Cambridge University Press & Assessment has no responsibility for the persistence
or accuracy of URLs for external or third-party internet websites referred to in this
publication and does not guarantee that any content on such websites is, or will
remain, accurate or appropriate.

Every effort has been made in preparing this book to provide accurate and up-to-date information that is in
accord with accepted standards and practice at the time of publication. Although case histories are drawn from
actual cases, every effort has been made to disguise the identities of the individuals involved. Nevertheless, the
authors, editors, and publishers can make no warranties that the information contained herein is totally free from
error, not least because clinical standards are constantly changing through research and regulation. The authors,
editors, and publishers therefore disclaim all liability for direct or consequential damages resulting from the use
of material contained in this book. Readers are strongly advised to pay careful attention to information provided
by the manufacturer of any drugs or equipment that they plan to use.
