

## A CONCISE HISTORY OF JAMAICA

Kenneth Morgan's history of Jamaica is a social, economic, political and cultural assessment of the island's most important periods and themes over the past millennium. This includes the island's development before 1500, with detailed material on the Taino society; the two centuries of slavery and its aftermath between 1660 and 1860; the continuance of colonialism between 1860 and 1945; the background to Jamaican independence between 1945 and 1960; and the evolution of Jamaica as an independent nation since the early 1960s. Throughout, Morgan discusses important themes such as race, slavery, empire, poverty and colonialism, and the unbalanced social structure that existed for much of Jamaica's history – the small, overwhelmingly white elite overseeing and controlling the lives of black and brown people beneath them on the social scale. Ending with an assessment of the contemporary period, this work offers an authoritative, up-to-date history of Jamaica.

Kenneth Morgan is Professor of History at Brunel University London. An economic and social historian of the Atlantic world between 1650 and 1850, he is a fellow of the Royal Historical Society.

## CAMBRIDGE CONCISE HISTORIES

*Cambridge Concise Histories* offer general introductions to a wide range of subjects. A series of authoritative overviews written by expert authors, these books make the histories of countries, events and topics accessible to both students and general readers.

*A full list of titles in the series can be found at:*

## ACKNOWLEDGEMENTS

This book would have been impossible to write without the many fine publications by historians, archaeologists and sociologists of Jamaica, some of whose work is listed in the bibliography. I have also benefited from visiting Jamaica on several occasions for research and conference trips and from teaching Caribbean history for several decades to successive cohorts of students at the now-defunct West London Institute of Higher Education and Brunel University London. I would like to thank the libraries and archives noted in the references to quotations cited in the book for their willingness to let me cite from manuscripts in their possession. Most of the reading was done by using the resources of the British Library, the British Museum, Cambridge University Library, University College London Library, the Institute of Archaeology Library, University of London, and the library of Brunel University London. I am grateful for the suggestions for improvements on a draft version of the text by two anonymous referees for Cambridge University Press and to my editor at the press and her assistant, Cecilia Cancellaro and Victoria Phillips, for their expert assistance. Thanks are also due to Getty Images for permission to reproduce the images. The maps were based on material first presented in David Watts, *The West Indies: Patterns of Development, Culture and Environmental Change since 1492* (Cambridge University
