RELATING THROUGH TECHNOLOGY

This book answers one of the most critical questions of our time: Does the vast connectivity afforded by mobile and social media lead to more personal connection with one another? It offers an evidence-based account of the role of technology in close relationships that confronts such pressing questions as where face-to-face communication belongs in this digital age, whether social media is harmful to our well-being, and how online communication spills-over into our offline communication and relationships. Each chapter explores the positive and negative influences of media on relationships, coalescing into a balanced assessment of how technological advancement has altered our connections with each other. By zeroing in on communication with the most important people in our lives and tracing the changes in computer-mediated communication over time, *Relating through Technology* focuses the conversation about media on its use in our everyday lives and relationships.

Jeffrey A. Hall is Professor of Communication Studies at the University of Kansas, USA. He is the founding Editor of the journal, *Human Communication and Technology*, and won the 2015 Early Career Award from the Interpersonal Communication Division of the National Communication Association.

Advances in Personal Relationships

Christopher R. Agnew
Purdue University
 John P. Caughlin
University of Illinois at Urbana-Champaign
 C. Raymond Knee
University of Houston
 Terri L. Orbuch
Oakland University

Although scholars from a variety of disciplines have written and conversed about the importance of personal relationships for decades, the emergence of personal relationships as a field of study is relatively recent. *Advances in Personal Relationships* represents the culmination of years of multidisciplinary and interdisciplinary work on personal relationships. Sponsored by the International Association for Relationship Research, the series offers readers cutting-edge research and theory in the field. Contributing authors are internationally known scholars from a variety of disciplines, including social psychology, clinical psychology, communication, history, sociology, gerontology, and family studies. Volumes include integrative reviews, conceptual pieces, summaries of research programs, and major theoretical works. *Advances in Personal Relationships* presents first-rate scholarship that is both provocative and theoretically grounded. The theoretical and empirical work described by authors will stimulate readers and advance the field by offering new ideas and retooling old ones. The series will be of interest to upper-division undergraduate students, graduate students, researchers, and practitioners.

Other Books in the Series

Attribution, Communication Behavior, and Close Relationships
 Valerie Manusov and John H. Harvey, editors

Stability and Change in Relationships
 Anita L. Vangelisti, Harry T. Reis, and Mary Anne Fitzpatrick, editors

Understanding Marriage: Developments in the Study of Couple Interaction
