<i>Preface</i>	<i>page xi</i>
Part I Setting the Stage	1
1 Introduction	3
1.1 Multiverse Theories and Why to Consider Them	3
1.2 Types of Multiverse Theories	4
1.3 Overview of This Book	13
1.4 At a Glance: Some Theses Defended in This Book	18
2 The Fine-Tuning Considerations	20
2.1 Fine-Tuning for Life: The Evidence	21
2.2 Is Fine-Tuning for Life Improbable?	27
3 Fine-Tuning for Life and Design	37
3.1 The Inference from Fine-Tuning for Life to Design as a Version of the Teleological Argument	37
3.2 The Fine-Tuning Argument for Design Using Probabilities	38
3.3 The Anthropic Objection	40
3.4 Which Design Hypothesis Exactly?	44
3.5 An Alternative Fine-Tuning Argument for Design	48
Part II Fine-Tuning for Life and the Multiverse	51
4 The Standard Fine-Tuning Argument for the Multiverse	53
4.1 The Inverse Gambler's Fallacy Charge	53
4.2 Urn Analogies	55
4.3 Broadening the Debate	57
4.4 The Fine-Tuned Planet	59

viii	<i>Contents</i>	
	4.5 The Fine-Tuned Ancestors	62
	4.6 The Lucky Civilization	64
	4.7 A Glance at the Fermi Paradox	68
	4.8 Back to the Multiverse	69
5	Problems with Priors	72
	5.1 Bayesian Formulation	72
	5.2 Motivating an Ur-Prior for the Multiverse?	74
	5.3 The Double-Counting Charge Stated	75
	5.4 The Standard Fine-Tuning Argument for the Multiverse without Double-Counting	78
	5.5 Rebutting the Inverse Gambler’s Fallacy Charge – What It Would Take	80
6	A New Fine-Tuning Argument for the Multiverse	85
	6.1 The Argument from Fine-Tuning for the Multiverse as an Inference to an Anthropic Explanation?	85
	6.2 Anthropic Reasoning: Dicke/Carter-Style	87
	6.3 The New Fine-Tuning Argument Stated	89
	Part III Testing Multiverse Theories	95
7	Testing Multiverse Theories: Theoretical Approach	97
	7.1 The Challenge of Testing Multiverse Theories	97
	7.2 Toward a Formalization of Anthropic Reasoning	98
	7.3 The Background Information Constraint	109
	7.4 The Reference Class Problem (Formally) Resolved	111
8	Testing Multiverse Theories: Approaching Practice	114
	8.1 Implementing the Background Information Constraint	114
	8.2 Observer Proxies	116
	8.3 Cosmology’s Measure Problem	119
	8.4 Researcher Degrees of Freedom	125
	8.5 Why Testing Multiverse Theories Is So Damn Difficult	128
	8.6 A Way Out à la “Open Science”?	129
9	Puzzles of Self-Locating Belief	132
	9.1 Troubles for Self-Locating Indifference?	132
	9.2 Reacting to the Puzzles	136
	9.3 Lessons for the Sleeping Beauty Problem	145

	<i>Contents</i>	ix
	Part IV Wider Still and Wilder	153
10	Other Multiverses	155
	10.1 The Everettian Quantum Multiverse	155
	10.2 Modal Realism	168
	10.3 A Multiverse of Mathematical Structures?	173
11	Outlook	178
	11.1 Is the Multiverse Even Science?	178
	11.2 Whither Physics?	180
	<i>References</i>	185
	<i>Author Index</i>	197
	<i>Subject Index</i>	199
