Subject Index

- abductive analysis, 136–137
- absorbed coping
 - practice worlds and, 40
 - radial structure and reweaving and, 41–42
- abstract activity pattern, 86–87
 - in narrative network, 184–186
- abstract detachment, breakdown and, 40–41
- accomplishments. *See also* effortful accomplishments; emergent accomplishments; skillful accomplishments
 - in occupations and professions, 6–7, 382–388
- accountability
 - institutions and, 55–56
 - text as circuits for, 55–56
- accountability, ethnomethodology research and, 52–53
- actants
 - in actor-network theory, 78
 - innovation of routines and, 294
- actions. *See also* patterned actions
 - actor-network theory and, 76–80
 - algorithms and, 320
 - artifacts and, 91
 - cognition and, 261–262
 - in complexity analysis, 333
 - complexity in, 332–333
 - contextures of, 54
 - ethnographic research on, 103–104
 - in experiential learning, 446–447
 - experiential learning and memory of, 451, 454
 - fieldwork research on, 148
 - instructed action, 55
 - interdependency in occupations and professions, 388–390
 - organizational, 55–56
 - pragmatist concept of, 63–64
 - reflexivity of, 54
 - sequence analysis of, 5, 54–55, 134
- active participation in ethnography, 111–112
- actor-network theory (ANT)
 - actants and, 78
 - artifacts and materiality and, 10–11
 - benefits, 3–4, 73–81
 - embedded routines and, 231
 - fluid spaces, 81
 - foundational research, 76–77
 - future research issues, 80–81
 - history and overview of, 73–76
 - innovation of routines and, 294
 - inscriptions and, 78–79
 - multiplicity and, 79
 - practice theory vs., 21
 - project-based organizational routines and, 415
 - Strategy-as-Practice and, 484
 - translation and, 77–78
- actors
 - accountability circuits for, 55–56
 - in agent-based modeling, 159–160
 - algorithms and, 322–323
 - artifacts and role of, 91
 - cognition in routines and, 257–261
 - complexity applications and, 333–335
 - context in routine transfer and, 283
 - emotions in routines and, 359
 - in experiential learning, 446–447, 454
 - field research and knowledge of, 50, 156–157
 - indexicality and, 53–54
 - innovation and role of, 290, 292–294, 296–297
 - in occupational and professional routines, 392–393
 - politics and conflict research and, 456
 - practice worlds and, 39–41
 - in project-based organizational routines, 413
 - re-creation of routines and, 280–284
 - sociomaterial assemblages and, 93
 - tacit knowledgeability of, 38–39
 - textual technologies use and, 58
 - in unexpected events routines, 433–434
- ad hoc learning
 - design change and, 302
 - project-based organizational routines and, 407, 413
- affective events, emotions in routines and, 358–359
- affordances, algorithms and, 321–322
- agency
 - actor-network theory and, 76–77
 - artifacts and, 90–92
 - cognition and, 257, 260–262
 - dynamic capabilities and, 472
 - experience and, 38
 - innovation of routines and, 294–296
 - internal dynamics of routines and, 37–38
 - in management routines, 399–400
 - path dependency and, 507
 - performative approach to routines and, 37
 - practice worlds and, 39–41
 - pragmatist concept of, 63, 66

- professional identity and, 370–371
- project-based organizational routines and, 413
- self-monitoring and, 25–26
- teleo-affective structure of, 42–43
- agent-based modeling (ABM)
 - comparison of models, 163–167
 - development of, 161–162
 - future research issues, 167–168
 - literature review on, 162–163
 - in organization research, 159–160
 - overview, 159
 - practice theory and, 22
 - Strategy-as-Practice and, 494
 - on Strategy-as-Practice research, 489
 - use guidelines for, 160–161
- Agile software, self-managed organization and, 424, 427–428
- agility, in self-managed organization, 424–425
- algorithms
 - artifacts and, 317–318
 - assemblage, 318–319
 - defined, 316
 - design, 318
 - future research directions, 321–324
 - innovation and, 323–324
 - methodology, 319–321
 - overview of, 315–316
 - performativity of, 319
 - power of, 322–323
 - process mining, 516, 518–519
 - replication and, 321–322
 - technology, 94–95
 - innovation of routines and, 295–296
- ambiguous stimuli, in unexpected events routines, 436–437
- archiving of video data, 134–136
- Arrow Core
 - cognitive perspective on design and, 302–303
 - replication and, 278–279
- articulation
 - materiality in routines and, 50
 - rules *vs.* actual practice in, 89
- artifacts
 - algorithms as, 317–319
 - as center of routines, 90–92
 - change-based reorganization of routine and, 90
 - cognition in routines and, 257–258
 - in collaborative work, 390
 - context in routine transfer and, 283
 - defined, 85n.1
 - in design, 307
 - in early research, 87–90
 - embeddedness of, 88, 231, 349–350
 - ethnomethodology research and, 57–59
 - in field research, 157
 - fluid ontology and, 93–94
 - foundational research on, 25–26
 - future research issues in, 94–95
 - innovation of routines and, 292–294
 - literature survey, 95
 - materiality of routines and, 50, 85–86
 - multiplicity of, 12, 93–94
 - in occupational and professional routines, 382–388
 - performativity theory and, 92
 - practices/routines relationship to, 88–90
 - project-based organizational routines and, 415
 - routines and, 10–11
 - in Strategy-as-Practice research, 484–487
 - structuration theory and, 87–88
 - supplementary artifacts in knowledge production, 90
 - text as, 55–56
 - translation of routines and, 89–90
 - in truce dynamics, 224–225
 - video analysis of, 134
- artificial intelligence
 - growing importance of, 94–95
 - routines research and, 86–87
 - video research and, 144
- as-is model, business process management, 515–518
- assemblage, performativity theory and, 92
- associations, sociology of, actor-network theory and, 74–76
- at-home ethnography, 111–112
- attitude, pragmatist concept of, 63
- audit field experiments, 153–154
- authority
 - self-managed organization and decentralization of, 421
 - truce dynamics and, 217–223
 - truce dynamics in occupational and professional groups, 390–392
- autoethnography, 111–112
- autonomous reflexives, cognition in routines and, 260–261
- autonomous work groups, in self-managed organization, 424–425
- awareness, practice theory and, 22
- background of expectancies, ethnomethodology research and, 52–53
- Bayesian-Stackelberg game theory
 - algorithm assemblage, 318–319
 - design and, 307
- becoming lens in occupations and professions, 380–382
- behavioral theory
 - business process mining and, 520
 - emotions and, 358–359
 - ostensive-performative duality and, 87–88
 - path dependency in, 504–505
 - professional identity in, 371, 375–376
 - routines research and, 13–14, 86–87
 - unexpected events routines and, 436–437
- big data
 - growing importance of, 94–95
 - video methods and, 133
- Bill of Materials (BoM) freeze, innovation routines and, 292–294

532 Subject Index
