 role of subcortical structures, 308
 space-number association and lateralization
 of, 615
 vocal coordination, 22
 vocal learning
 comprehension learning, 21
 definition of, 21–22
 in birds, 505–506
 modular basis of, 22
 phenotype of learner, 22
 production, 21
 usage, 21
 vocal production learning, 21
 vocal production variability, 22
 vocal signaling in canids, 75–76
 vocal usage learning, 21
 vocal versatility, 22
 vocalizations, 16–17
 vomeronasal organ (VNO), 78

 warblers
 brood parasitism and social learning, 507
 vocal repertoires in, 505
 warbling antbirds (*Hypocnemis* spp.), vocal
 learning in, 22
 warning coloration, 9, 26
 warning signals. *See* alarm signals
 wasps (*Polistes metricus*), 297
 weakly electric fish (*Apteronotus*
 leptorhynchus), conspecifics recognition
 in, 153
 Weber's Law, 570, 574
 Western scrub jays (*Aphelocoma californica*),
 observe/non-observer discrimination by,
 332
 what-where-source-context features, 194
 what-where-when memory, 119
 binding of components in, 120
 effect of instructions in humans, 122
 episodic memory as basis of, 194
 in hummingbirds, 184–185
 representation of caching event, 119
 what-where-when paradigm
 autonoetic consciousness assessment and,
 119
 episodic-like memory in rodents, 123
 flexibility criterion testing with, 120
 what-where-which memory, in rodents, 124
 what-where-who memory, in great apes, 125
 white-faced capuchins (*Cebus capucinus*),
 social traditions and innovation in,
 723–724
 Whooping cranes (*Grus americana*),
 migrations pathways and social learning,
 508
 wild-superb fairy-wrens (*Malurus cyaneus*), 11
 brood parasitism defense for nestlings, 510
 eavesdropping in, 11
 wolves (*Canis lupus*). *See also* canids
 quantity discrimination in, 572–574
 risk-seeking behaviour in, 776
 wild to domestic transition, 81
 wood crickets, social learning in, 549
 woodpecker finch, innovative capacity in, 645

 yellow belied goatfish (*Parupeneus*
 cyclostomus), cooperative hunting in,
 275
 yellow stingrays (*Urobatis jamaicensis*),
 memory retention in, 141
 Yellow-crested cockatoos (*Cacatua sulphurea*),
 697
 yellow-eyed juncos (*Junco phaeonotus*),
 risk-seeking in, 772

 zebra finches (*Taeniopygia guttata*)
 alterations in song by, 510
 social learning and stimulus responses in, 508
 vocal learning ability assessment, 22
 zebrafish. *See also* fish
 zebrafish (*Danio rerio*)
 circadian rhythm in, 160
 continuous variable use by, 584
 cooperative behaviour in, 283
 drug and chemical effects on memory, 155
 environmental complexity in learning and
 retention, 149
 episodic-like memory in, 150
 memory consolidation in, 152
 quantitative judgements in, 583
 social network structure in, 496
