1 Introduction  
1.1 The Language of Mental Illness  
1.2 Research Questions  
1.4 Structure of This Book  
1.5 Conventions  
1.6 Conclusion  
2 The Language of Mental Illness  
2.1 Introduction  
2.2 Social Constructionism  
2.3 Social Constructionism and CDA  
2.4 Themes in Research on Mental Health and Language  
  2.4.1 Stigma and Self-Stigma  
  2.4.2 Stigma-Reduction Efforts  
2.5 Press Data  
  2.5.1 Mental Illness in the News  
  2.5.2 Depictions of Criminality and Violence  
  2.5.3 Gender and Mental Illness  
  2.5.4 Depictions of Schizophrenia  
2.6 Existing Research: An Overview  
2.7 The Place of the Current Work  
2.8 Conclusion  
3 Analytical Method 1: Corpus Linguistics  
3.1 Introduction  
3.2 Corpus Linguistics  
3.3 Corpus Methods  
  3.3.1 Frequency Analysis  
3.4 Current corpus linguistics  
4 Analytical Method 2: Discourse Analysis  
4.1 Introduction  
4.2 Discourse Analysis  
4.3 Discourse Analysis Methods  
  4.3.1 Discourse Analysis: Findings  
4.4 The Place of the Current Work  
4.5 Conclusion  
5 The Language of Mental Illness in Research  
5.1 Introduction  
5.2 The Language of Mental Illness in Research  
5.3 Research Questions  
5.4 The Mental Illness Corpus 1984–2014 (MI 1984–2014 Corpus)  
5.5 Structure of This Book  
5.6 Conventions  
5.7 Conclusion  
6 Conclusion  
6.1 Introduction  
6.2 The Language of Mental Illness  
6.3 Research Questions  
6.5 Structure of This Book  
6.6 Conventions  
6.7 Conclusion
