The Cambridge Handbook of Religious Epistemology

The Cambridge Handbook of Religious Epistemology, the first to appear on the topic, introduces the current state of religious epistemology and provides a discussion of fundamental topics related to the epistemology of religious belief. Its wide-ranging chapters not only survey fundamental topics but also develop non-traditional epistemic theories and explore the religious epistemology endorsed by non-Western traditions. In the first part, Faith and Rationality, readers will find new essays on Reformed epistemology, skepticism and religious belief, and on the nature of evidence with respect to religious belief. The rich second part, Religious Traditions, contains chapters on Hindu, Buddhist, Islamic, Jewish, and Christian epistemologies. The final part, New Directions, contains chapters ranging from applying disjunctivism and knowledge-first approaches to religious belief, to surveying responses to debunking arguments. Comprehensive and accessible, this Handbook will advance the field for years to come.

Jonathan Fuqua is Assistant Professor of Philosophy at Conception Seminary College. He is the co-editor of Faith and Reason: Philosophers Explain Their Turn to Catholicism (2019) and Classical Theism: New Essays on the Metaphysics of God (2023).

Tyler Dalton McNabb is Associate Professor of Philosophy at St Francis University. He is the author of Religious Epistemology (Cambridge, 2018) and God and Political Theory (Cambridge, 2022). He has also co-authored Plantingian Epistemology and World Religions (2019) and Classical Theism and Buddhism (2022).
