disgust response 287–288
dual control model of sexual response 282–283
masturbation in primates 152–153
Neanderthals 530–533
neurodevelopment 100–101
paraphilic interests 259
pornography consumption 335–338
sexual behavior 279–281, 284–286, 298
sexual desire changes across lifespan 284, 286–287
sex hormones; see also androgens; estrogen;
neuroendocrine correlates; oxytocin;
progesterone; prolactin; testosterone
organizational/activational hypothesis 61
prenatal influences on bisexuality 61
sex ratios, polygyny 238–239, 241
sex tech 297
sex therapy
female sexual dysfunction 284–289
evolutionarily informed 292–294
sexual aggression; see also rape and coercion
confluence model of 304, 318–321
pornography consumption 341
sex differences 280–281
sexual arousal
bisexual orientation in males 53–54, 56
sexual fluidity 95
sexual availability, nonhuman primates 373, 412
sexual behavior
bisexual orientation in males 53–54
evolutionary sexology 252–256
Neanderthals 518–521
nonhuman primates 357–360, 363–364,
508–509
pornography consumption 340–341
sex differences 279–281, 284–286, 298
sexual fluidity 95
uncommitted see sociosexuality
The Sexual Brain (LeVay) 110
sexual conflict theory, female sexual dysfunction 281–282
sexual desire
DSM diagnostic criteria 277
estradiol-progesterone balance paradigm 203–204
female changes across lifespan 283–284, 286–287
female sexual dysfunction 289
male sexual dysfunction 267–268
female sexual dysfunction 289
sex differences 280–291
sexual disorders and paraphilic interests, male
174–175, 268–269; see also reproductive health
chronophilia 259–261, 262
definitions and terminology 256
evolutionary perspectives 256–259, 267–268
evolutionary sexology 252–256
fetishism 261–264
nonconsent 264–266
prevalence 258
sadomasochism 266–267
sexual arousal 258, 259
sexual dysfunction, female see female sexual dysfunction
sexual emotions, nonhuman primates 392–393
sexual excitation/inhibition factors, dual control model 282–283
sexual fluidity
females 95–96, 109–110
polygyny hypothesis 117
sexual identity; see also sexual orientation
bisexual orientation in males 53–54
bisexuality in females 102
categories 4–6
sexual fluidity 95
sexual instincts
evolutionarily informed sex therapy
292–294
suppression of 291
value judgements about 295
sexual interest see sexual desire
sexual motivation system (SMS), theory of disruption 265–266
sexual offending (SO) 257, 303–305, 326–327; see also pedophilia; rape and coercion
confluence model of sexual aggression 304, 318–321
definitions 303
evo-devo perspective 317
evolutionary accounts of emotion 322–326
evolutionary perspectives 304–305
future research directions 321–322
incentive motivational model 323–325
sexual orientation; see also bisexuality; same-sex attraction
changes over time 65
Kinsey scale of 54–58
male 53–54
paraphilic interests 256–273
sexual orientation, female 3–4, 21
definitions and characterization of subject 4–6
discontinuous nature of categories 8–12
evolutionary perspectives 13, 16–20
illustration of sexual partners 10
