Every effort has been made in preparing this book to provide accurate and  
up-to-date information that is in accord with accepted standards and practice  
at the time of publication. Although case histories are drawn from actual  
cases, every effort has been made to disguise the identities of the individuals  
involved. Nevertheless, the authors, editors, and publishers can make no  
warranties that the information contained herein is totally free from error,  
not least because clinical standards are constantly changing through research  
and regulation. The authors, editors, and publishers therefore disclaim all  
liability for direct or consequential damages resulting from the use of  
material contained in this book. Readers are strongly advised to pay careful  
attention to information provided by the manufacturer of any drugs or  
equipment that they plan to use.
