I Climate Introduction 1
1 Where Do We Stand on Climate Change? 3
2 Climate Science 101 16
3 What’s So Bad about Climate Change? 37
4 Climate Negotiations 50
5 Climate Economics 61

II Responses to Climate Change 79
6 The Energy Transition 81
7 Other Mitigation 101
8 Adaptation 114
9 Our Descendants Will Demand Climate Intervention 130

III Carbon Dioxide Removal 149
10 Natural Climate Solutions 151
11 Carbon Capture and Sequestration 171
# Table of Contents

12  Direct Air Carbon Capture and Sequestration  187

**IV Solar Radiation Management**  199

13  Solar Radiation Management Alternatives  201

14  Stratospheric Aerosol Injection  217

15  SAI Deployment  229

**V Social Ramifications of Climate Intervention**  249

16  Governance of Carbon Removal  251

17  Governance of SRM and SAI  264

18  Ethics  281

19  Public Perception  296

**VI The Path Forward**  313

20  The Path Forward for Carbon Removal  315

21  The Path Forward for Solar Radiation Management  326

*Epilogue*  340

*Acronyms*  344

*Appendix*  348

*Notes*  355

*Index*  396
