- animals, 174–5, 239
- anterior cingulate cortex (ACC), 104
- anxiety with mathematics, 144–6, 168
- aphasia, 103, 116
- arousal, 162
- Arrowsmith-Young, Barbara, 23, 52
- assessment
  - competence versus performance, 268–9
  - and emotions, 277–8
  - and feedback, 282–4
  - formative, 263, 264–6
  - and learning, 262
  - science of learning perspective, 263
  - summative, 263–4
- attention, 92–3, 109
- audio recognition, 113
- Australian College of Educators, 131, 138
- Australian Curriculum, Assessment and Reporting Authority, 123
- Australian Institute of Health and Welfare (AIHW), 290, 293, 313
- Australian Institute for Teaching and School Leadership (AITSL), 290
- Australian Values Education Program (AVEP), 202
- autism, 184–5
- axon terminals, 38, 40
- axons, 38, 43
- .....
- babble, 86, 114
- babies
  - babbling, 86, 114
  - language acquisition, 114
- number sense, 123–4, 136
- social evaluations, 210, 225
- see also* infants
- balance, 51–2
- Barrett, Lisa Feldman, 20, 147, 151, 163, 164, 173, 274, 307
- Bayes, Thomas, 308
- Bayesian brain, 308–9
- behaviourists, 32–3
- Belousov, Boris, 67
- Berger, Hans, 102
- Bever, Tom, 132
- biological determinism, 186–7
- bisociation, 91
- Bliss, Tim, 47
- Blunt, J. R., 266
- Boatman, Dana, 117
- Boyle, Robert, 18
- brain
  - adult, 5
  - and affordance, 251
  - anatomy, 34–7
  - Bayesian, 308–9
  - at birth, 44
  - as computer, 240–2
  - developing, 5–7
  - embodied, 6, 17
  - and emotions, 164–5, 305–6
  - as feedback control systems, 305–6
  - and feelings, 305–6
  - formation, 42–5
  - learning in, 17
  - and meaning, 121
  - and numeracy, 126–7, 136
  - at puberty, 44
  - relationally embedded, 172
  - and self, 75, 78
  - and student wellbeing, 303–5
  - of teachers, 86
  - teaching how it works, 57
  - and timescales, 100
  - weight, 37
- brain damage
  - and balance, 51–2
  - and emotions, 148–51, 167
  - and language, 116–17
  - and memory, 45–6
  - and number sense, 129
  - and words, 247–8
- brain development, 17, 44–5
- brain function, 117
- brain mapping, 31
- brain plasticity, 12, 17, 29, 42–5, 50–2
- brain quiz, 21
- brain science, 12, 30
- BrainU Program, 30
- Brentano, Franz, 98
- Broca, Paul, 103, 116
- Broca's area, 103, 121, 136
- Brodman, Korbinian, 103
- Brodman areas, 103, 116, 129
- broken mirror hypothesis, 184–5
- Bruer, John, 29
- bullying, 290
- Burt, Sir Cyril, 188
- butterfly effect, 66, 67
- Bygren, Lars Olov, 187
- .....
- Cajal, Santiago Ramón y, 32, 38, 40
- care and trust, 221, 222
- category errors, 244

- Changuex, Jean-Pierre, 89
- child development, 18, 293
- children
  - as dynamic systems, 70
  - happiness in, 294
  - misbehaving, 49
  - as self-organising beings, 68–72
- choice, 219
- Chomsky, Noam, 126
- Churchland, Patricia, 221
- cingulate gyrus, 37
- Clark, Andy, 277, 309
- classrooms
  - as ecosystems, 236–7, 258
  - emotions in, 158
  - neurodiversity in, 178–9, 196
  - open-plan, 252–5
  - safe places to be wrong, 271–4
  - values in, 205
- Clement, Neville, 222, 298
- cognition, embodied, 238, 243, 245–6, 248
- cognitive fluidity, 234
- cognitive subconscious, 10, 97
- cognitive theory, 66
- cognitive unconscious, 10
- cognitivism, 238, 240–2, 243
- Cohen, Laurent, 119
- Collingridge, Graham, 47, 94
- competence, 268–9
- competency-based teacher education (CBTE), 268
- competency-based training (CBT), 268
- complexity science, 20
- concept mapping, 266–7
- concern for others, 215–16
- conjectures, 270

- conscious awareness, 10–12, 17  
 consolation, 214  
 consolidation, 94–5  
 constructionist theories, 173–4  
 constructivism, 20–1  
 conversations, 10  
 Copernican revolution, 19  
 Copernicus, Nicolaus, 62  
 core affect, 307  
 corpus callosum, 35  
 cortex, 103  
 cortical thinning, 185  
 Cowell, J. M., 213  
 Crick, Francis, 77  
 critical realism, 20–1  
 cross-sectional sampling, 63  
 cultural norms, 180  
 culture  
   described, 176–8  
   as embraced, 178, 180, 196  
   and emotions, 179–81  
 culture of inquiry, 272, 287  
 curiosity, 52–3  
 .....
