, 78, 112
- valences, 56, 161, 166, 169
- values, 56, 60, 142, 148, 156, 166, 169, 179, 224
 - diversity of values, 158, 162, 165, 175
 - intrinsic worth, 159, 160, 163, 170
 - universality of values, 158, 161, 165, 172, 198
- values-based psychiatry, 34
- vertical hierarchy, 116, 118, 190, 236, 240, 244, 257
