	<i>List of Figures</i>	page xi
	<i>List of Tables</i>	xiv
	<i>Preface</i>	xv
	<i>Acknowledgements</i>	xviii
	<i>List of Abbreviations</i>	xxi
1	Voice and Voice Quality	1
1.1	Voice Quality Defined	1
1.2	The Laryngeal Articulator	4
1.3	Origins of Voice Quality Theory	9
1.4	Articulatory Parameters	13
	1.4.1 Phonation Types	13
	1.4.2 Elaborations of the Laryngeal Articulator	15
1.5	Supralaryngeal Categories	19
	1.5.1 Velopharyngeal Settings	19
	1.5.2 Lingual Settings	20
	1.5.3 Mandibular Settings	24
	1.5.4 Labial Settings	26
1.6	The Pharyngeal Argument	28
	1.6.1 How the Pharynx Relates to the Larynx	28
	1.6.2 Methods of Observing the Pharynx and Larynx	32
	1.6.3 Categorization of Pharyngeals and Their Relationship to the Larynx	34
2	Laryngeal Voice Quality Classification	37
2.1	States of the Larynx and Phonation Types	37
2.2	Canonical States and Movements	38
2.3	Laryngeal Categories	40
	2.3.1 Breathing/Inspiration	40
	2.3.2 Breath	41
	2.3.3 Modal Voice	44
	2.3.4 Prephonation	47
		vii

viii *Contents*

2.3.5	Glottal Stop	48
2.3.6	Epiglottal Stop	51
2.3.7	Whisper	53
2.3.8	Breathy Voice	56
2.3.9	Whispery Voice	58
2.3.10	Falsetto	60
2.3.11	Creaky Voice	63
2.3.12	Harsh Voice	67
2.3.13	Ventricular Voice	71
2.3.14	Aryepiglottic Trilling	73
2.3.15	Laryngeal Constriction at High Pitch	75
2.4	Tense Voice and Lax Voice	78
2.5	Unconstricted vs. Constricted Laryngeal States	79
3	Instrumental Case Studies and Computational Simulations of Voice Quality	83
3.1	Techniques to Examine Long-Term Voice Qualities	83
3.2	Techniques to Image the Larynx	85
3.2.1	Laryngoscopy: The Example of Aryepiglottic Trilling	88
3.2.2	Cineradiography	91
3.2.3	Laryngoscopy + Laryngeal Ultrasound	95
3.2.4	Magnetic Resonance Imaging	105
3.3	Computer Models of the Larynx and Laryngeal Constriction	110
3.3.1	A 3D Laryngeal Constrictor Model	110
3.3.2	A Two-Trapdoor Model of Aryepiglottic Trilling	110
3.3.3	A Model of Vocal-Ventricular Fold Contact	115
3.3.4	The ArtiSynth Model of the Larynx	119
4	Linguistic, Paralinguistic, and Extralinguistic Illustrations of Voice Quality	123
4.1	Laryngeal Categories	124
4.1.1	Glottal Phonation Types	124
4.1.2	Phonation Types with Laryngeal Constrictor Effects	126
4.1.3	Laryngeal Constrictor and Larynx Height Settings	132
4.2	Supralaryngeal (Oral) Categories	134
4.2.1	Velopharyngeal Port Settings	134
4.2.2	Tongue-Body Lingual Settings	135
4.2.3	Tongue-Front Lingual Settings	137
4.2.4	Jaw Settings	138
4.2.5	Labial Settings	140
4.3	Other Realizations of Laryngeal Constriction	143
4.3.1	Glottalization and Laryngealization	143
4.3.2	Laryngeal Constriction in Segmental Contrast	144

4.3.3	Laryngeal Constriction in Syllabic Contrast	148
4.3.4	Throat Singing	153
5	Phonological Implications of Voice Quality Theory	155
5.1	Voice Quality in Phonological Theory: Previous Approaches	156
5.2	Phonological Potentials, the Laryngeal Articulator, and Voice Quality	161
5.3	Synergistic Relations Network	164
5.4	Voice Quality and Register Contrasts: A Unified Approach	166
5.5	Voice Quality in Sound Change: The Case of Southern Wakashan Pharyngeal Genesis	178
5.6	Voice Quality in Phonology	182
6	Infant Acquisition of Speech and Voice Quality	185
6.1	The Infant Vocal Tract	186
6.2	Vocal Exploration in Infancy	187
6.3	Laryngeal Voice Quality in the First Year of Life	191
6.3.1	Laryngeal Quality	191
6.3.2	Utterance Types	194
6.3.3	Distribution of Laryngeal Constriction by Utterance Type	196
6.4	Laryngeal Components of Early Babbling	200
6.5	Early Laryngeal Sounds as Foundations of Speech Development	202
7	Clinical Illustrations of Voice Quality	205
7.1	Vocal Fold Vibration	207
7.1.1	Human Laryngeal Tissues	207
7.1.2	The Vibratory Pattern at the Glottis (Oscillatory-Impedance Theories)	208
7.1.3	Nonlinear Dynamic Theories	210
7.2	Benign Pathology of the Vocal Folds with Dysphonia	211
7.2.1	Functional: Muscle Tension Dysphonia, Hyper- or Hypofunction	211
7.2.2	Anterior Vocal Fold Lesions: Benign Lesions: Reinke's Edema, Vocal Nodules, Polyps, Cysts, Sulci	213
7.2.3	Posterior Vocal Fold Lesions: Contact Ulcers, Granulomata, Laryngopharyngeal Reflux	216
7.3	Malignant Laryngopharyngeal Lesions	217
7.3.1	Total Laryngectomy	217
7.3.2	Partial Laryngectomies and Laryngopharyngeal Surgery	219
7.3.3	Endoscopic Laser Surgery (Corpectomy)	227
7.4	Movement Disorders	229
7.4.1	Vocal Fold Paralysis	229
7.4.2	Parkinson's Disease	231
7.4.3	Tremor, Dystonia, Spasmodic Dysphonia, Myoclonus	232

x	<i>Contents</i>	
7.5	The Professional Voice: Adaptive Laryngeal Articulator Possibilities	234
7.5.1	Mongolian Long Song	234
7.5.2	Human Beatboxing	236
8	Laryngeal Articulation and Voice Quality in Sound Change, Language Ontogeny and Phylogeny	239
8.1	Saliency and Context	240
8.2	The Axis of [e/o]	241
8.3	Sound Change	244
8.4	Phylogeny	246
