

HIGH CRIMES AND MISDEMEANORS

For the third time in forty-five years, America is talking about impeaching a president, but the impeachment provisions of the American constitution are widely misunderstood. In *High Crimes and Misdemeanors*, constitutional scholar Frank Bowman offers unprecedented clarity to the question of impeachment, tracing its roots to medieval England through its adoption in the Constitution and 250 years of American experience. By examining the human and political history of those who have faced impeachment, Bowman demonstrates that the framers intended impeachment to be a flexible tool, adaptable to the needs of any age. Written in a lively, engaging style, the book combines a deep historical and constitutional analysis of the impeachment clauses, a coherent theory of when impeachment should be used to protect constitutional order against presidential misconduct, and a comprehensive presentation of the case for and against impeachment of President Trump. It is an indispensable work for the present moment.

Frank O. Bowman III, the Floyd R. Gibson Missouri Endowed Professor of Law at the University of Missouri, is a nationally recognized authority on criminal law, a legal historian, and a former federal and state prosecutor. He has written extensively on impeachment in legal journals and the popular press, including the *New York Times*, *Politico*, and *Slate*, where he is a regular contributor. He has provided testimony to both Houses of Congress on multiple subjects including the meaning of "high crimes and misdemeanors" during the Clinton impeachment crisis.

Acknowledgments

No book of this scope could be written without the active help or patient forbearance of a supportive clutch of friends, family, and colleagues.

I am particularly grateful for much help from many people at the University of Missouri School of Law. First, thanks go to Dean Lyrissa Lidsky and the Law School itself for granting me research leave to finish the book. Throughout the project, I was constantly thankful for the professionalism, insight, and speed of the Law School's library staff. Special thanks go to crackerjack reference librarian Cynthia Shearrer, who found stuff I was looking for faster than I would have thought possible, and suggested sources of whose existence I had no clue, as well as to Randy Diamond, the head of our library, who put all his resources at my disposal.

Thanks to my brilliant law school colleague Paul Litton, and to my brothers, Herbert Bowman and Robert Bowman, lawyers, gentlemen, and scholars both, for reading and giving me invaluable feedback on some of the work. Joel Goldstein provided helpful clarification on the Twenty-fifth Amendment.

The book could not have been written or completed in anything like a timely fashion without the help of my terrific research assistants, Sam Crosby and Taylor Payne. Shawna Quast also did first-rate work on the footnotes.

My editor, Matt Gallaway, and all the rest of the folks at Cambridge University Press have been uniformly splendid in guiding me through the many stages of this project.

Finally, my wife Robin has tolerated long stretches of mental or physical absence with remarkable grace, and encouraged me when I thought the job would never be done. In this, as in all things, I am eternally in her debt.
