Introduction	1
1.1 Recent Developments Regarding the Energy–Environment Agenda	2
1.2 Situating This Book within the Existing Literature	5
1.3 The Purpose and Scope of This Book	9
1 Foundations of the Energy–Environment Nexus and International Economic Law	12
1.1 The Underlying Principles and Concepts	12
1.1.1 Sovereignty over Natural Resources	13
1.1.2 Sustainable Development	17
1.1.3 Polluter-Pays Principle	21
1.1.4 Precautionary Principle	23
1.1.5 Common but Differentiated Responsibilities	25
1.1.6 Environmental Impact Assessment	27
1.1.7 Energy Security and Safety	30
1.2 International Economic Framework for Environmental Policy Space	34
1.2.1 WTO	34
1.2.1.1 General Exceptions	37
1.2.1.2 Other Policy Flexibilities	41
1.2.2 RTAs	44
1.2.3 IIAs	45
1.2.3.1 General Exceptions	47
1.2.3.2 Other Policy Flexibilities	49
1.2.4 ECT	52
1.3 Concluding Remarks	56

2	Energy Trade Control and Environmental Protection	57
2.1	Carbon Pricing and Border Adjustments	57
2.1.1	Carbon Leakage and Countermeasures	58
2.1.2	BCAs and WTO Law	64
2.1.2.1	Tax-Related BCAs	65
2.1.2.2	Regulation-Related BCAs	69
2.1.2.3	Some External Implications of BCAs	74
2.1.3	Climate Clubs	76
2.2	Energy-Related Trade Restrictions	79
2.2.1	Import Restrictions and Environmental Policy Space	79
2.2.1.1	Improvement of Air Quality	80
2.2.1.2	Localization of Clean Energy Production	83
2.2.1.3	Restrictions against Radioactive Contamination of Foods	86
2.2.2	Export Restrictions and Environmental Policy Space	88
2.2.2.1	Legal Constraints	91
2.2.2.2	Pro-environmental Considerations	93
2.2.2.2.1	General Exceptions	94
2.2.2.2.2	Carve-Out for Some Quantitative Export Restrictions	95
2.3	Concluding Remarks	97
3	Energy Subsidies and the Environment	99
3.1	Fossil Fuel Subsidies	100
3.1.1	The Scope of Subsidies and Policy Agenda	100
3.1.2	Limited Responsiveness of the Global Climate and Trade Regimes	104
3.1.3	Limitations of the SCM Agreement	106
3.1.4	Dual Pricing	110
3.1.5	SOEs	114
3.1.6	The Way Forward	116
3.1.6.1	Horizontal Improvements	116
3.1.6.2	Sectoral Improvements	119
3.2	Renewable Energy Subsidies	122
3.2.1	Renewable Energy Support Policies	123
3.2.2	Legal Actions against Renewable Energy Subsidies	126
3.2.3	Key Messages from WTO Jurisprudence	132
3.2.4	Creating More Policy Space for Renewable Energy Subsidies	135
3.2.4.1	Due Restraint for Renewable Energy Subsidies	136
3.2.4.2	Technology Transfer Exemption	138
3.2.4.3	Increasing Thresholds for Negligible Subsidies	138
3.2.4.4	Application of General Exceptions	139
3.3	Concluding Remarks	140

CONTENTS

ix

4	Pro-environmental Energy Standards and Trade	142
4.1	Trade Concerns over Pro-environmental Energy Standards	142
4.1.1	Energy Efficiency STCs	145
4.1.2	Emission Control STCs	147
4.1.3	Renewable Energy STCs	148
4.1.4	The Overall Picture	150
4.2	Energy–Environment TBT Issues	151
4.2.1	Labelling and PPMs	151
4.2.2	Private Standards	157
4.2.3	Development and S&D Treatment	163
4.2.4	Regulatory Convergence	167
4.2.4.1	Harmonization with International Standards	169
4.2.4.2	Equivalence and Mutual Recognition	172
4.2.4.3	Regional Harmonization and Collaboration	174
4.3	Sustainable Service Standards	176
4.4	Green Procurement Standards	182
4.5	Concluding Remarks	185
5	Energy Investment Regulation and the Environment	186
5.1	Environmental Control of Energy Investment	186
5.1.1	Restrictions on Environmentally Hazardous Energy Investment Activities	187
5.1.2	Environmental Expropriation	191
5.1.3	Environmental Accountability of Energy Investors	196
5.2	Regulatory Changes in Renewable Energy Support	201
5.2.1	The Contours of FET	201
5.2.2	Renewable Energy Jurisprudence and Policy Lessons	203
5.2.2.1	ISDS Cases against Spain	205
5.2.2.2	ISDS Cases against Italy	208
5.2.2.3	ISDS Cases against the Czech Republic	210
5.2.2.4	Overall Implications for the Energy–Environment Nexus	212
5.3	Trade and Investment Interplay in Clean Energy	213
5.4	Concluding Remarks	221
6	Energy and Green Technologies	222
6.1	Developing Green Technologies Related to Energy	222
6.1.1	R&D Spending Requirements	223
6.1.2	R&D Subsidies	225
6.2	Facilitation of Green Technology Use in Energy Trade and Investment	233
6.2.1	Trade Liberalization	233
6.2.1.1	The Goods Sector	234
6.2.1.2	The Services Sector	242

x	CONTENTS	
	6.2.2 Technology Transfer	252
	6.2.2.1 International Rule-Making Developments	253
	6.2.2.2 WTO Law	256
	6.2.2.3 Non-WTO Trade Agreements	261
	6.2.2.4 International Investment Regulation	262
	6.2.2.5 Training of Local Personnel	265
	6.3 Concluding Remarks	266
	Conclusion	267
