Every effort has been made in preparing this book to provide accurate and  
up-to-date information which is in accord with accepted standards and  
practice at the time of publication. Although case histories are drawn from  
actual cases, every effort has been made to disguise the identities of the  
individuals involved. Nevertheless, the authors, editors and publishers can  
make no warranties that the information contained herein is totally free from  
error, not least because clinical standards are constantly changing through  
research and regulation. The authors, editors and publishers therefore dis-  
claim all liability for direct or consequential damages resulting from the use  
of material contained in this book. Readers are strongly advised to pay  
careful attention to information provided by the manufacturer of any drugs  
or equipment that they plan to use.
