<i>Preface and Acknowledgements</i>	page xi
<i>List of Abbreviations of Aristotle's Works</i>	xiii
Introduction	I
1 Preliminary Puzzles	21
1.1 The Eleatic Challenge	21
1.2 Aristotle's First Response: <i>Physics</i> I 8	25
1.3 Aristotle's Second Response: <i>Generation and Corruption</i> I 3	28
1.4 Potential Being	32
1.5 Are the Two Solutions Compatible?	35
2 The Hylomorphic Model of Substantial Generation: <i>Physics</i> I	40
2.1 The Basic Model: <i>Physics</i> I 7	40
2.2 The Subject Condition	43
2.3 The Persistence Condition	45
2.4 Re-Evaluating the Standard Reading	47
2.5 <i>Physics</i> I 9	50
3 Substantial versus Non-Substantial Change: <i>GC</i> I 1–4	54
3.1 Generation versus Alteration	54
3.2 The <i>GC</i> Model of Substantial Generation	58
3.3 Are <i>Physics</i> I and <i>GC</i> I Compatible?	61
3.4 Generation versus Mixture	68
3.5 Two Puzzles about Persistence	70
3.5.1 A Puzzle about Biological Generation	71
3.5.2 A Puzzle about Elemental Transformation	74

4	The Extended Hylomorphic Model: <i>GC</i> II 9	77
4.1	The Principles of Natural Generation Revisited	77
4.1.1	Matter	78
4.1.2	Form	80
4.1.3	Moving Causes	82
4.2	Formalist Theories of Natural Generation	83
4.3	Materialist Theories of Natural Generation	85
4.4	Is Matter Entirely Passive and Inert?	95
4.5	Looking Forward	103
5	Biological Generation: Part One	105
5.1	The Project of the <i>GA</i>	105
5.2	Reproductive Hylomorphism	109
5.3	Division of Labour	112
5.4	Two Applications of the Hylomorphic Model	116
5.5	Embryogenesis	118
5.5.1	Male Form	118
5.5.2	Female Matter	122
5.6	The Subject of Animal Generation	125
6	Biological Generation: Part Two	130
6.1	Body and Soul	130
6.2	What Is the Point of Males?	134
6.3	The Unity of the Soul	138
7	The Efficient Cause of Animal Generation	143
7.1	A Puzzle about the Efficient Cause	143
7.2	The Definition of Nature in <i>Physics</i> II 1	144
7.3	Natures in the Biological Works	145
7.4	The Mechanisms of Heredity	156
7.5	Two Senses of Formal Nature	160
8	The Architectonic Model	162
8.1	The <i>Timaeus</i> Model of Generation	164
8.2	The Statesman's Rule in the <i>Politicus</i>	168
8.3	Reason's Rule in the Cosmos	172
8.4	Aristotle's Naturalisation of the <i>Timaeus</i> Model	175
8.5	The Role of Material Natures in Non-Teleological Contexts	182
8.5.1	The <i>Pathēmata</i> of <i>GA</i> V	183
8.5.2	The Omentum	186
	Appendix to Chapter 8	187

<i>Contents</i>		ix
9	The Cosmological Significance of Substantial Generation	196
9.1	Two Perspectives on Generation	196
9.2	Why Are There Sexes?	200
9.2.1	The Separation Argument	201
9.2.2	The Cosmological Argument	206
9.3	The Continuity of Generation: <i>GC</i> II 10	210
9.4	Necessity and Eternity	217
	<i>Bibliography</i>	222
	<i>Index Locorum</i>	232
	<i>Subject Index</i>	234
