 events, 27–28
 experience of, 181, 213–215
 intentionality of, 10, 18
 motivational-behavioral aspects, 18–19
 multi-modal aspects, 18–19
 necessary features of, 18–20
 objects, 27–28
 self-reports of, 13
 enmity, 181–182
 Enmity emotion type, 36, 179–182
 appeal as central variable of, 179
 characterization, 179–180
 emergence conditions, 178
 local intensity variables, 178
 envisaged events, 33–35, 77–78, 88, 126–150, 205, 222–225
 envy, 117–118
 Event-based emotions, 32–34
 distinguished from Agent-based emotions, 34–35, 93
 distinguished from Object-based emotions, 35–36, 67, 178
 envisaged events and, 33–35
 Fortunes-of-others emotions, 109–122
 Loss emotions, 106–109
 Prospect-based emotions, 126–144, 146–150
 proximity and, 77
 satisfaction/dissatisfaction, 30–32
 Well-being emotions, 100–106, 146–150
 events
 desirability/undesirability of, 60–65, 90–91, 104–105, 130–131
 goals and, 8, 27, 30, 49–56
 experience of emotions
 benefits of, 213–215
 causal attribution and, 200–202
 conscious nature of, 213, 216–217
 extraversion, 198, 200
 familiarity, 183–186
 as intensity variable, 94
 influence on liking and disliking, 194–198
 fantasy
 emotions produced by, 74–75
 fear, 10–12, 13, 16, 41, 42, 74, 75–76, 126–129, 131–136, 164, 200, 210–211
 Fear emotion type, 34, 127–136
 characterization, 129–130
 desirability as central variable of, 130–131
 emergence conditions, 143, 213, 222
 formalism, 222–223
 local intensity variables, 87, 131, 144
 fears confirmed, 128
 Fears-confirmed emotion type, 34, 127, 136–139, 146–150
 characterization, 136
 desirability as central variable of, 137
 emergence conditions, 151
 local intensity variables, 152
 folk theories of emotions, 5, 13, 164
 Fortunes-of-others emotions, 33, 109–122
 desirability and, 110
 Good-will emotions, 111–113
 Ill-will emotions, 115–122
 local intensity variables, 85–87, 113–115
 self-pity and related states, 122–124
 global intensity variables, 37, 72–83, 105
 arousal, 72, 80–83
 distinguished from local variables, 37, 71
 psychological proximity, 76–78
 sense-of-reality, 72–76
 unexpectedness, 78–80
 goals
 active-pursuit goals, 50–51, 61, 99, 122
 as criteria for evaluating events, 1, 27, 30, 36
 desirability and, 31, 59–65
 implicit and explicit, 55–56
 interest goals, 50–51, 62, 67–68, 96, 113, 118
 reference goals, 56, 61, 106
 structure of, 54–56
 types of, 50–51
 Good-will emotions, 111–114
 gratification, 105, 137, 148–149
 Gratification emotion type, 34, 127, 136–139, 146–150
 characterization, 136
 desirability as central variable of, 137, 140
 emergence conditions, 151
 local intensity variables, 137–138
 gratitude, 17, 43, 167–168, 171–172
 praiseworthiness and, 172
 Gratitude emotion type, 36–37, 167–169, 175
 as a Compound emotion, 56, 170–171
 characterization, 169
 desirability as central variable of, 171

Subject Index

291

- emergence conditions, 168–169
 local intensity variables, 167
 praiseworthiness as central variable of, 172
 grief, 14, 42, 106–107, 212
 as a Loss emotion, 106–107
 guilt, feelings of, 17, 42, 156, 162–165
- happiness, 4, 14, 32, 42, 106, 113, 145, *see also*
 joy
 happy-for, 33, 86, 111, 113–114, 123, 207
 Happy-for emotion type, 33, 110
 characterization, 111
 desirability as central variable of, 112–114
 emergence conditions, 124
 local intensity variables, 113–115
- hate, 36, 42, 181
 hating (momentary), 36
 helplessness, 211
 hope, 42, 97, 128, 130–132
 as distinct from hopefulness, 97, 132–133
 Hope emotion type, 34, 38, 127, 130–136
 characterization, 129
 desirability as central variable of, 131
 emergence conditions, 131
 local intensity variables, 134, 144
 hopeful, as distinct from hope, 97, 132–133
 hopefulness, *see* hopeful
 hopelessness, 151, 202, 211
- Ill-will emotions, 115–122
 imagination
 emotions produced by, 75–76
 incongruity, 93–94, 160–161, 166–167
 indifference, 48, 64, 130
 individual differences, 6, 62, 67, 198, 208
 intensity of emotions
 determinants of, 56, 60–69, 71–94
 intensity variables, 25, 37, 49, *see also* central
 intensity variables; global intensity variables;
 local intensity variables
 calibration across emotions, 97–98
 variable values and weights, 95–97
 intention, 159–160
 interest, 42, 196, 199, 206
 interest goals, 50–51, 56, 62, 96
 introversion, 198, 200
- jealousy, 7, 118–119
 joy, 26, 32, 42, 101, 122, *see also* happiness
 Joy emotion type, 32, 38, 101–105, 146–150,
 168
 characterization, 101–102
 desirability as central variable of, 105, 150,
 220
 emergence conditions, 43, 123, 138, 145, 149,
 167, 171, 176
 formalism, 219–222
 local intensity variables, 85, 221
 judgment, 4, 7, 191–196
 effect of arousal on, 81–83
- language of emotion, 1, 11–12, 33, 69, 104, 132,
 207
 affective lexicon, 5, 32, 108, 205–206
 emotion words, 5, 7, 11, 20–21, 32–34, 120,
 133, 144, 204–208
 problems relating to, 5, 11–12, 204–208
 Lazarus, Richard, xi, 10, 50, 209, 237–240, 246
 likelihood, 75–77, 87–89, 90–91, 131–132
 distinguished from unexpectedness, 79
 liking/disliking (dispositional), 31, 53, 58,
 68–69, 86, 115, 117–118, 183–194
 liking/disliking (momentary), 31, 187–188,
 190–194, *see also* Object-based emotions
 Attraction emotions, 177–190
 development into dispositional liking/
 disliking, 188–189
 influence of familiarity and novelty, 194–198
 literature
Anna Karenina (Tolstoy), 7
 emotion inferences from situation descriptions
 in, 7–8
Othello (Shakespeare), 7
 local intensity variables, 21, 83–94
 cognitive unit, 91–93
 deservingness, 86–87
 desirability for other, 85–86, 110
 distinguished from global variables, 71, 99
 effort, 89–91
 familiarity, 94
 incongruity, 93–94, 160
 likelihood, 87–89
 liking (dispositional), 86
 Loss emotions, 106–109
 love, 36, 42, 180–182, 199, 216
- Mandler, George, 94
 mere exposure effect, 10, 94, 185–186, 194–195,
 197
 memory, 12–13, 187, 192, 214, 216–217
 moods, xi, 18, 93, 192, 221–222, 228
 distinguished from emotions, 18
 moral standards, 1, 8, 56–57, 67, 154, 163,
 173
 motivational aspects of emotions, 14, 19, 50,
 110
 multi-modal aspects of emotion, 19
- negligence, 159
 Neisser, Ulrich, 233
 nightmares, emotions in, 75
 Norman, Donald A., xv

- nostalgia, 101
 novelty, 94, 184–185, 198
- Object-based emotions, 35
 Attraction emotions, 178–202
 distinguished from Agent-based emotions, 178
 distinguished from Event-based emotions, 178
 emotion-capable and emotion-incapable
 objects, 35–36, 178–180
 liking/disliking (momentary), 31, 183–185
 objects
 emotion-capable and emotion-incapable, 35–36, 178–180
 evaluation of, 1, 27–28, 31, 35–36
 technical usage explained, 28, 31
- OCC model of emotion, xi, xii, 232–233
 implications for emotion research, 245–247
 influence on development of computational models, 233–235
 influence on practical applications, 241–244
 optimism, 151
- pain, 42, 44, 216
 phobias, 75–77, 135–136
 physiological aspects of emotions, 4, 15–16, 80
 pity, 76, 86, 92, 120–121
 pleasure, 42, 44, 186, 196
 pleasure–interest (PIA) model of aesthetic liking, 196
 praise/blameworthiness, 25, 31, 91, 153–160
 as central intensity variable, 37, 60, 65–68
 role in Compound emotions, 172–175
 standards and, 31, 59–60, 65–68
 preferences, 10, 27, 186–187
 pride, 35, 92, 154–156, 158, 160–162, 174–175, 227
 Pride emotion type, 156–165, 168
 characterization, 157
 emergence conditions, 162, 176
 local intensity variables, 160, 162, 175
 praiseworthiness as central variable of, 83, 92
 strength of the cognitive unit, 155–156
 primary emotions. *see* basic emotions
 problem-focused coping, 208–211
 Prospect-based emotions, 32–34, 77, 100, 126–144
 desirability and, 98, 130
 goals and, 133
 local intensity variables, 87–91
 proximity effects, 77
 resignation and, 150–151
 surprise and, 144
 suspense and, 150
 psychological proximity, 37, 72, 76–78, 133–135, 142
 psychological situations, as foundation of emotions, 1–4, 6–8, 16–19
 psychopathology, 201–202
 psychotherapy, 5, 202, 213
- reference goals, 56, 61, 90, 106
 relative deprivation, 118–119, 122
 relief, 14, 17, 42, 106n.1, 126–127, 143–144
 in absence of prior fear, 142–143
 Relief emotion type, 34, 77–78, 89, 127, 140–144, 146–150
 characterization, 139
 desirability as central variable of, 140
 emergence conditions, 78, 150
 formalism, 223–226
 local intensity variables, 89, 141–142, 224
 reproach, 35, 43, 71, 155n.1, 168, 207
 Reproach emotion type, 35, 43, 154, 166–167
 characterization, 166
 emergence conditions, 43, 166
 local intensity variables, 71, 166–167
 praiseworthiness as central variable of, 67, 175
 resentment, 51, 115–118, 166
 Resentment emotion type, 33, 110, 116–120, 123
 characterization, 116
 desirability as central variable of, 116, 121
 emergence conditions, 163
 local intensity variables, 119
 resignation, 133, 150–151, 211, 238
 responsibility, 22, 35, 66, 153–160, 173, 201–202
 reverse appraisal, 242–245
 rumination, 19–20, 98
- sadness, 5, 16, 42, 80, 89, 97
 satisfaction/dissatisfaction, 30–32, 152, 153, 178, 201, 230, *see also* Event-based emotions
 schadenfreude, 33, 87, 116, 207, 121–122
 Schadenfreude emotion type, 33, 87, 96, 110, 120–123
 characterization, 116
 desirability as central variable of, 121, 124
 emergence conditions, 121
 local intensity variables, 96, 120–121
 schema fit, 94, 190
 schema-based evaluations
 appeal, 194
 liking or disliking, 187–190
 schemas, 5–6, 187–189
 self-anger, 36, 142, 171, 176

Subject Index

293

- Self-anger emotion type, 36, 167–169, 175
 as a Compound emotion, 36, 171, 175
 characterization, 170
 desirability as central variable of, 171, 175
 emergence conditions, 171–172
 local intensity variables, 176
 praiseworthiness as central variable of, 167
 self-pity, 92, 122–123
 Self-reproach emotion type, 35, 92, 154, 155n.1,
 156–165, 168
 characterization, 157
 emergence conditions, 163, 176
 local intensity variables, 160–162, 175
 praiseworthiness as central variable of, 154, 162
 strength of the cognitive unit, 155–156, 160
 self-satisfaction, 105
 Self-satisfaction emotion type, 36, 167–169,
 174–175
 as a Compound emotion, 36, 175
 characterization, 170
 desirability as central variable of, 168
 emergence conditions, 176
 local intensity variables, 105
 praiseworthiness as central variable of,
 176
 sense-of-reality variable, 72–76, 77, 135–136
 shame, 4, 9, 17, 42, 45, 154–156, 160–164
 Simon, Herbert, 3, 214, 232–233, 245
 simulation heuristic, 78
 SOAR, 237, 240–241
 social comparison, 115, 118–119, 122, 191
 social context of emotions, 9, 93, 172n.3, 218
 sorry-for, 86, 95
 Sorry-for emotion type, 33, 92, 95–96, 110–113
 characterization, 112
 desirability as central variable of, 96, 112
 emergence conditions, 33
 local intensity variables, 96, 112–113
 standards
 as criteria for evaluating actions of agents, 1,
 27, 34–35, 36
 praise/blameworthiness and, 31, 36, 49,
 60, 65
 role in the value system, 1, 51–53, 56–59, 67–68
 startle reflex, 145–146
 surprise, 8, 42, 45–46
 as a non-emotional state, 18, 45–46, 79,
 144–146, 206
 as related to unexpectedness, 79, 144–145
 suspense, 150
 suspension of disbelief, 7, 74
 tastes
 acquired tastes, 188
 as criteria for evaluating objects, 1, 27, 36, 49, 60
 appeal and, 31, 49, 68
 Attraction emotions and, 177–190
 role in the value system, 1, 53, 56, 58–59,
 68–69
 testing of emotion theories, 25–27
 computer modeling, 26–27
 experimental and field studies, 25–26
 tokens (linguistic), 11–12, 205, *see also* emotion
 words
 definition, 103
 fit with emotion types, 104, 106–108
 uncertainty, 16n.1, 72, 150, 195
 unconscious cognitions underlying emotions, 30,
 213, 216–217
 unconscious emotions
 argument for, 18, 213, 216–217
 undesirability, 30–32, *see also* desirability/
 undesirability
