

Antiracist Discourse

Antiracism is a global and historical social movement of resistance and solidarity, yet there have been relatively few books focusing on it as a subject in its own right. After his earlier books on racist discourse, Teun A. van Dijk provides a theory of antiracism along with a history of discourse against slavery, racism and antisemitism. He first develops a multidisciplinary theory of antiracism, highlighting especially the role of discourse and cognition as forms of resistance and solidarity. He then covers the history of antiracist discourse, including antislavery and abolition discourse between the sixteenth and nineteenth centuries, antiracist discourse by white and black authors until the Civil Rights Movement and Black Lives Matter, and Jewish critical analysis of antisemitic ideas and discourse since the early nineteenth century. It is essential reading for anyone interested in how racism and antisemitism have been critically analyzed and resisted in antislavery and antiracist discourse.

TEUN A. VAN DIJK is Founding Director of the Centre of Discourse Studies, Barcelona, and one of the founders of Critical Discourse Studies.

Antiracist Discourse

Theory and History of a Macromovement

<i>Index</i>	286

Acknowledgments

For a critical reading of an earlier version of this book I am indebted first of all to Alastair Bonnett, no doubt the first specialist of antiracism, and to Michael Billig, specialist in many areas, not only as one of the founders of discursive psychology but also as one who knows about the Jewish resistance against antisemitism. For her many comments and suggestions, I am especially indebted to Ruth Wodak, admired colleague and friend of decades, and one of the most respected international specialists of the discourses of racism and antisemitism. I am indebted to Yin Paradies, a prominent specialist of antiracism studies in Australia, for a critical review of the book. Markus Rheindorf provided the translation of the examples in German. My brilliant PhD student and coordinator of our Centre of Discourse Studies, Lucia de la Presa, checked the translations of some examples. Finally, I am indebted to three anonymous reviewers – most of whose suggestions have been gratefully integrated in this version.
