 Childhood depression, 298
 Children's Apperception Test (CAT), 140, 294
 Civil competencies, 369–370
 Classical conditioning, 209
 Classical psychoanalysis, 188–189
 Client-centered therapy, 158, 193
 Client, in psychotherapy, 153–155
 problems and treatment utilization, 208–209
 variables and treatment outcomes, 155, 272
 Client satisfaction surveys, 268–269
 Clinical attitude, 2
 Clinical child psychology
 characteristics, unique
 confidentiality, 286–287
 contexts of behavior, 287
 developmental considerations, 287
 parent-child interaction patterns, 287–288
 referral processes, 286
 childhood disorders, classification of, 296–297
 clinically derived systems, 296–297
 empirically derived systems, 297
 externalizing factors in, 297

508 Subject Index

- Clinical child psychology (*continued*)
 internalizing factors in, 297
 childhood disorders, prevention of, 305
 childhood disorders, specific
 anxiety disorders, 299
 attention-deficit hyperactivity disorder (ADHD), 298
 autistic spectrum disorder, 299–300
 childhood depression, 298–299
 conduct disorder, 298
 major depressive disorder, 298–299
 oppositional defiant disorder, 298
 pediatric health problems, 300
 childhood disorders, treatment of,
 302–305
 pharmacological interventions, 302–303
 psychological treatments, for children
 and adolescents, 302
 therapeutic alliance, 304
 children, clinical assessment, 292–295
 behavioral observations, 295
 behavior rating scales, 292–293
 clinical interviews, 293–294
 family interaction measures, 295
 intelligence and achievement tests, 294
 projective tests, 294–295
 clinical case, 300–301
 future of
 care, access to, 307
 diversity and multiculturalism, 306–307
 research, interdisciplinary approaches
 to, 307
 technology and youth mental health, 308
 history of, 285–286
 protective factors, 291
 risk factors, 289
 interparental conflict, 289
 physical abuse, 289
 poverty, 290–291
 protective factors, 291
 sexual abuse, 289–290
 temperament, 288–289
 Clinical interventions
 ethical guidelines, 164–167
 goals of, 162
 assigning extratherapy tasks, 163
 developing faith, hope and expectation
 for change, 163–164
 fostering insight, 162–163
 providing new information, 163
 reducing emotional discomfort, 162
 practical aspects of, 167–171
 psychotherapy
 case formulation and treatment
 planning, 168–170
 definition of, 151
 ethical concerns in, 165–166
 kinds of approaches, 153
 participants in, 153–160
 public misperception of, 151–153
 record keeping in, 168
 settings for, 160–161
 termination of, 170
 therapist objectivity and self-disclosure, 170
 treatment duration and fees, 167–168
 trends in, 171
 research on
 effectiveness of alternative modes of
 intervention, 274–276
 methods for evaluating psychotherapy,
 264–268
 therapy, ethical issue concerns, 276–279
 Clinical interventions, alternative modes
 community psychology
 definition of, 246
 history of, 246
 principles and methods of, 247
 complimentary/alternative medicine
 (CAM), 251–252
 couples therapy, 240–243
 diagnosis in, 240
 findings on, 274
 social contexts of, 245
 family therapy, 39–40, 240, 244–245
 diagnosis in, 240
 findings on, 274
 social contexts of, 245
 group therapy, 236–239
 case example, 238–239
 cognitive-behavioral group therapy, 239
 findings on, 274
 practice of, 237–238
 self-help interventions, 275
 therapeutic factors in, 237
 mindfulness and acceptance, 253–254
 self-help interventions, 250–251
 spirituality, 252–253
 Clinical intuition, 64–65
 availability heuristic, 64
 Clinical judgment and decision making,
 63–67
 clinical intuition, 64–65
 clinical vs. statistical prediction, 65–66
 improving, 66–67
 Clinical neuropsychology, 337
 assessment, 349–350
 individualized approaches, 350
 test batteries, 349–350
 basic principles of
 lateralization of function, 342–344
 levels of interaction, 342
 localization of function, 341
 modularity, 341–342
 current status of, 354–355
 dysfunction, patterns of
 frontal lobe dysfunction, 347–348
 occipital lobe dysfunction, 344
 parietal lobe dysfunction, 344–346
 temporal lobe dysfunction, 346–347
 history of
 early influences, 338–339
 neuropsychological assessment
 techniques, development of, 339–340
 normal brains, research on, 340
 split-brain research, 340
 neuropsychological approaches to
 psychopathology
 depression, 351–352
 learning disorders, 352–353
 nonverbal learning disorders, 353–354
 schizophrenia, 352
 Clinical prediction, 65
 Clinical psychologists
 administration, 10–11
 assessment, 8–9
 clinical attitude, 2
 consultation, 10
 diversity among, 13–14
 educational requirements of, 3–4
