
Index

- 2-transitive action, 25
A-invariant, 30
F-character, 51
F-class, 51
F-element, 51
 π -element, 105
 π -group, 105
 π -number, 105
 π -order, 105
 π' -number, 105
 θ -good conjugacy class of G/N , 92
 θ -good element of G , 90
 θ -good element of G/N , 92
p-block, 155
p-part of an element, 32
p-part of an integer, 60
p-radical subgroup, 162
p-rational character, 108
p-regular element, 61
p-singular element, 61
p-solvable, 153
 p' -degree, 123

 action by automorphisms, 28
 affording a character, 1
 algebra, 5
 algebra homomorphism, 6
 algebraic integers, 9, 11
 Alperin, J. L., 118, 128, 154, 155, 178
 Alperin's weight conjecture, 161
 Alperin–McKay conjecture, 156
 Amit, G., 56
 An, J., 179
 Arad–Herzog, 78
 Arad–Herzog's conjecture, 67

 AWC, 161, 178

 Berkovich, Ya. G., 125
 Boltje, R., 179, 220
 Bouc, S., 179
 Brauer, R., 64, 79, 121, 177
 Brauer correspondent, 156
 Brauer's characterization of characters, 128
 Brauer's first main theorem, 156
 Brauer's height zero conjecture, 121, 134
 Brauer's induction theorem, 128
 Brauer's problem number 1, 133
 Brauer's problem number 10, 133
 Brauer's problem number 11, 132
 Brauer's problem number 12, 132, 159
 Brauer's problem number 19, 64
 Brauer's problem number 2, 125
 Brauer–Clifford group, 100
 Brauer–Nesbitt theorem, 62
 Brauer–Wielandt theorem, 70
 Breuer, T., 43
 Broué, M., 152
 Broué's conjecture, 152, 156
 Brough, J., 70
 Brown, K. S., 179
 Burnside, W., 58, 59, 77
 Burnside's theorem on zeros, 96

 Cabanes, M., 211
 Camina, A., 132
 canonical extension, 106
 center of an algebra, 5
 center of a character, 10
 central character, 11
 central character triple isomorphism, 193

- central extension, 213
- central isomorphism by direct product, 199
- central isomorphism by factor groups, 199
- central isomorphism by wreath product, 200
- central primitive idempotents, 8
- central product of characters, 186
- central product of groups, 186
- CFSG, 56, 59, 109, 120, 125, 132, 155, 212
- chain, elementary abelian, 163
- chain, normal, 163
- chain of p -subgroups, 162
- character, 1
- character isomorphism induced by ordered character triples, 192
- character restriction, 15
- character triple, 80, 87
- character triple isomorphism, 87
- characteristic function, 2
- characters of factor groups, 12
- Chillag, D., 23, 56
- class function, 2
- Clifford, A. H., 189
- Clifford correspondence, 19
- Clifford correspondent, 20
- Clifford's other theorem, 190
- Clifford's theorem, 18
- cocycle, 82
- complex conjugate character, 9
- conjugate character of a normal subgroup, 18
- Conway, J. H., 56
- Cossey, J., 126
- Craven, D. A., 133
- cyclic defect theory, 152, 177

- Dade, E. C., 114, 118, 139, 160, 177–179, 210
- Dade's ordinary conjecture, 172
- Dade's projective conjecture, 179
- defect group, 155
- defect of a character, 171
- defect zero, 60
- degree of a character, 1
- DeMeyer–Janusz theorem, 137
- determinantal order of a character, 10
- direct product of characters, 14
- direct sum of algebras, 5
- divisibility of relative character degrees, 89

- Hawkes, T., 44, 126
- Hedegüs, P., 56
- Herzog, M., 132
- Higman, G., 26, 130
- Howlett, R., 136

- Howlett–Isaacs theorem, 120, 147
 Humphreys, J. F., 149
 Huppert, B., 133
 Huppert’s conjecture, 133
- induced block, 156
 induced character, 16
 induced function, 16
 inductive McKay condition, 203
 involved in, 207
 irreducible character, 2
 irreducible constituent, 3
 irreducible projective representation, 188
 irreducible representation, 2
 Isaacs, I. M., 24, 42, 56, 116, 120, 123, 125,
 134, 136, 178, 210, 220
 Isaacs–Malle–Navarro theorem, 207
 Isaacs–Navarro conjecture, 157
 Isaacs–Seitz conjecture, 134
 isomorphic algebras, 6
 Itô’s theorem, 20
 Itô–Michler theorem, 120
 Iwahori, N., 136
 Iwahori–Matsumoto conjecture, 136
- kernel of a character, 10
 Kessar, R., 132
 Kimmerle, W., 132
 Knörr, R., 23, 63, 97, 162, 178
 Knörr’s theorem on relative second
 orthogonality, 97
 Knörr–Robinson formulation of AWC, 165,
 171
 Knörr–Robinson k/I theorem, 170
 Kronecker delta, 3
 Kronecker product of matrices, 14
 Külshammer, B., 60
- last term of a chain, 162
 Leitz, M., 60
 Liebeck, M., 76
 Liebler, R. A., 148
 lies below, 15
 lies over, 15
 Linckelmann, M., 179
 linear character, 2
 local subgroup, 128
- Mackey’s theorem, 16, 24
 Magma, 51
 Malle, G., 59, 132, 155, 178, 211
 Malle intermediate subgroup, 203
 Malle–Navarro theorem, 121
 Malle–Späth theorem, 155
 Maschke’s theorem, 7
 Mason, G., 23
 Matsumoto, H., 136
 Mattarei, S., 133
 McKay conjecture, 99, 150
 McKay Galois conjecture, 157
 Michler, G., 76, 120
