Subject Index

- accessibility of memories 354
see also retrieval of memory
- acquiring knowledge,
 relationship of learning
 and memory 33–34
see also learning
- activation, nodes 326–328
- addiction
 aversion therapy 111–112
 conditioning applications
 110
 delay discounting 133
 drug cravings 111
- advertising
 evaluative conditioning 110
 sense of freedom 8–9
- aeroplane example 429
- aggression
 anger in the brain 413–414
 environmental influence 7
 long-term effects 197–198
 and nutrition 7
 and punishment 182–183,
 195–198
 response cost 203–205
 violent films 196–197
- alcohol 107, 357–359
- amnesia
 definition 282
 HM's memory 277–278
 KC 312
 priming 316–317
- amygdala 85, 89, 413–414
- anaesthesia 414
- anchoring 227–228, 233
- anger, in the brain 413–414
see also aggression
- animals
 blocking 95–99
 conditioning in 78–83
 delay of reinforcement
 129–131
 delayed punishment 187–189
 ethical issues 23–24
 evolution of conditioning
 74–75
- fear responses 59–60
- intelligence 22–23, 119–120
- language 20–22
- overexpectation effect
 96–98
- physiology of the visual
 system 269–271
- pleasure responses 412–413
- punishment 183–185,
 190–192
- puzzle box experiment
 120–121, 129–131,
 207–209
- reflexes 46–47
- schedules of punishment 189
- similarities to people 19–20
- stimulus substitution 79–80
- taste-aversion learning
 61–63
- use in research 17–24
- anterograde amnesia 277–278,
 282, 316–317
- arousal
 attention 391
 emotional intensity 392
 galvanic skin response 58–59
 sexual 412–413
- associative context
 British Associationism
 39–40
 classical conditioning 39–43
 contiguity principle 65–68
 Ebbinghaus's memory 246
 frequency principle 68–69
 information-processing
 framework 257
 intensity principle 69
 memory 246, 268
 motor skills 252–253
 paired-associate learning
 381–383
 Pavlov's dogs 41–43
 reinforcement 209–217
 Thorndike's Law of Effect 121
 two-system conditioning
 hypothesis 83–85
- associative learning 30–32, 215,
 426
- assumptions in memory 335
- asymptote
 definition 100
 frequency principle 68–69
 Rescorla–Wagner model of
 conditioning 91–92
- Atkinson–Shiffrin model
 263–265
 control processes 261–262
 do memories decay? 279–282
 further research 268
 long-term memory 260–261
 memory span 263
 predictions of 262–265
 rapid forgetting 263
 sensory memory 268–275
 serial position effect 263–265
 short-term memory 260–261,
 284
 STM as activated LTM
 287–289
- attention
 arousal 391
 automatization 298–299
 cocktail party example
 295–296
 definition 304
 eyewitness testimony 391
 filter theories 299–301
 impairment as side effect of
 punishment 193–194
 invisible gorilla example
 296–297
 pool of resources theory
 301–302
 and punishment 182
 schemas 335
 social reinforcers 127,
 159–161
 spotlight theory 302–303
 Thorndike's Law of Effect
 148–149
 working memory 295–303
 Yerkes–Dodson law 146

502 Subject Index

- autism studies
 attention 149
 reinforcement principles applied to 162–165
 automatic cognitive processes 215–217
 automatization 215–217, 298–299
 autonomic nervous system 103–104
 autonomic responses 104
 alcohol 107
 definition 107
 heroin overdose example 106–107
 homeostasis 104–105
 painkillers 105–106
 autoshaping 79–82, 89
 availability of memory 349
 aversion therapy
 for addiction 111–112
 definition 116
 taste-aversion learning 34, 61–63
 avoidance, cognitive theory of 128
 avoidance learning 127–128
 avoidance response 127–128
 awareness, and reinforcement 217–221
 see also the unconscious
 axons 409–411, 415
- backward conditioning 66–67, 78
- Baddeley–Hitch model of memory 283–286, 289
- bait shyness 61–63, 73
- behavior modification 158
 see also reinforcement
- behavioral approaches 24–25
 behavioral coaching 250–251
 behavioral trace 251–252
 behaviorism 24–25
 ambiguity 214–215
 and cognitive psychology 211–214, 254–255
 definition 255
 extending classical conditioning 54
 reinforcement 210
- behaviors
 animals, use in research 17–24
- associative context 39–43
 and the brain 409–414
 conditioning applications 103–107
 determinism vs. free will 5–6
 discovering laws 11–17
 lawfulness 4–11
 the problem of maintaining behavior 165–168
 rewards used to control 118–119
 self-control 174–176
 sense of freedom 7–10
 voluntary and involuntary 54
- blocking
 contiguity principle 75–77
 definition 78
 Rescorla–Wagner model of conditioning 90
 95–99
- blood sugar 104–105
- body functioning see nervous system; the brain
- bottom-up processing
 compared to top-down 271–273
 definition 276
 visual system 269–271
- brain
 associative learning 426
 and behavior 409–414
 catastrophic interference 431
 comparison to computers 417–418
 deep learning 427–429
 emotion 412–414
 fear conditioning 85
 history of psychology 409
 memory 426
 movement 412
 neural network models 416–425, 430–433
 personality 415
 slow learning 430–431
 thought 414
 two-system conditioning hypothesis 84–85
- bribery 168–169
- British Associationism 39–40, 65, 68–69
- Broadbent's filter theory 299–300
- Brown–Peterson model 259–263
- cat puzzle box, Thorndike's Law of Effect 120–121, 129–131, 207–209, 217
- catastrophic interference 431, 433
- cellular consolidation 293
- central executive 286–287, 291
- change blindness 296–297, 305
- chess playing example 428–429
- child abuse
 behaviors and the brain 415
 environmental influence 6–7
- children
 attention and punishment 182
 autism studies 149, 162–165
 automatization of reading 298
 classroom behaviors 159–161
 extinction 200–202
 incentive values 143–144
 phonological loop 285–286
 Premack principle 125
 punishment case studies 187, 192
 recovered abuse memories 398–400, 402–403
 response cost 203–205
 schizophrenia example 153–154
 self-control responses 176
 source confusion 401
 tantrums 140
 taste-aversion learning 62–63
 time-outs 202, 205
 undermining motivation 171, 173
 working memory 289–290
- Chomsky's grammar 246–247
- chunking 298–299, 305
- cigarette smokers
 cravings 111
 delay discounting 133
- classical conditioning 30
 adaptive value 74–75
 applications 110–116
 associative context 39–43
 basic phenomena 46–54
 definition 46
 forms of learning 25–26
 need for control groups 54–58

- Pavlov's dogs 38–46
 principles,
 see conditioning principles
 reinforcement vs.
 conditioning 122–123
 theories 78–100
 three useful responses 58–64
 classroom behaviours
 reinforcement principles
 applied to 159–161
 token economy 159–161
 cocktail party example 295–296
 coding of memory
 Atkinson–Shiffrin model
 261–262
 defining memory 33–34
 definition 35, 265
 mnemonics 380–381
 terminology 257–258
 coercion 171
 cognitive approaches 24–25
 cognitive economy 324
 cognitive interviews 395–396,
 398
 cognitive psychology 24–25
 ambiguity 214–215
 and behaviorism 211–214,
 254–255
 definition 255
 information-processing
 framework 257
 reinforcement 210
 cognitive system
 learning 215
 two-system conditioning
 hypothesis 83–85
 cognitive theory of avoidance
 128
 compensatory response
 104–107
 competence 171
 computers
 chess and Go playing
 example 428–429
 comparison to the brain
 417–418
 information-processing
 framework 256–257
 terminology 257–258
 concept cells 271
 concept learning 421–425
 concept theory 219–221
 concepts
 definition 337, 422
 in memory 319–322
 neural network models
 421–425
 semantic networks
 322–328
 conceptual processing,
 terminology 308–309
 conceptually driven processing
 see top-down processing
 concurrent schedules 222–224,
 232
 conditioned emotional response
 (CER) 59–61, 63, 97
 conditioned inhibition 49–51, 53
 conditioned reinforcers
 125–126, 128
 conditioned responses (CR)
 behaviors that can be
 conditioned 103–107
 definition 46
 emotional and motivational
 responses 107–110
 fear 59–60
 galvanic skin response (GSR)
 58–59
 Pavlov's dogs 45–46
 practical applications
 103–116
 taste-aversion learning
 61–63
 conditioned stimulus (CS)
 blocking 75–77
 contiguity principle 65–68
 contingency 76–78
 counterconditioning 54
 definition 46
 discrimination 51–52
 generalization 51
 intensity principle 69
 latent inhibition 98–99
 neural network models
 421–425
 Pavlov's dogs 45–46
 preparedness 72–75
 pseudoconditioning 55–56
 second-order conditioning
 52–53
 stimulus substitution 79–80
 subliminal presentations
 86–87
 two-system conditioning
 hypothesis 83–85
 unpaired and random control
 groups 56–58
 conditioning
 in animals 78–83
 basic phenomena 46–54
 forms of learning 25–26
 memory's role in 34–35
 operant 25–26, 30–31
 vs. reinforcement 122–123
 taste-aversion learning 34
 the unconscious 85

 conditioning
 conditioning principles 65
 challenges to contiguity
 principle 69–77
 contiguity 65–68
 frequency 68–69
 intensity 69
 connectionist approach see
 neural network models
 conscious memory 33–34,
 308–309
 consolidation theory, memory
 291–295
 contextual cues 356–357,
 361–362
 contiguity principle 65–68
 blocking 75–77
 challenges to 69–77
 contingency 69–72
 definition 78
 delay of reinforcement 129
 preparedness 72–75
 contingency
 contiguity principle 69–72
 definition 78
 continuous reinforcement (CRF)
 schedules 136, 140, 142
 contrast effects 143–144, 146
 control groups, unpaired and
 random 56–58
 control processes, memory
 261–262, 266
 controlled cognitive processes
 215–217
 corporal punishment
 alternatives to 205
 effectiveness 181, 184–187
 long-term effects 197–198
 principles of 181–184,
 187–192
 side effects 192–198
 counterconditioning 53–54
 cramming for exams 293–294,
 384

504 Subject Index

- cravings 111
 crime
 eyewitness testimony 389–398
 punishment 188–189
 rehabilitation 140–142
 cue overload 360–361, 366
 cumulative records 137–138

 encouraging generalization
 151–152
 encouraging maintenance
 166–168
 extinction as danger 165–166
 homework 134–135, 162,
 165, 173
 orthodontic device 166–168
 a preliminary application
 153–154
 token economy 161–162
- reinforcement schedules
 135–142
 continuous reinforcement
 136, 140
 definition 142
 interval schedules 136–137
 partial reinforcement effect
 139–140
 partial reinforcement
 schedules 136–137
 ratio schedules 136–137
- reinforcers
 contrast effects 143–144
 definition 122–123
 greed 169
 negative 127–128
 primary 123–125
 schizophrenia example
 153–154
 secondary 125–126
 sensory 124
 social 126–127, 159–162
 variety of 125
- release from proactive
 interference (PI) 347, 354
- renewal effect 48, 53
- repetition
 memory 246
 method of loci 379–384
- repression of memories 403
- Rescorla, Robert 69–70
- Rescorla–Wagner model of
 conditioning 89–100,
 420–421
- response cost 203–205
- responses *see* conditioned
 responses (CR); S–R theory;
 unconditioned responses
 (UR)
- retention of knowledge *see*
 knowledge retention
- retention of memories *see*
 recall; retrieval of memory
- retina 269
- retrieval cues 354–359
 and contextual cues
 356–357, 361–362
 cue overload 360–361
 definition 366
 inhibition 361–366
 internal states 357–359
 mnemonics 380–381
- retrieval of memory
 consolidation theory 291–295

510 Subject Index

- retrieval of memory (cont.)
 - decay of memories 279–282
 - defining memory 33–34
 - definition 35, 265
 - flashbulb memories 392–393
 - inhibition 361–366
 - meaning of memory 32
 - memory as reconstruction 366–375
 - organization of memory store 319
 - photographic memory 32–33
 - priming 318
 - processes 354–361
 - recovered memories 398–403
 - reviewing material 387–389
 - studying 384–389
 - terminology 257–258
 - why do we forget? 341–353
- retrieval-induced forgetting 362–364, 366
- retrieval practice 293, 387–389
- retroactive interference (RI) 344–345, 353
- retrograde amnesia 277–278, 282, 292–293
- revisiting the warehouse 374–375
- rewards
 - attractiveness of the reward 123
 - as automatic process 217–221
 - bribery 168–169
 - choosing a response 221–233
 - coercion 171
 - competence 171
 - delay discounting 132–135
 - greed 169
 - money vs. praise 166–168, 172
 - as motivations 142–146
 - negative reinforcers 127–128
 - primary reinforcers 123–125
 - secondary reinforcers 125–126
 - social reinforcers 126–127
 - stimulus control 147–150
 - token economy 161–162, 165–166
 - undermining motivation 169–170
 - use in controlling behaviors 118–119
 - variety of 125
- role modeling *see* modeling
- salivation response, Pavlov's dogs 40–46
- salmon migration example 46–47
- satisfaction, Thorndike's Law of Effect 121–122
- savings score 239, 241
- schedules of punishment 189
- schedules of reinforcement 135–142
- schemas 332–338, 380
- schizophrenia example 153–154
- schools
 - classroom behaviours 159–161
 - token economy 159–161
- scientific facts 3–4
- scientific progress 15–17, 209
- secondary reinforcers 125–126, 128
- second-order conditioning 52–53
- self-control
 - definition 179
 - discounting 133–134
 - reinforcement 173–179
 - responses 176–177
- self-injurious behavior 187, 189–190
- semantic memory 33
 - capacity of 318–319
 - concepts 319–322
 - definition 309, 314
 - distinction from episodic 311–314
 - meaning of 309–311
 - neural network models 430–431
 - propositions 330
 - terminology 308–309
- semantic networks 322–328
 - definition 338
 - propositions 328
- semantic priming 328, 338
- sensitization
 - learning 28–30
 - "Little Albert" experiment 54–55
- sensory memory 268–271
 - definition 276
 - storing the evidence 273–276
 - top-down processing 271–273
- sensory neurons 410
- sensory preconditioning 67–68, 78
- sensory reinforcers 124
- sentence verification 324–325
- sequential processing 257–258
- serial position curve 263–265
- sexual arousal
 - conditioning experiment 108–109
 - pleasure responses 412–413
- sexual attraction 9–10
- shadowing 274–296, 301–302, 305
- shaping 153–154
- Shiffrin and Schneider's model of short-term memory 288–289
- shocks
 - blocking 75–77
 - contiguity principle 76–78
 - contingency 69–72
 - overexpectation effect 96–98
 - preparedness 73–74
 - subliminal presentations 86–88
- shopping list memorization 379
- short-term memory
 - amnesia 277–278
 - Atkinson–Shiffrin model 260–261
 - decay of 279–282
 - definition 266
 - dissociation 278–279
 - existence of 276–277
 - rapid forgetting 259–263
 - STM as activated LTM 287–289
 - working memory as 276–282
- short-term store (STS)
 - Atkinson–Shiffrin model 261
 - storage process 273–276
 - working memory as 282
- similar memories interfere 344
- simultaneous conditioning 66–67, 78
- skeletal nervous system 103–104
- skeletal responses 104

- conditioning 107
 - definition 107
- sketchy nature of memory
 - 335–336
- Skinner box 129–131, 147–148
- sleep
 - importance to memory 294–295
 - insomnia example 152
- slots (schemas) 333–334
- slow learning 430–431
- smokers
 - cravings 111
 - delay discounting 133
- social reinforcers 126–127
 - classroom behaviours 159–161
 - compared to money 166–168, 172
 - token economy 161–162
- source confusion 369–375, 391–392
- the DRM procedure 372–373
 - false memories 401
 - lost at the mall 371–372
 - misinformation effect 370–371
 - rape incident 370
 - reality monitoring 373–374
- spaced practice 384–385
- spacing effect 243
- spanking 182, 197, 199, 205
- spontaneous recovery,
 - conditioned response 48–51, 53
- spotlight theory of attention 302–303
- spreading activation 326–328, 338
- S–R (stimulus response) theory 209–210
 - ambiguity 214–215
 - convergence with other theories 211–214
 - definition 217
 - information-processing framework 257
- startle response 28–30
- state-dependent memory 358, 366
- stem completion 316
- stereotypes 318
- stimuli
 - conditioned and unconditioned 45–46
 - controlling conditions 43–44
 - counterconditioning 54
 - discrimination 51–52
 - evaluative conditioning 109–110
 - evolution of conditioning 74–75
 - generalization 51
 - intensity principle 69
 - Pavlov's dogs 41–43
 - pseudoconditioning 55–56
 - second-order conditioning 52–53
 - see also* conditioned stimulus (CS); unconditioned stimulus (US)
- stimulus control
 - definition 152
 - punishment 189–190
 - reinforcement 147–150
 - self-control 177–178
- stimulus substitution 79–80, 88–89
- stimulus–response (S–R) theory
 - see* S–R theory
- storage of memory
 - Atkinson–Shiffrin model 261
 - defining memory 33–34
 - definition 35, 265
 - memory span 260–261
 - organization for retrieval 319
 - revisiting the warehouse 374–375
 - sensory memory 273–276
 - as single store 276–277
 - terminology 257–258
 - see also* long-term store (LTS); short-term store (STS)
- straight-alley maze example 121–122
- Stroop effect 299
- structural modeling 197–198
- studying
 - cramming for exams 293–294, 384
 - delay discounting 133–134
 - memorization techniques 384–389
 - motivating yourself 118
 - reinforcing homework 134–135
 - reviewing material 387–389
 - self-control 178–179
 - subliminal presentations 86–87
 - substitution of stimulus 79–80, 88–89
 - subvocal rehearsals 284–286
 - suggestibility in memory 394–395
 - suppression of memories
 - deliberate forgetting 364–366
 - inhibition in memory 361–366
 - PTSD 365–366
 - suppression ratio 59–61, 63
 - surprise
 - contiguity principle 76–78
 - Rescorla–Wagner model of conditioning 90–93
 - survival, as primary reinforcer 123–125
 - synaptic cleft 410–411, 416
 - synaptic consolidation 293
 - synaptic gap 410–411, 416
 - systematic desensitization 113–114, 116
 - systems consolidation 293
 - tantrums 140
 - taste-aversion learning 34
 - as conditioned response 61–63
 - definition 63
 - tastes, as memory retrieval cues 356–357
 - tennis example, interfering responses 132
 - terminals (neurons) 410–411
 - testimony
 - misinformation effect 375
 - reliability 389–397
 - source confusion 375
 - testing effect 388–389
 - theory evaluation 95–96, 100, 211, 232
 - think/no think paradigm 364–366
 - Thorndike's Law of Effect 119–123
 - puzzle box 120–121, 129–131, 207–209, 217
 - stimulus control 147–150
 - thought, and the brain 414, 428–429
 - thumb twitches example 218
 - time passing and memory *see* decay of memories

512 Subject Index

- time-out 202, 205
 tip of the tongue (TOT) 341, 349–351, 354
 token economy
 extinction as danger 165–166
 reinforcement principles applied to 161–162
 tolerance, painkillers 105–106
 Tolman, Edward C. 78–83, 211–214
 top-down processing
 definition 276
 memory 271–273
 trace conditioning 66–67, 78
 trauma
 child abuse 6–7, 415
 posttraumatic stress disorder 365–366
 think/no think paradigm 365–366
 trials 44, 46
 trigram counting example 259–263
 Tsarist example 330–332
 two-system conditioning
 hypothesis 83–85
 definition 89
 fear 85
 typicality effect 321–322, 326, 337
 unavailable memories 348–349
 unconditioned responses (UR)
 compensatory response 105
 counterconditioning 53
 definition 46
 Pavlov's dogs 45–46
 unconditioned stimulus (US)
 blocking 75–77
 contiguity principle 65–68
 contingency 76–78
 counterconditioning 54
 definition 46
 latent inhibition 98–99
 neural network models 421–425
 Pavlov's dogs 45–46
 pseudoconditioning 55–56
 stimulus substitution 79–80
 surprise 76–78, 90–93
 two-system conditioning hypothesis 83–85
 unpaired and random control groups 56–58
 the unconscious 12–13
 conditioning experiments 85
 introspectionists 211
 intuition 229–232
 irrational fears 86–88
 subliminal presentations 86–87
 unconscious memory,
 terminology 308–309
 see also implicit memory
 undermining motivation 169–170
 definition 173
 determinants of 170–172
 unlearning memories 348–353
 unpaired control groups 56–58
 utility
 expected 225
 irrational analysis 225–232
 variable interval (VI) schedules 136–138
 variable ratio (VR) schedules 137
 vicarious learning, origins of phobias 113
 violence
 anger in the brain 413–414
 environmental influence 7
 in films 196–197
 long-term effects 197–198
 and nutrition 7
 and punishment 182–183, 195–198
 response cost 203–205
 violent films 196–197
 virtual reality therapy 115–116
 visual receptors 269
 visual system
 invisible gorilla example 296–297
 neural network models 427–428
 physiology of 269–271
 picture superiority effect 286
 visuo-spatial sketchpad,
 working memory 286, 290
 voluntary behaviors 54
 Wagenaar's diary 351–353
The war of the ghosts tale 367–368
 Watson, John B. 24, 54–59, 112–113, 209–210
 weapon focus effect 391, 398
 weight loss
 self-control 174–176
 stimulus control 174–179
 willpower 174–175
 willpower 174–175
 word-length effect 284–286
 word-stem completion test 316
 working memory
 attention 295–303
 central executive 286–287
 in children 289–290
 consolidation 291–295
 definition 290
 evaluation 304
 mental workbench 283–284
 phonological loop 284–286
 sensory 268–275
 short-term 276–282
 as short-term store 282
 STM as activated LTM 287–289
 visuo-spatial sketchpad 286
 World Memory Championship 380
 Wundt, Wilhelm, introspection 11–12
 Yerkes–Dodson law 144–147
