

## Index

- absentee voting, minority voters' use of, 185–187
- Acharya, Avidit, 84–86
- African American voters, *see also*
  - Black–White turnout gap
  - age levels among, 62–63
  - in ANES survey data, 36
  - Black–White turnout gap and, 108–112
  - campaigns' demand for data on, 104–105
  - congressional district composition and turnout, 127–128, 131–132
  - convenience voting use by, 185–187
  - county-level turnout gap and population density of, 116–124
  - Democratic Party reliance on, 209–211
  - demographic changes in, 204–206
  - education levels of, 57–62
  - electoral influence of, 84–86
  - elite mobilization and, 79–80
  - empowerment theory and, 77–78
  - felon disenfranchisement impact on, 38, 108–112, 173–177
  - group size and turnout gap for, 121–123
  - historical exclusion of, 21–24
  - income levels for, 53–57
  - knowledge of district racial/ethnic composition among, 160–164
  - Latino competition with, 165–168
  - misreported turnout data for, 99–108
  - model-based turnout and district marginal effects, 143–146
  - multivariate regression analysis of turnout by, 143–146
  - national elections turnout for, 39–42
  - Obama campaign mobilization of, 165
  - photo identification laws and, 181–185
  - political participation by, 20–21
  - in Reconstruction era, 24–26
  - redistricting impact on, 154–155
  - regional variation in turnout and, 42–45
  - sociodemographic characteristics of, 63–68
  - state-level turnout variations and, 112–116
  - suppression in post-Reconstruction through World War II, 26–30
  - Trump election and, 195–196
  - turnout gap for, 3, 45–49, 73–75, 88–89
  - Voting Rights Act impact on, 10–14, 32–35, 126–128
- age
  - education levels and, 57–62
  - nonlinearity in turnout effect of, 63–68
  - racial/ethnic differences in voting and, 229
  - socioeconomic demographics and, 62–63, 70
  - turnout gap and, 15
  - voter population and, 37–42
