## General Index

This index lists most occurrences of significant terms, concepts or names. Occasionally the indexed term occurs more than once on the listed page. **Bold type** indicates more important occurrences of the indexed term. As a rule Rousseau's first use of a significant term, concept or name is accompanied by an Editorial Note identifying it. The reader is urged to consult the Editorial Notes alongside the text, as index entries do not always refer to them. Page references to the Editorial Notes are in *italics*. An asterisk (\*) indicates a footnote of Rousseau's. Whenever necessary, such a footnote is further identified by paragraph: 150[31]\* refers to Rousseau's first footnote in the paragraph marked [31] on page 150.
