xii CONTENTS

Patents on Inferring Ancestry from DNA	27
Ancestry Markers	29
Validation of Ancestry Inference	33
Reference Panels	34
Allele Frequencies in Populations	35
Stages for Inferring Ancestry	36
5 Ancestry Informative Markers	41
Forensic Applications of Genetic Markers	42
From Forensic to Ancestry Markers	43
Mitochondrial DNA Markers	44
Y Chromosome Ancestral Markers	45
Autosomal SNP Ancestry Markers	46
6 Ancestry DNA Population Reference Panels	50
Proprietary Reference Panels	51
Validation of Reference Panels	55
7 Comparing a Donor's DNA to Reference Panel Populations	60
DNA Variants	60
Population-Specific Variants	63
Population Frequencies of Variants and FST Statistics	66
8 Probing Your DNA	73
Analysis of Customer DNA and Microarrays	74
Optical Fibers and DNA Probes	76
9 Forensic Applications of Ancestry DNA Results	79
Discovery of DNA Identification Method	79
The Grim Sleeper	80
The Golden State Killer	81
Identity by Descent	83
Phenotyping	86
10 Privacy, Personal Identity, and Legal Issues	88
Ownership of One's Cells and Genetic Information	88
Ancestry Companies and the Privacy of Genetic Data	90

	CONTENTS	xiii
Advertising Claims		92
Forensic Applications and Privacy		93
Personal Identity through DNA Tests		98
Race and DNA Ancestry		102
11 Discovering Unknown, Missing, or Mistaken Relatives		106
DNA and Paternity Claims		106
Hidden Family Secrets		110
Family Ethnicity: Hidden Secrets		112
Secret Sperm		113
Breaking the Pure Ethnic Descent		115
12 Accuracy, Consistency, and Validation of DNA Ancestry Tests		118
Comparing Different Company Ancestry Results		118
DNA Markers and Ancestry Regions		120
Ancestry Tests with Twins		121
Self-Declared Ancestry vs. Genomic Ancestry		124
13 Conclusion		126
Summary of Common Misunderstandings		129
References		131
Index		146
