

INDEXES

† = lemma is condemned as not latin (see Index 2).

Lemma numbers in **bold** indicate the word is part of the lemma, otherwise it appears in the gloss.

For words grouped by suffix see Appendix II.

For convenience, the Indexes mostly record words in CL spelling; orthographic information where significant is given in the edition.

4. GREEK IN THE *EXPOSITIO NOTARUM*

Greek figures sufficiently in this text to warrant a basic collection of the data. The table below is meant to include all words of Greek origin, no matter when / if naturalised in Latin. Lemmata are in bold, Greek words in the gloss are in italics; *gr.* following a word = the expositor describes it as

GREEK IN THE *EXPOSITIO NOTARUM*

Greek. All the words are also in Index 6. The first table gives the text order, which shows the incidence of Greek through the document as a whole. The second table gives the Greek in (Latinised) alphabetical order. The gloss is indicative only, it is not for use without the full text in the edition.
