religious discrimination, audit studies of, 93–94
repeatability, replication and, 145–146
replication
ambiguity of, 148–151
conceptual, 152
defined, 145–146
forms of, 145
interpretation of, 147–148
opportunity costs to, 151–153
overview of, 144–146
quality control in research and, 137, 143–144
summary of, 158–159
replication/reproducibility rates, 147n.41
reproducibility of research, 137
replication/reproducibility rates, 147n.41
research impact, 121–122
respondents
audit studies and role of, 90–91
in conjoint survey research, 102–103
racial bias of, 94–95
results-blind review, 116n.24
role-playing experimental simulations, in political science research, 7
Roth, Alvin E., 43–44, 139–140
salience, unit homogeneity and, 34–35
sample average treatment effect (SATE), 30
moderation analysis and, 47–49
sampling
analytical techniques, 45
experimental samples, 70–79
external validity, 20n.7
generalization and, 64–65
heterogeneity detection, 74–78
in lab-in-the-field experiments, 104–105
population identification, 18
probability sampling, 80–82
representative probability vs. purposive sample, 20n.6
scenarios, 72–74
social science research and, 12–13, 17–22
unit characteristics, 20–21
weighting schemes, 19–20, 78–79
satisficing behavior, conjoint survey respondents, 102–103
scalability, threats to, 63
effect size and, 153–156
Schwarz, Susanne, 154–156
scientific method
components of, 16–17
defined, 15–16
nongovernmental organizational response research and, 111
in physical sciences, 33–34n.16
scientific process
overview of, 15–27
social science experimental research and, 12–13
scope conditions, replication ambiguity and, 150
searching for the facts, in experiments, 43–44
Sekhon, Jasper S., 39n.31
self-interest across cultures, in lab-in-the-field experiments, 108
self-monitoring, in experimental research, 131n.13
self-replication, 151
self-selection, avoidance in experiments of, 39n.10
Shadish, William R., 62
Shafranek, Richard M.,
Sniderman, Paul M., 30–34
social cohesion, war and, lab-in-the-field experiments on, 107–108
social desirability bias, race discrimination audit studies, 88n.3
socializing, question design and, 120–122
social media
behavioral data and, 24–25
political science research and, 11
social science
challenges of experimental research in, 1–5
conjoint survey studies, 96–97
future research issues in, 167–168
replication research and, 144n.3
Spilker, Gabrielle, 110
spoiling the pool, in audit studies, 94n.16
stable unit treatment value assumption (SUTVA), 30, 32–42
audit studies, 87n.2
standard operating procedure, default practices in research using, 136n.26
Stanley, Julian C., 5–6, 122–125, 168
