

## INDEX

### Introductory Note

References such as '178–79' indicate (not necessarily continuous) discussion of a topic across a range of pages. Wherever possible in the case of topics with many references, these have either been divided into subtopics or only the most significant discussions of the topic are listed. Because the entire work is about the 'judiciary', the use of this (and certain other terms which occur constantly throughout the book) as an entry point has been minimised. Information will be found under the corresponding detailed topics.

- ability, 28–30, 32, 36–38, 44, 193, 196, 277, 287, 291
