armed conflict, 160–70, 180–81 asymmetric hypotheses, 176, 182

Beckfield, Jason, 12, 82, 85-97 Belsley, David A., 1-3, 84, 203, 205-10, 212 blockmodels, 211-18 degree-corrected stochastic blockmodel, 212, 213 Bourdieu, Pierre, 13, 46, 202-205, 211 Breiger, Ronald L., 8, 37, 97-105 case selection, 127-72, 222 deviant, 131, 136, 142, 151-55, 162-68, 222 extreme, 131-33, 139, 142, 155-56 influential, 131-32, 136-39, 142, 151-57, 162, 168 222 most-different, 131, 133-34, 141, 159 most-similar, 131, 133, 140, 142, 157-58, 162, 163, 168-71 typical, 130-31, 136, 142, 144-51, 162 causality, 3, 6, 130, 132, 151, 221 asymmetric, 173, 177, 178, 180-82, 194-200 complex, 3, 174, 176, 183, 221 multiple, 3, 7, 131, 134, 166, 176 ceilings and floors. See asymmetric hypotheses civil war. See armed conflict clustering, 47, 107-11 algorithmic, 12, 43-46, 107-11, 118 k-means, 43–47, 107–11 a priori, 36, 114-18 co-constitution. See duality complexity. See causality, complex configurational comparative analysis, 8, 13, 172-201 Cook's distance, 10, 84, 93, 95, 101, 132, 136, 137, 155, 168, 223 correspondence analysis, 8, 46, 54, 205, 210, 222 deviant cases. See case selection, deviant DFBETA, 10, 75, 131, 132, 136, 139, 155, 156, 223 diagnostics, regression, 2, 9-10, 46, 75, 76, 95, 113, 203, 223 dog ownership, 105-11

duality cases and variables, 177, 184, 210 institutions and properties, 203, 204, 210 transition formulas, 177, 210 Duncan, Otis Dudley, 1 equifinality, 160, 173, 177-80 ethnic conflict. See armed conflict Euclidean distance, 44, 139 exploratory data analysis, 83, 105, 114, 122 extramarital affairs, 52-59 Fearon, James D., 180-81 Fiss, Peer C., 193-200 fixed effects, 59-61, 82, 85-96. See also regression models General Social Survey (GSS), 12, 83, 105-11, 120 geometric data analysis (GDA), 13, 202, 205, 211, 222 Hat matrix, 13, 46-48, 132, 136, 139, 155, 203, 205-18. See also leverage network analysis of, 211-18 health, social determinants of, 96-104 inequality effects on population health, 96-104 electoral participation, 184-93 intersectional, 183, 193-200 regional integration, effects of, 85-96 inference, 4, 81, 82, 174, 218 statistical, 2, 4, 62-64, 77, 100 influential observations, 10, 46, 84, 92, 96, 101, 102. See also case selection, influential insurgency. See armed conflict intersectionality, 85, 183. See also inequality, intersectional INUS conditions, 176

Jackknife. See variance decomposition, leave-one-out
