## Contents

4 Hyperbolic Cross Approximation  
4.1 Introduction 129  
4.2 Some Special Polynomials with Harmonics in Hyperbolic Crosses 138  
4.3 The Bernstein–Nikol’skii Inequalities 151  
4.4 Approximation of Functions in the Classes \( W_{q,\alpha} \) and \( H'_{q} \) 162  
4.5 Some Further Remarks 186  
4.6 Historical Comments 189  
4.7 Open Problems 190  

5 The Widths of Classes of Functions with Mixed Smoothness 191  
5.1 Introduction 191  
5.2 The Orthowidths of the Classes \( W_{q,\alpha} \) and \( H'_{q} \) 193  
5.3 The Kolmogorov Widths of the Classes \( W_{q,\alpha} \) and \( H'_{q} \) 216  
5.4 Universality of Approximation by Trigonometric Polynomials from the Hyperbolic Crosses 231  
5.5 Historical Remarks 241  
5.6 Open Problems 242  

6 Numerical Integration and Approximate Recovery 244  
6.1 Introduction 244  
6.2 Cubature Formulas and Discrepancy 246  
6.3 Optimal Cubature Formulas and Nonlinear Approximation 253  
6.4 Lower Estimates 262  
6.5 The Fibonacci Cubature Formulas 272  
6.6 The Korobov Cubature Formulas 284  
6.7 The Frolov Cubature Formulas 289  
6.8 Universal Cubature Formulas 302  
6.9 Recovery of Functions 305  
6.10 Historical Notes, Comments, and Some Open Problems 315  
6.11 Open Problems 320  

7 Entropy 321  
7.1 Introduction. Definitions and Some Simple Properties 321  
7.2 Finite-Dimensional Spaces. Volume Estimates 323  
7.3 Some Simple General Inequalities 325  
7.4 An Inequality Between Entropy Numbers and Best \( m \)-Term Approximations 328  
7.5 Volume Estimates for Balls of Trigonometric Polynomials 333  
7.6 Entropy Numbers of the Balls of Trigonometric Polynomials 345  
7.7 Entropy Numbers for the \( W \)-Type Function Classes 363
Contents

7.8 Entropy Numbers for the H-Type Function Classes 373
7.9 Discussion and Open Problems 380
7.10 Some Historical Comments 383

8 Greedy Approximation 387
8.1 Introduction 387
8.2 The Trigonometric System 394
8.3 Wavelet Bases 398
8.4 Some Inequalities for the Tensor Product of Greedy Bases 404
8.5 Weight-Greedy Bases 412
8.6 The Weak Chebyshev Greedy Algorithm 415
8.7 Sparse Approximation With Respect to General Dictionaries 422
8.8 Open Problems 447

9 Sparse Approximation 449
9.1 Introduction 449
9.2 Constructive Sparse Trigonometric Approximation 454
9.3 Constructive Sparse Trigonometric Approximation for Small Smoothness 472
9.4 Open Problems 495
9.5 Concluding Remarks 496

Appendix Classical Inequalities 500
