

## CONTENTS

<i>Foreword</i>	xii
NICO SCHRIJVER	
<i>Preface</i>	xvii
<i>Acknowledgements</i>	xix
<i>List of Abbreviations</i>	xxi
<b>1 Introduction</b>	<b>1</b>
1.1 Background: Development of Deep Seabed Mining and the Legal Regime	1
1.2 Research Questions and the Scope	6
1.3 Terminology	7
1.3.1 Obligation	7
1.3.2 Liability	8
1.3.3 Participants in DSM	15
1.3.4 International DSM Legal Regime	16
1.4 Validity and Limits of the Book	17
1.5 Structure and Outline of the Book	17
<b>2 Common Heritage of Mankind and Protection of the Marine Environment</b>	<b>22</b>
2.1 Introduction	22
2.2 Elements of the Common Heritage of Mankind in the Context of DSM	23
2.2.1 The Area and Its Resources as Global Commons Subject to International Administration	24
2.2.2 Common Interest, Benefit-Sharing and Preferential Treatment of Developing States	26
2.2.3 Peaceful Use of the Area and Its Resources	30
2.2.4 Protection of the Marine Environment	31
2.2.5 Summary	34
2.3 Common Heritage of Mankind in Comparison with Related Concepts in Other Fields	34
2.3.1 Common Interest/Common Heritage of Mankind in Outer Space	35

2.3.2	Common Interest of Mankind in Antarctica	38
2.3.3	Common Interest of the International Community as a Whole in International Law	41
2.4	Protection of the Marine Environment in Deep Seabed Mining	44
2.4.1	The Conceptual Level: Marine Environmental Protection as Obligation <i>Erga Omnes</i>	45
2.4.2	The Operational Level: The Significant Role of Marine Sciences	49
2.5	Conclusions	56
<b>3</b>	<b>International Seabed Authority and Its Environmental Mandate</b>	<b>57</b>
3.1	Introduction	57
3.2	Nature of the International Seabed Authority	57
3.3	Organs and Subsidiary Bodies	59
3.3.1	The Assembly	59
3.3.2	The Council	61
3.3.3	The Legal and Technical Commission	65
3.3.4	The Secretariat	70
3.3.5	The Finance Committee	73
3.3.6	The Enterprise and the Economic Planning Commission	74
3.3.7	Summary and Comments	79
3.4	Powers and Obligations Relating to Marine Environmental Protection	80
3.4.1	Power to Adopt Rules, Regulations and Procedures	81
3.4.2	Issuing Recommendations, Standards and Guidelines	84
3.4.3	Safeguarding the Marine Environment while Administering Activities	86
3.4.4	Responding to Environmental Emergencies	91
3.4.5	Obligation to Apply the Precautionary Approach	93
3.4.6	Promoting and Encouraging Marine Scientific Research	97
3.5	Ongoing Development of the Exploitation Regulations	102
3.5.1	Features of the Drafting Work and Changed Approach to Environmental Regulation	102
3.5.2	Continuing Assessment of Marine Scientific Knowledge	105
3.6	Conclusions	108
<b>4</b>	<b>International Environmental Obligations of the Sponsoring State and Contractor</b>	<b>110</b>
4.1	Introduction	110
4.1.1	The Role and Status of the Sponsoring State in a Dual-Track Regulatory System	110
4.1.2	Structure	113
4.2	International Environmental Obligations of the Sponsoring State	114

## CONTENTS

ix

4.2.1	The Overarching Principle of Sustainable Development	115
4.2.2	Obligation of Prevention	118
4.2.3	Obligation to Apply the Precautionary Approach	123
4.2.4	Obligation Concerning Environmental Impact Assessment	132
4.2.5	Obligation to Cooperate	141
4.3	International Environmental Obligations of the Contractor	142
4.3.1	Obligations to Conduct EIAs and Submit EISs	143
4.3.2	Obligations to Prepare for and Respond to Environmental Emergencies	149
4.3.3	Environmental Management and Monitoring Obligations	151
4.3.4	Obligation to Apply the Highest Standards of Environmental Protection	154
4.3.5	Other Environmental Obligations	157
4.4	Conclusions	158
<b>5</b>	<b>Definition and Measure of Marine Environmental Damage</b>	<b>161</b>
5.1	Introduction	161
5.2	‘Marine Environmental Damage’: A Broad Definition with Threshold Requirement	162
5.3	Measure of Marine Environmental Damage in DSM: Drawing on Experience of the International Oil Pollution Compensation Funds	167
5.3.1	Definition of ‘Pollution Damage’	168
5.3.2	Criterion for Admissibility of Claims for Marine Environmental Damage	169
5.3.3	Costs of Preventive Measures	172
5.3.4	Costs of Reinstatement Measures	173
5.3.5	Costs of Post-spill Environmental Impact Studies	175
5.3.6	Lessons for the Measure of Marine Environmental Damage in DSM	176
5.4	Measure of Marine Environmental Damage in DSM: Drawing on Experience of the ‘F4’ Claims before the United Nations Compensation Commission	178
5.4.1	Claims and Payment for Direct Environmental Damage	179
5.4.2	Costs of Monitoring and Assessment Activities	180
5.4.3	Costs of Preventive Measures	183
5.4.4	Costs of Restoration Measures	184
5.4.5	Pure Environmental Damage	185
5.4.6	Lessons for the Measure of Marine Environmental Damage in DSM	187

5.5	Measure of Marine Environmental Damage in DSM: Drawing on the US and EU Laws and Discussions in the Context of the Convention on Biological Diversity	189
5.5.1	Natural Resources Damage Assessment in US Law	189
5.5.2	Remediation of Environmental Damage in EU Law	191
5.5.3	Liability and Redress in the Context of the Convention on Biological Diversity	193
5.5.4	Lessons for the Measure of Marine Environmental Damage in DSM	194
5.6	A Two-Step Pattern for the Measure of Marine Environmental Damage in DSM	195
5.6.1	Applying a Cost-Based Method as the First Step	196
5.6.2	Valuation of Pure Environmental Damage or Interim Loss as the Second Step	197
5.7	Conclusions	200
<b>6</b>	<b>International Environmental Liability of the Contractor</b>	<b>203</b>
6.1	Introduction	203
6.2	Channelling Liability to the Contractor	203
6.3	The Polluter-Pays Principle	207
6.4	Establishment of International Environmental Liability of the Contractor	214
6.4.1	Environmental Damage	214
6.4.2	Internationally Wrongful Acts of the Contractor	214
6.4.3	Causal Link between Environmental Damage and Wrongful Acts	221
6.5	Forms and Contents of Liability: Remediation of Marine Environmental Damage	224
6.6	Implementation of International Environmental Liability of the Contractor	226
6.7	Special Liability Issues: The Enterprise as Contractor and States as Contractors	230
6.7.1	The Enterprise as Contractor	231
6.7.2	States as Contractors	235
6.8	Conclusions	236
<b>7</b>	<b>Alternatives to International Environmental Liability of the Contractor</b>	<b>238</b>
7.1	Introduction: A Paradigm Shift from Civil Liability to Other Regimes	238
7.2	Compulsory Insurance or Financial Security Schemes	239
7.3	Compensation Fund for Environmental Damage	246
7.3.1	Conceptual Clarification: Relationship between Compensation Fund and Liability Regimes	247

## CONTENTS

xi

7.3.2	Environmental Compensation Fund in the Context of DSM	250
7.4	Administrative Approach to International Environmental Liability of the Contractor	256
7.4.1	Turning to an Administrative Approach to Environmental Liability	257
7.4.2	International Regulatory Environmental Liability of the Contractor	260
7.5	Conclusions and Potential Ways Forward	266
<b>8</b>	<b>International Environmental Liabilities of the Sponsoring State and the International Seabed Authority</b>	<b>271</b>
8.1	Introduction	271
8.2	International Environmental Liability of the Sponsoring State: Commentary Notes on the Seabed Disputes Chamber's 2011 Advisory Opinion	272
8.2.1	Establishment of International Environmental Liability of the Sponsoring State	272
8.2.2	Differentiation of State Liability <i>Ex Delicto</i> from State Responsibility	276
8.2.3	Connection between International Environmental Liabilities of the Sponsoring State and of the Contractor	281
8.2.4	Forms and Contents of Liability: The Full Reparation Principle for Environmental Damage	283
8.2.5	Invocation of Liability of the Sponsoring State: <i>Locus Standi</i>	287
8.2.6	Conclusions	294
8.3	International Environmental Liability of the International Seabed Authority	296
8.3.1	Establishment and Contents of International Environmental Liability of the ISA	296
8.3.2	Liability of Member States for Acts of International Organizations	297
8.3.3	Invocation of Liability of the ISA	307
8.3.4	Conclusions	308
<b>9</b>	<b>Conclusions</b>	<b>309</b>
9.1	The Roles of Participants in DSM	309
9.2	The Role of Marine Sciences and Response to Their Limitations	311
9.3	International Environmental Obligations	312
9.4	International Environmental Liabilities	317
9.5	Final Observations about the Future Development of the international DSM Legal Regime	322
	<i>Bibliography</i>	326
	<i>Index</i>	351
