Every effort has been made in preparing this book to provide accurate and up-to-date information
that is in accord with accepted standards and practice at the time of publication. Although case histories
are drawn from actual cases, every effort has been made to disguise the identities of the individuals
involved. Nevertheless, the authors, editors, and publishers can make no warranties that the information
contained herein is totally free from error, not least because clinical standards are constantly
changing through research and regulation. The authors, editors, and publishers therefore disclaim
all liability for direct or consequential damages resulting from the use of material contained in this
book. Readers are strongly advised to pay careful attention to information provided by the manufacturer
of any drugs or equipment that they plan to use.
