.....  
Every effort has been made in preparing this book to provide accurate and  
up-to-date information that is in accord with accepted standards and  
practice at the time of publication. Nevertheless, the authors, editors, and  
publishers can make no warranties that the information contained herein  
is totally free from error, not least because clinical standards are  
constantly changing through research and regulation. The authors,  
editors, and publishers therefore disclaim all liability for direct or  
consequential damages resulting from the use of material contained in  
this book. Readers are strongly advised to pay careful attention to  
information provided by the manufacturer of any drugs or equipment  
that they plan to use.
