 Adler, J., 137  
 affective disorders  
     delusional infestation and, 102  
     delusional misidentification  
         syndromes and, 2  
     affective psychosis, *folie à deux* and, 38  
 alcohol  
     depersonalization and, 139  
     Korsakoff psychosis,  
         194, 198  
     penoscrotodynia and, 108  
     withdrawal and onset of  
         musical  
             hallucinations, 87  
 alcohol-related psychiatric disorder, pathological jealousy and, 28  
 altered states of consciousness, 155, 156, 161–3, 170, 175  
 Alzheimer’s disease  
     Capgras syndrome and, 10  
     delusional misidentification  
         syndromes and, 2, 8, 10  
     folie à deux and, 38  
     pathological jealousy and, 28  
 amelia (congenital absence of limbs), 179  
 ‘amorous consumption’, Gideon Harvey’s description, 57  
*Amphytrion* (Plautus), 1  
 amputation of a healthy limb, desire for; *see also body integrity identity*  
 disorder (xenomelia), 177, 179, 183  
 Andersen, H. S., 205  
 Anderson, E. W., 201, 203  
 anorexia nervosa,  
     confabulation and, 198  
 anxiety  
     autoscopy and, 143, 149, 150  
     Côtard syndrome and, 185, 187, 189  
     delusional infestation and, 101  
     depersonalization and, 136, 139  
     Ganser state and, 205  
     musical hallucinosis and, 87  
     olfactory reference  
         syndrome and, 117  
     pathological jealousy and, 24  
     penoscrotodynia and, 109  
     spirit possession and, 164  
     vulvodynia and, 107  
 Anyasodor, M., 109  
 apotemnophilia (amputation love); *see also body integrity identity disorder (xenomelia)*, 177, 182  
 Arai, T., 38, 75  
 Arnone, D., 37  
 Ashworth, F., 210  
 autoscopy and related  
     syndromes, 141–52  
 age of onset, 149  
 associated conditions, 149  
 autoscopic  
     hallucination, 143  
 Blanke and colleagues’ experiments and findings, 146–8  
 case reports, 143, 146  
 clinical aspects, 149–51  
 explanatory hypotheses, 146–9  
 feeling of presence, 144  
 heautoscopy proper, 143  
 internal autoscopy, 145  
 literary and mythological references, 141, 144–5  
 Melzack’s neuromatrix hypothesis, 146, 150, 152, 179  
 negative heautoscopy, 144–5, 150  
 out-of-body experience, 144  
 phenomenology, 141–2  
 polyopic heautoscopy  
     example, 150  
 psychiatric disorders  
     associated with, 150  
 relationship between focal neurological lesions and, 150
