THE CAMBRIDGE HISTORY OF  
NATIONHOOD AND NATIONALISM

This major new reference work with contributions from an international team of scholars provides a comprehensive account of ideas and practices of nationhood and nationalism from antiquity to the present. It considers both continuities and discontinuities, engaging critically and analytically with the scholarly literature in the field. In Volume 11, leading scholars explore the dynamics of nationhood and nationalism's interactions with a wide variety of cultural practices and social institutions – in addition to the phenomenon's crucial political dimensions. The relationships between imperialism and nationhood/nationalism and between major world religions and ethnonational identities are among the key themes explained and explored. The wide range of case studies from around the world brings a truly global, comparative perspective to a field, the study of which was long constrained by Eurocentric assumptions.

CATHIE CARMICHAEL is Professor of European History at the University of East Anglia. She has authored and edited several previous books including *Language and Nationalism in Europe*, co-edited with the late Stephen Barbour (2000) and *Genocide before the Holocaust* (2009).

MATTHEW D'AURIA is Associate Professor of Modern European History at the University of East Anglia. He is the author of *The Shaping of French National Identity: Narrating the Nation's Past, 1715–1830* (2020).

AVIEL ROSHWALD is Professor of History at Georgetown University, Washington, DC. His publications include *Ethnic Nationalism and the Fall of Empires: Central Europe, Russia and the Middle East, 1914–1923* (2001) and *The Endurance of Nationalism: Ancient Roots and Modern Dilemmas* (2006).

THE CAMBRIDGE HISTORY OF  
NATIONHOOD AND NATIONALISM

*Edited by*

CATHIE CARMICHAEL, MATTHEW D'AURIA, AND AVIEL ROSHWALD

The origins and nature of nationhood and nationalism continue to be topics of heated scholarly debate. This major new reference work with contributions from an international team of scholars provides a comprehensive account of ideas and practices of nationhood and nationalism from antiquity to the present. It considers both continuities and discontinuities, engaging critically and analytically with the scholarly literature in the field. The *History* also explores nationhood and nationalism's relationships with a wide variety of cultural practices and social institutions, in addition to the phenomenon's crucial political dimensions. Its wide range of regional case studies brings a truly global, comparative perspective to a field long constrained by Eurocentric assumptions. Volume 1 tracks turning points in the history of nationhood and nationalism from ancient times to the twentieth century. Volume 11 theorizes the connections between nationhood/nationalism and ideology, religion, and culture. Together, they enable readers to understand the roots of how nationhood and nationalism function in the present day.
