## Contents

1  Introduction  
   1.1 A Brief Overview of the History of Auctions  
   1.2 Auction Theory in Computer Networks  
   1.3 Organization and Timeliness of This Book  
      1.3.1 Organization  
      1.3.2 Timeliness of the Book  
   1.4 Acknowledgments  
2  Overview of Modern Computer Networks  
   2.1 Internet of Things  
      2.1.1 Definitions  
      2.1.2 IoT Architecture  
      2.1.3 Resources and Services of IoT  
      2.1.4 Wireless Sensor Network  
      2.1.5 Mobile Crowdsensing Network  
   2.2 Cloud Networking  
      2.2.1 General Architecture  
      2.2.2 Cloud Data Center Networking  
      2.2.3 Mobile Cloud Networking  
      2.2.4 Edge Computing  
      2.2.5 Cloud-Based Video-on-Demand System  
   2.3 5G Wireless Networks  
      2.3.1 Massive Multiple-Input and Multiple-Output  
      2.3.2 Heterogeneous Networks  
      2.3.3 Millimeter Wave Communications  
      2.3.4 Cognitive Radio  
      2.3.5 Device-to-Device Communications  
      2.3.6 Machine-to-Machine Communications  
   2.4 Data Collection and Resource Management  
      2.4.1 Data Aggregation  
      2.4.2 Task Allocation  
      2.4.3 User Association  
      2.4.4 Interference Management  

Page 1
2.4.5 Wireless Caching 40
2.4.6 Mobile Data Offloading 42
2.5 Wireless Network Security 43
  2.5.1 Users and Attackers in Wireless Networks 44
  2.5.2 Eavesdropping Attack 44
  2.5.3 Denial-of-Service Attack 47
  2.5.4 Information Security Issues 49
  2.5.5 Illegitimate Behaviors in Wireless Networks 50
2.6 Summary 51

3 Mechanism Design and Auction Theory in Computer Networks 52
  3.1 Mechanism Design 52
    3.1.1 Mechanism 52
    3.1.2 Mechanism Design 53
    3.1.3 Revelation Principle 55
    3.1.4 Incentive Compatibility 57
    3.1.5 Individual Rationality 58
    3.1.6 Economic Efficiency and Budget Balance 59
  3.2 Optimal Mechanisms 60
    3.2.1 Social Surplus and Profit 60
    3.2.2 Social Surplus Maximization Problem 61
    3.2.3 Profit Maximization Problem 63
  3.3 Auction Theory in Computer Networks 64
    3.3.1 Auction Basics 65
    3.3.2 Auction Theory for Computer Networks 68
    3.3.3 Basic Terminology in Auction Theory 69
  3.4 Summary 71

4 Open-Cry Auction 72
  4.1 English Auction 72
    4.1.1 English Auction Process 72
    4.1.2 Equilibrium Strategies 74
  4.2 Development of English Auction for Computer Networks 78
    4.2.1 System Model and Problem Formulation 79
    4.2.2 Walrasian Equilibrium 81
    4.2.3 English Auction for Walrasian Equilibrium 82
  4.3 Dutch Auction 83
    4.3.1 Dutch Auction Process 83
    4.3.2 Revenue Equivalence Theorem 85
    4.3.3 Equilibrium in Dutch Auction 86
  4.4 Development of Dutch Auction for Computer Networks 87
    4.4.1 Prevention of Black Hole Attacks in Mobile Ad Hoc Networks 87
    4.4.2 Relay Selection in the Internet of Things 91
    4.4.3 Channel Allocation in 5G Heterogeneous Networks 93

7.5.3 Mobile Data Offloading in 5G HetNets 180
7.5.4 Resource Allocation in D2D Communication Underlying Cellular Networks 184
7.6 Summary 188

8 Double-Sided Auction 189
8.1 Introduction 189
8.2 Single-Round Double Auction 189
  8.2.1 Uniform Pricing Policy 192
  8.2.2 Discriminatory Pricing Policy 193
8.3 Continuous Double Auction 194
8.4 Development of Double Auction for Computer Networks 196
  8.4.1 Sensing Task Allocation in Participatory Sensing 197
  8.4.2 Location Privacy in Participatory Sensing 201
  8.4.3 Spectrum Allocation in Heterogeneous Networks 204
  8.4.4 Cloud Resource Allocation in Edge Computing 209
8.5 Summary 214

9 Other Auctions 215
9.1 Ascending Clock Auction 216
  9.1.1 Auction Process 216
  9.1.2 Application of Ascending Clock Auction for Physical Layer Security 217
9.2 Share Auction 221
9.3 Online Auction 224
  9.3.1 Basic Terminologies 224
  9.3.2 Development of Online Auction for Cloud Resource Pooling 226
9.4 Waiting-Line Auction 231
9.5 Summary 235

10 Optimal Auction Using Machine Learning 236
10.1 Optimal Auction 236
10.2 Machine Learning 238
10.3 Machine Learning for Optimal Auction 239
  10.3.1 Design 239
  10.3.2 Example 244
10.4 Machine Learning for Myerson Auction 249
  10.4.1 Design 250
  10.4.2 Example 254
10.5 Summary 259
