.....  
Every effort has been made in preparing this book to provide accurate and up-to-date information that  
is in accord with accepted standards and practice at the time of publication. Although case histories are  
drawn from actual cases, every effort has been made to disguise the identities of the individuals involved.  
Nevertheless, the authors, editors, and publishers can make no warranties that the information  
contained herein is totally free from error, not least because clinical standards are constantly changing  
through research and regulation. The authors, editors, and publishers therefore disclaim all liability for  
direct or consequential damages resulting from the use of material contained in this book. Readers are  
strongly advised to pay careful attention to information provided by the manufacturer of any drugs or  
equipment that they plan to use.
