INDEX

addictions, 144–151
addictive personality, 144
adrenaline, 30, 78–80, 83–84, 88
see also epinephrine
adventure-seeking see thrill- and adventure-seeking
agape, 103
age, 25, 39
agency, 90–92
aggression, 151–154
agreeableness, 11
air traffic controllers, 118
altitude sickness, 137–139
amygdala, 159
analysis, 165–166
anxiety, 91, 165–166
Arnett Inventory of Sensation-Seeking (AISS), 196–202
Arnett, Jeff, 14
arousal, and vicarious experiences, 52–54
arousal potential, 68
art, 54
astronauts, 125–129
authentic experiences, 58–59
avoidance, and substance use, 148–149
awe, 177, 178
Balloon Analogue Risk Task (BART), 124–125
Barlow, Matthew, 90
BASE jumping, 27–31, 83–86
Beatle, Katherine, 80–82
behavioral addictions, 149–151
Behavioral Approach System (BAS), 38, 42
Behavioral Inhibition System (BIS), 38, 42, 43
belonging, 99
Big Five personality traits, 10–11
biological influences
biochemicals, 30–31, 37–42, 116, 147
evolutionary benefits, 35–41
fight or flight, 30–31, 35
genes, 33–35, 46–47, 111
in HSS, 43–44
rat experiments, 41
black water diving, 114–116
blame, 124–125
blowfish (fugu), 2, 65
boredom
and driving, 141
and multitasking, 55
boredom susceptibility, 20, 22
and aggression, 152, 153
biological influences, 44
and careers, 118–119
and humor, 51
problems caused by, 152, 153, 155–156
reducing, 174–175
and relationships, 103–104
Bourdain, Anthony, 59
bridges, BASE jumping from, 27–31
Brief Sensation-Seeking Scale (BSSS), 15–16, 20–25
BUCKET theory, 97
bull runs, 2, 5
bullfighting, 40
business careers, 132–133
Byrnes, Nadia, 63
bystander effect, 166
capsaicin, 63–64
careers and HSS, 117–121, 133–134
air traffic controllers, 118
business careers, 132–133
diving example, 114–116
health practitioners, 121–125, 130–131, 168
military personnel, 130–132, 166–168
pilots, 118–119
police and firefighters, 119–121, 166–168
space travel, 125–129
Carrasco, Jose, 40
Caseras, Xavier, 62
catecholamines, 30, 38
CEOs, 132
cross addiction, 144
drama, 72–74, 82–88
Csikszentmihalyi, Mihaly, 29, 179
culture, 58–59, 64–65, 100–102
curiosity, 146–147
Daedalus, 135
danger, 57, 65, 127, 159–163
Darwin, Charles, 35, 36
death wish, 6–8
delayed gratification, 154–156
Delgado, Mauricio, 89
Dellu, Françoise, 41
deoxyribonucleic acid (DNA), 33, 46–47
disability, 170–173
disagreement, 96–97
disclosure, 95–96, 98, 100
disgust reactions, 62–63
disinhibition, 19–20, 22
and aggression, 152, 153
biological influences, 44
and careers, 118–119
and humor, 52
problems caused by, 152, 153, 155–156
reducing, 174–175
disruptive behaviors, 154
see also aggression
diving, 114–116
DNA (deoxyribonucleic acid), 33, 46–47
dopamine, 30, 38, 42, 43, 116, 147, 148
driving, 55, 139–143
drug addiction, 144–149
Duckworth, Angela, 80–81
Dvorak, David, 62
eating see food
Einstein, Albert, 7
emergency medical practitioners, 121–125, 130–131
emergency services, 119–121, 166–168
emotional intelligence, 105–107
emotional regulation, 90–92
emotional stability, 9–10
empathy, 174
environmental influences, 44–47, 137, 146–147, 151–152
epigenetics, 46–47
epinephrine, 30, 42
see also adrenaline
Eros, 7
erotic love, 103
everyday heroism, 169–170
evolutionary benefits of sensation-seeking, 35–41
excitation, 9
experience see environmental influences
experience-seeking, 18–19, 21–22
biological influences, 43
and careers, 118–119
and humor, 51
extreme sports
ice climbing, 76–78, 171
Paradox Sports, 170–173
extreme sports (cont.)
relationship with HSS, 69–70
roofers, 3–4
Science North exhibit, 74–76
wheelchair motocross, 81–82
wingsuiting, 82–88
extroversion, 8, 9, 11, 158
Eysenck, Hans, 9–10
families
influence of, 44–45, 47, 109, 146–147
see also genetic influences; parenthood
fear, 1–2
fearlessness, 159–163
Feji, Jan, 45
fight or flight response, 30–31, 35
firefighters, 119–121
fishing industry, 127–128
Fiske, S., 97
flow state, 29, 35, 178
flying see BASE jumping; Icarus; pilots;
skydiving
Flying Dagger stunt, 86–88
focus, 77–78, 115–116
food, 2, 59–66, 111–112
Franken, Robert, 57, 95
freezing, 30, 120
Freud, Sigmund, 6–8, 50
friendship, 97–102
frustration-aggression hypothesis, 151
fugu (blowfish), 2, 65
functionalism, 36–37

Goldilocks zone, 31–33
grit, 80–82
Grit Scale, 203–207

habituation, 52–53
hang gliding, 5
hardiness, 171–174
Hayes, John, 63
healers, 168–170
see also medical careers
health
impact of HSS on, 173–174, 177
see also injuries and illness
helpers, 168–170
heritability estimates, 34
heroism, 169–170
Hershenson, David, 117
high sensation-seekers
characteristics of, 25–26
examples of, 1–4, 22–25
as helpers and healers, 168–170
lessons from, 178–179
as protectors, 166–168
see also careers and HSS; leisure
activities; relationships
high sensation-seeking (HSS)
components of, 17–20, 21–22, 43–44
getting the best from, 174–175
history of, 5–6
as power or problem, 157–166
see also biological influences;
environmental influences;
problems of HSS; theories of HSS
homeless people, 131
Hoyle, Rick, 15, 105
Human Genome Project, 46
humor, 49–52
hypervigilance, 162, 167, 168

I.B. Perrine Bridge, 27–31
Icarus, 135
ice climbing, 76–78, 171
id, 6–7, 50
images, 53–54
immediate gratification, 154–156
impulsivity, 10, 152, 163
see also disinhibition
incongruity, 50–52
inhibition, 9
injuries and illness, 71, 84–86, 137–139, 173–174
innovation, 132
intense interactions, 99–100
intense love, 107–110
interaction see social interaction
intercultural friendships, 100–102
interleukin-6 (IL-6), 177
International Space Station (ISS), 126–127
internet gaming, 150–151
interpersonal intelligence, 106–107
intrapersonal intelligence, 105–106
introversion, 8, 9

Jackson, Chris, 124
James, William, 36
jobs see careers
Joireman, Jeff, 153
jokes, 49–52
Jung, Carl, 8
justification of risk-taking, 124–125

leadership, 132
Lee, John Allen, 102
Lee, Joobum, 55
leisure activities, 1–4, 69–70
ice climbing, 76–78, 171
mud runs, 67–69
roller blading, 70–71
wheelchair motocross, 81–82
wingsuiting, 82–88
Lepp, Andrew, 58
Likert scales, 14
love
styles of, 102–103
see also romantic relationships
ludic love, 103

McCrae, Robert, 10
MacIntyre, Olathe, 126–129
manic love, 103
MAO (monoamine oxidase), 39–40, 42
marshmallow test, 154–155
Mayer, John, 105
medical careers, 121–125, 130–131
meditation, 91, 175
mental health, 173–174
mental health work, 131, 168
methamphetamine, 147
methylation, 46–47
Michelle, Walter, 154–155
military personnel, 130–132, 166–168
Minnesota Study of Twins Raised Apart (MISTRA), 35
monoamine oxidase (MAO), 39–40, 42
mountain climbing, 69, 137–139
mountain sickness, 137–139
mud runs, 67–69
multitasking, 54–55
museum of the mind, 58
music, 53
Musolino, Robert, 117
Mustika, Martina Dwi, 124

Neeb, Michael, 139
need see craving/need
neural motivation system, 38
neuroticism, 9–10, 11
neurotransmitters, 39–40
Niagara Falls, 76–78
norepinephrine, 30, 38, 42, 43
novelty, 172, 174, 178–179

obstacle course races (OCR), 67–69
O’Neill, Timothy, 72, 73–74, 170
openness to experience, 10
optimal experience, 29
optimal level theory, 31–33
Paradox Sports, 170–173
parental influences, 44–45, 47, 109, 146–147
parenthood, 109, 111–112
Pegoraro, Ann, 88–90
perseverance, 80–82
personality theories
Freud's work, 6–8
Jung's work, 8
trait theories, 9–20
pilots, 93–94, 118–119
Pizam, Abraham, 57
pleasure, and substance use, 147
poison, 2, 65
police officers, 119, 166–168
post-traumatic stress disorder (PTSD), 163–164
pragmatic love, 103
problems of HSS
aggression, 151–154
drug addictions, 144–149
gambling, 149–150
identifying, 156
internet gaming, 150–151
risk-taking, 137–139
risk driving, 139–143
protectors, 166–168
psychoticism, 10
PTSD (post-traumatic stress disorder), 163–164
pufferfish (fugu), 2, 65
rat research, 41
reaction, speed of, 164–166
reactivity, 38
recklessness, 164
recreation see leisure activities
relationships, 94
aims of friendship, 97–102
emotional intelligence, 105–107
interaction differences, 94–97
intercultural friendships, 100–102
romantic, 102–111
religious influences, 45–46
resilience, 171–174
resolution of incongruity, 50–52
risk, perceptions of, 70–71, 141
risk compensation, 72
risk homeostasis theory, 141
risk-taking
at work, 124–125
and driving, 139–143
evolutionary benefits of, 36–37
and friendship, 102
mountain climbing example, 137–139
and sexual relationships, 105
rock climbing, 73–74, 107–109
see also ice climbing; mountain climbing
roller blading, 70–71, 80
romantic relationships
and boredom, 103–104
emotional intelligence, 105–107
and intense experiences, 107–110
sex lives, 104–105
styles of love, 102–103
supportive partners, 110–111
roofers, 3–4
safety equipment, 72
Salovey, Peter, 105
Science North, 74–76, 127
search and rescue, 130
self-control, 90–92, 152
see also delayed gratification
self-disclosure, 95–96, 98, 100
sensation-seeking see high sensation-seeking
sensitivity, 32, 39
sensory deprivation, 12–13, 95
serotonin, 38, 42
sex differences, 25–26
sexual relationships, 104–105
skydiving, 1, 17–18, 27
SM (fearless woman), 161–163
snowboarding, 170–171
social influences, 44–47, 146–147, 151–152
social interaction, 94–97, 162
see also relationships
social media, 88–90
social reinforcement, 89
social selection, 152
space travel, 125–129
233 / Index

special forces (military), 130–132
spicy food, 63–64
spontaneity see disinhibition;
impulsivity
sports see extreme sports
storgic love, 103
stress, biological reactions to, 30–31, 116
substance use/abuse, 144–149
Sunder, Jayanthi, 132
Sunder, Shyam, 132
supportive partners, 110–111
